INTELLECTUAL PROPERTY SECURITY AGREEMENT

This Intellectual Property Security Agreement (the “**Agreement**”) dated May 21, 2010, is between Triangle Mezzanine Fund II LP, a Delaware limited partnership (“**Lender**”) and Minco Technology Labs, LLC, a Delaware limited liability company (“**Borrower**”).

RECITALS

A. Lender has agreed to make advances to the Borrower as described in that certain Loan Agreement by and among Lender, Borrower and Minco Holding Company, LLC (as may be amended, restated, supplemented or otherwise modified from time to time, the “**Loan Agreement**”).

B. Pursuant to the terms of the Loan Agreement, Lender will make such advances to Borrower, but only upon the condition, among others, that Borrower grants to Lender a security interest in substantially all collateral, to secure the obligations of Borrower under the Loan Agreement.

C. Pursuant to the terms of the Security Agreement, dated as of the date hereof, made by Borrower and certain other Credit Parties named therein in favor of Lender (as may be amended, restated, supplemented or otherwise modified from time to time, the “**Security Agreement**”), Borrower has granted to Lender a security interest in all of its right, title and interest, whether presently existing or hereafter acquired, in, to and under all of the Collateral (as defined in the Security Agreement).

NOW THEREFORE, for good and otherwise valuable consideration, the parties hereto agree as follows (all capitalized terms used herein and not otherwise defined shall have their respective meanings as set forth in the Loan Agreement):

AGREEMENT

To secure its obligations under the Loan Agreement, Borrower grants and pledges to Lender a security interest in all of its right, title and interest in, to and under its copyrights, trademarks and patents listed on Schedules A, B and C hereto, and including, without limitation, all proceeds thereof (such as, by way of example but not by way of limitation, license royalties and proceeds of infringement suits), the right to sue for past, present and future infringements, all rights corresponding thereto throughout the world and all re-issues, divisions, continuations, renewals, extensions and continuations-in-part thereof (collectively, the “**IP Collateral**”), but excluding any of Borrower’s rights under licenses from third parties that cannot be transferred.

If (i) any patent or trademark application is made or registration issued to Borrower after the date hereof, within ninety (90) days after the filing of any such application or issuance, or (ii) any copyright application is made or registration issued to Borrower after the date hereof, within one hundred twenty (120) days immediately after the end of Borrower’s fiscal year during which such application or issuance occurs, Borrower will deliver to Lender a copy of such application and certificate and an assignment for security in such copyright, patent or trademark application or registration, in form reasonably satisfactory to Lender. In the event Borrower fails to take any action to maintain any copyright, patent or trademark of Borrower, Lender may, in its sole discretion and at Borrower’s sole expense, take such action as is reasonably necessary to maintain any such copyright, patent or trademark of Borrower.

Notwithstanding the foregoing, with respect to any trademarks that are the subject of an application before the United States Patent and Trademark Office filed as Intent to Use applications for

which a Statement of Use or Amendment to Allege Use have not been filed and accepted, this grant of a security interest shall not be effective until the acceptance of such Statement of Use or Amendment to Allege Use occurs, such that an abandonment of said applications will not result from this grant of the security interest therein. This qualification with respect to such application will not affect the security interest in the trademarks effective as of the date hereof.

This security interest is granted in conjunction with the security interest granted to Lender under the Loan Agreement and/or the Security Agreement. Lender's rights and remedies with respect to the security interest granted hereby are in addition to those set forth in the Loan Agreement and the other Loan Documents, and those which are now or hereafter available to Lender as a matter of law or equity. Lender's rights, powers and remedies are cumulative and concurrent with every right, power or remedy provided for herein. Lender's exercise of any one or more of the rights, powers or remedies provided for in this Agreement, the Loan Agreement or any other Loan Document, or now or hereafter existing at law or in equity, will not preclude the simultaneous or later exercise by any person, including Lender, of any or all other rights, powers or remedies.

Borrower represents and warrants that, as of the date hereof, Schedules A, B, and C attached hereto set forth any and all intellectual property rights in connection with which Borrower has registered or filed an application with either the United States Patent and Trademark Office or the United States Copyright Office, as applicable.

This Agreement shall be governed by the laws of the State of New York, without regard for choice of law provisions.

Upon the occurrence of an event permitted under the Loan Agreement or Security Agreement that would result in the release of all or a portion of the IP Collateral from the security interest thereon, the security interests granted herein shall automatically terminate, as applicable, with respect to all or such applicable portion of the IP Collateral. Upon any such release, the Lender will, at the Grantor's sole expense, release all or such applicable portion of the IP Collateral held by the Lender hereunder, and execute and deliver to the Grantor such documents as the Grantor shall reasonably request to evidence such termination.

Following the satisfaction in full of the Secured Obligations (as defined in the Security Agreement) (other than contingent indemnity or reimbursement obligations for which no claim has been asserted), the security interest granted hereby shall automatically terminate. Upon such termination, at Borrower's sole expense, the Lender will execute and deliver to the Borrower such documents, releases and termination statements as the Borrower shall reasonably request to evidence such satisfaction and termination.
