I. Grant of Security

Each Grantor hereby grants to the Offshore Security Trustee for the ratable benefit of the Secured Parties a security interest in and to all of such Grantor's right, title and interest in and to the following (the "Collateral"):

- 1.1 all material United States patents and patent applications set forth in Schedule A hereto (as such Schedule A may be supplemented from time to time by supplements to the Security Agreement and this IP Security Agreement, each such supplement being in substantially the form of Exhibit C to the Security Agreement (an "IP Security Agreement Supplement"), executed and delivered by such Grantor to the Offshore Security Trustee from time to time), together with all reissues, divisions, continuations, continuations-in-part, extensions and re-examinations thereof, and all rights therein provided by international treaties or conventions (the "Patents");

- 1.4 any and all claims for damages for past, present and future infringement, misappropriation or breach with respect to the Patents, Trademarks and Copyrights, with the right, but not the obligation, to sue for and collect, or otherwise recover, such damages; and
- 1.5 any and all proceeds of the foregoing.
- 1.6 Notwithstanding anything to the contrary contained herein, the Trademarks shall not include any trademark application that would be deemed invalidated, cancelled or abandoned due to the contribution, assignment and/or conveyance of the Trademarks hereunder, including without limitation all United States trademark applications that are based on an intent-to-use, unless and until such time that the contribution, assignment

and/or conveyance will not cause the invalidation, cancellation or abandonment of such trademark application.

2. Recordation

Each Grantor authorizes and requests that the Register of Copyrights and the Commissioner of Patents and Trademarks record this IP Security Agreement.

3. Execution in Counterparts

This Agreement may be executed in any number of counterparts, each of which when so executed shall be deemed to be an original and all of which taken together shall constitute one and the same agreement.

4. Grants, Rights and Remedies

This IP Security Agreement has been entered into in conjunction with the provisions of the Security Agreement. Each Grantor does hereby acknowledge and confirm that the grant of the security interest hereunder to, and the rights and remedies of, the Offshore Security Trustee with respect to the Collateral are more fully set forth in the Security Agreement, the terms and provisions of which are incorporated herein by reference as if fully set forth herein.

The Offshore Security Trustee shall, in connection with any termination or release herein or under the Security Agreement, execute and deliver to any Grantor as such Grantor may request, an instrument in writing releasing the security interest in the Collateral acquired under this IP Security Agreement. Additionally, upon such satisfactory performance or payment, the Offshore Security Trustee shall reasonably cooperate with any efforts made by a Grantor to make of record or otherwise confirm such satisfaction including, but not limited to, the release and/or termination of this IP Security Agreement and any security interest in, to or under the Collateral.

6. Governing Law

This IP Security Agreement shall be governed by, and construed in accordance with, the laws of the State of New York.
