INTELLECTUAL PROPERTY ASSIGNMENT

This INTELLECTUAL PROPERTY ASSIGNMENT (this "Assignment"), dated as of September 18, 2008, is made by and between L.R. Nelson Corporation (the "Assignor"), a Delaware corporation, and Robert Bosch Tool Corporation (the "Assignee"), a Delaware corporation. Capitalized terms used but not otherwise defined herein have the meanings ascribed to them in the Purchase Agreement (as defined below).

WHEREAS, Assignor and Assignee have entered into a Global Purchase Agreement, dated as of September 17, 2008 (the "Purchase Agreement"), pursuant to which Assignor assigned to Assignee the Intellectual Property Assets, including, but not limited to, the patents and patent applications identified on Schedule A (collectively, the "Patents") and the copyright and trademark registrations and applications identified on Schedule B (each, respectively, the "Copyrights" and "Trademarks"); and

NOW, THEREFORE, in consideration of the premises and covenants set forth herein, the sum of one dollar (US\$1 00) and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties agree as follows:

1. Assignment of Copyrights and Trademarks. Subject to the terms of the Purchase Agreement, Assignor hereby irrevocably assigns its entire right, title and interest in and to the Copyrights and Trademarks to Assignee, and any renewals and extensions thereof, including, but not limited to: (i) any and all goodwill of the business symbolized thereby or associated therewith; (ii) all rights therein provided by international conventions and treaties; and (iii) the right to sue and recover for past, present and future infringement, misappropriation or dilution thereof.

2. Assignment of Patents. Subject to the terms of the Purchase Agreement, Assignor hereby irrevocably assigns its entire right, title and interest in and to the Patents, any and all improvements thereon, any disclosures which may have not been filed, any and all patent applications (provisional or non-provisional) and any division, continuation, continuation-in-part, renewal and extension thereof, any Letters Patent of the United States which may be issued on any of said applications, and any reissues and reexaminations thereof, and any and all applications for Letters Patent filed in foreign countries for said inventions or improvements, including all priority rights under the Paris Convention, Patent Cooperation Treaty and other national and international agreements, and any and all Letters Patent which have been and may be granted in foreign countries therefor, together with the right to sue and recover for past, present and future infringements thereof.

3. Cooperation. This Assignment has been executed and delivered by the Assignor for the purpose of recording the assignments herein with the United States Patent and Trademark Office, the United States Copyright Office and foreign equivalents thereof. The parties shall cooperate to execute and deliver such other documents and take all such other actions as reasonably necessary to effect the intent hereof and as Assignee may request to evidence, establish, maintain or protect its rights in and ownership of the Copyrights, Trademarks and Patents, including, but not limited, to executing additional forms of assignment as necessary, and cooperating with any assertion efforts to enforce such Patents, Trademarks and Copyrights.

4. General Provisions. This Assignment may be executed in one or more counterparts, each of which when executed shall be deemed to be an original but all of which taken together shall constitute one and the same agreement. This Assignment may not be amended or modified except by an instrument in writing signed by the parties. The failure of any party to enforce any terms or provisions of this Assignment shall not waive any of its rights under such terms or provisions.

5. Governing Law. This Assignment will be governed by and construed in accordance with the laws of the State of Illinois as applicable to contracts made and to be performed in the State of Illinois without regard to conflicts of laws principles.

6. Entire Agreement. This Assignment, including Schedule A and Schedule B hereto, together with the Purchase Agreement (including the Disclosure Schedule in final form) and the Acquisition Documents, constitutes the entire agreement of the parties with respect to the subject matter hereof and supersedes all prior agreements and undertakings, both written and oral, between the parties hereto with respect to the subject matter hereof. This Assignment is subject to all of the terms and conditions set forth in the Purchase Agreement. The Purchase Agreement shall govern in the event of a conflict between the terms hereof and those set forth in the Purchase Agreement.
