Capitalized terms used herein without definition shall have the meanings assigned to such terms in the Purchase Agreement (as defined below).

WITNESSTH:

WHEREAS, Seller and Buyer are parties to that certain Purchase Agreement dated December 3, 2009 (the "Purchase Agreement"), pursuant to which Seller has agreed to sell and transfer to Buyer, and Buyer has agreed to purchase and receive from Seller, all of Seller's right, title and interest in and to all of the Purchased Assets, including, without limitation, the Owned Intellectual Property;

WHEREAS, the Owned Intellectual Property includes, but not is not limited to, the patents listed on Exhibit A, attached hereto, the trademarks listed on Exhibit B, attached hereto, and the domain names listed on Exhibit C, attached hereto; and

WHEREAS, the execution and delivery of this Assignment is a condition precedent to Buyer's obligations under the Purchase Agreement.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Seller and Buyer hereby agree as follows:

1. Seller hereby assigns to Buyer, and Buyer hereby accepts such assignment of, Seller's entire right, title and interest in and to all of the Owned Intellectual Property together with all common law rights therein, the goodwill of the Business in connection with which the Owned Intellectual Property is used, throughout the world, all registrations and renewals thereof, and all rights of action, powers, and benefits accrued thereto, including the right to sue for and collect damages and profits for past and future infringements or dilutions thereof.

2. Subject to the provisions of Section 3, below, the rights, title and interest assigned under Section 1, above, shall be for Buyer's own use and enjoyment, and for the use and enjoyment of Buyer's successors and assigns, as fully and entirely as the same would have been held and enjoyed by Seller if this assignment and sale had not been made.

3. Buyer acknowledges and agrees that Seller shall retain certain rights to use the Owned Intellectual Property for a limited period of time following the date hereof as more fully described in Section 6.8 of the Purchase Agreement.

4. Where appropriate, Seller authorizes and requests the Commissioner of Patents and Trademarks of the United States, and an official of any country or countries foreign to the United States, whose duty it is to register patents, trademarks or copyrights, to record Buyer as the assignee and owner of the Owned Intellectual Property.

5. This Assignment is subject, in all respects, to the terms and conditions of the Purchase Agreement and all of the representations, warranties, covenants and agreements contained therein. Nothing contained in this Assignment shall be deemed to supersede or change any of the provisions set forth in the Purchase Agreement. 7. This Assignment shall be binding upon the parties hereto and their respective successors and permitted assigns.
