**Subject:** Received Your Trademark/Service Mark Application, Principal Register for serial number 77726447

MARK: Bookprint (Standard Characters, mark.jpg) The literal element of the mark consists of Bookprint.  
The mark consists of standard characters, without claim to any particular font, style, size, or color.

We have received your application and assigned serial number '77726447' to your submission. The summary of the application data, bottom below, serves as your official filing receipt. In approximately 3 months, an assigned examining attorney will review your application. Currently, your mark is not registered, but rather is considered a "pending" application. The overall process, from the time of initial filing to final registration, can take 13-18 months or even longer, depending on many factors; e.g., the correctness of the original filing and the type of application filed.

If you discover an error in the application data, you may file a preliminary amendment, at <http://www.uspto.gov/teas/eTEASpageB2.htm>. Do not submit any proposed amendment to TEAS@uspto.gov, because the technical support team may not make any data changes. NOTE: You must wait approximately 7-10 days to submit any preliminary amendment, to permit initial upload of your serial number into the USPTO database. The acceptability of any preliminary amendment will only be determined once regular examination begins, since the assigned examining attorney must decide whether the change proposed in the amendment is permissible. Not all errors may be corrected; e.g., if you submitted the wrong mark, if the proposed correction would be considered a material alteration to your original filing, it will not be accepted, and your only recourse would be to file a new application (with no refund for your original filing).

Since your application filing has already been assigned a serial number, please do not contact TEAS@uspto.gov to request cancellation. The USPTO will only cancel the filing and refund your fee if upon review we determine that the application did not meet minimum filing requirements. The fee is a processing fee that the USPTO does not refund, even if your mark does not proceed to registration. NOTE: The only "exception" to the above is if you inadvertently file duplicate applications specifically because of a technical glitch and not merely a misunderstanding or mistake; i.e., if you believe that the first filing did not go through because no confirmation was received and then immediately file again, only to discover later that both filings were successful, then the technical support team at TEAS@uspto.gov can mis-assign and refund one of the filings.

NOTE: To check status, please use <http://tarr.uspto.gov> <<http://tarr.uspto.gov/>> . Do not submit status requests to TEAS@uspto.gov. You should check status at the 6-month point after filing, and every two months thereafter, to ensure you are aware of any action that the Office may have issued. Failure to respond timely to an action will result in abandonment of your application. You can view all incoming and outgoing correspondence at <http://portal.uspto.gov/external/portal/tow>. If your status check reveals an action has issued that you did not receive, please immediately check the on-line site to view the action. The USPTO does not extend filing deadlines due to a failure to receive USPTO mailings/e-mailings. You must ensure that you update your record if your mail and/or e-mail address changes, using the form available at <http://www.uspto.gov/teas/eTEASpageE.htm>.

WARNING: You may receive unsolicited communications from companies requesting fees for trademark related services, such as monitoring and document filing. Although solicitations from these companies frequently display customer-specific information, including USPTO serial number or registration number and owner name, companies who offer these services are not affiliated or associated with the USPTO or any other federal agency. The USPTO does not provide trademark monitoring or any similar services. For general information on filing and maintenance requirements for trademark applications and registrations,
