INTELLECTUAL PROPERTY ASSIGNMENT

THIS INTELLECTUAL PROPERTY ASSIGNMENT ("Assignment"), effective as of this 2 day of December, 2005 ("Effective Date"), is from SPX Corporation, a Delaware corporation ("SPX"), organized and existing under the laws of Delaware, having a place of business at 13515 Ballantyne Corporate Place, Charlotte, North Carolina 28277 ("Assignor") to Core Industries Inc., a Nevada corporation, having an address of 13515 Ballantyne Corporate Place, Charlotte, North Carolina 28277 ("Assignee").

WHEREAS, Assignor and its affiliates may own ideas, designs, concepts, compilations of information methods, techniques, procedures and processes, research in progress, algorithms, data, formulae, drawings, schemes, blueprints, flow charts, models, strategies, prototypes, techniques whether or not patentable ("Know How"); business or technical information, including, but not limited to, trade customer lists and Know-How, that is not generally known to those who are not subject to an obligation of nondisclosure and that derives actual or potential commercial value from not being generally known to other Persons ("Trade Secrets"); and common law trademarks used exclusively in connection with the design, manufacture, marketing, and selling of backflow prevention valves, valve setter and service kits that are marketed under the FEBCO name, sleeve valves marketed under the POLYJET name, and strainers ("Y", simplex, duplex, suction diffuser), check valves and butterfly valves marketed under the MUELLER STEAM name (the "Assigned Intellectual Property");

NOW THEREFORE, for good and valuable consideration, the sufficiency and receipt of which is hereby acknowledged:

1. Assignor and its affiliates do hereby sell, assign and transfer to Assignee any right, title, and interest that Assignor and its affiliates may have in the Assigned Intellectual Property, the same to be held and enjoyed by Assignee for its own use and enjoyment and the use and enjoyment of its successors, and the right to sue, counterclaim, and recover for past, present and future infringement, misappropriation, dilution or other violation or unauthorized use of the rights assigned or to be assigned under this Assignment.

2. This Assignment is binding upon, and inures to the benefit of, the parties hereto and their respective legal representatives, successors and assigns.

3. If any term or provision of this Assignment is invalid, illegal or otherwise unenforceable in whole or in part in any jurisdiction in which Assigned Intellectual Property is owned by Assignors, all other terms and provisions of this Assignment shall nevertheless remain in full force and effect. Upon such determination that any term or provision is invalid, illegal or incapable of being enforced, the parties hereto shall negotiate in good faith to modify this Assignment so as to effect the original intent of the parties hereto as closely as possible in order that the transactions contemplated by this Assignment be consummated as originally contemplated to the greatest extent possible.

4. All questions concerning the construction, validity and interpretation of this Assignment and the performance of the obligation imposed by this Assignment shall be governed by the laws of the State of Delaware, regardless of the laws that might otherwise

govern under applicable principles of conflict of laws.

5. This Assignment may be executed in one or more counterparts, each of which when executed shall be deemed to be an original but all of which taken together shall constitute one and the same agreement.
