## TRADEMARK ASSIGNMENT

This Trademark Assignment (this "Assignment") effective as of December 29, 2008 (the "Effective Date") by Furukawa Electric North America, Inc., a Delaware corporation ("Assignor").

### RECITALS:

WHEREAS, Assignor and OFS Fitel, LLC, a Delaware limited liability company ("Assignee"), are parties to an Asset Contribution and Assumption of Liabilities Agreement as of the even date herewith (the "Asset Contribution Agreement"), pursuant to which Assignor sells, transfers, sets over, conveys, delivers and contributes in kind to Assignee as additional paid in capital all of Assignor's right, title and interest in and to the IP Division, as such term defined therein, for good and valuable consideration;

WHEREAS, the IP Division includes certain trademarks owned by Assignor, including, but not limited to those registered trademarks as listed in Exhibit A;

WHEREAS, Assignee is desirous of acquiring all rights, title and interest in and to all registered and unregistered trademarks owned by Assignor, including, but not limited to those trademarks set forth in Exhibit A, along with any and all goodwill relating thereto (the "Marks");

NOW, THEREFORE, for good and valuable consideration that Assignor receives from Assignee under the Asset Contribution Agreement, the receipt and sufficiency of which consideration Assignor hereby acknowledges:

1. Assignor hereby sells, assigns, transfers, and conveys to Assignee and its successors, assigns, and nominees, absolutely and in perpetuity, Assignor's entire right, title, and interest worldwide in and to the Marks, together with all the goodwill associated therewith, and including the right to sue for and receive all damages from past infringements arising prior to the Effective Date, the same to be held and enjoyed by Assignee, its successors, assigns, and legal representatives.

2. Assignor further agrees to execute all documents and do all such other things as may be necessary or appropriate to carry out the intent and/or purpose of this Assignment. In addition, and without limiting the generality of the foregoing, Assignor further agrees, at the request of Assignee or its successors in interest, to do all lawful acts which may be required for obtaining and enforcing Assignee's intellectual property rights in the Marks, and to otherwise aid Assignee or its successors in interest in enforcing intellectual property rights in the Marks, all at the expense of Assignee or its successors in interest.

3. Assignor hereby constitutes and appoints Assignee and its successors and assigns as Assignor's true and lawful attorneys with full power of substitution, in Assignor's name and stead but on behalf and for the benefit of Assignee and its successors and assigns, to demand and receive any and all of the Marks and to give receipts and releases for and in respect of the same, and any part thereof, and from time to time to institute and prosecute, at the expense and for the benefit of Assignee and its successors and assigns, any and all proceedings at law, in equity or otherwise, or to execute such documents, which Assignee or its successors or assigns may deem

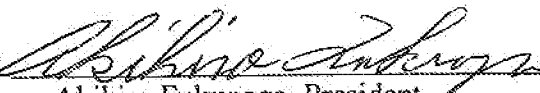

proper for the collection or reduction to possession of, or recordation of ownership to, any of the Marks, or for the collection and enforcement of any claim or right of any kind hereby sold, conveyed, transferred and assigned, or intended so to be, and to do all acts and things in relation to the Marks which Assignee or its successors or assigns shall deem desirable. The foregoing powers are coupled with an interest and are and shall be irrevocable by Assignor or by dissolution of Assignor or in any manner or for any reason whatsoever.

4. This Assignment shall be governed by the law of Delaware without regard to any conflicts of laws.
