TRADEMARK ASSIGNMENT

This Trademark Assignment (this "**Assignment**") is made as of September 4, 2009, by Sequence Design, Inc., a California corporation ("**Assignor**"), to Apache Design Solutions, Inc., a Delaware corporation ("**Assignee**").

WHEREAS, Assignor and Assignee have entered into an Asset Purchase Agreement dated as of August 19, 2009 (the "**Purchase Agreement**"). All capitalized terms used herein but not otherwise defined shall have the meanings set forth in the Purchase Agreement.

WHEREAS, Assignor owns certain trade names, trademarks, service marks, trade dresses, logos, designs and slogans, whether in word mark, stylized or design format, registered and unregistered, throughout the world, relating to Assignor's business, including, without limitation, those registrations and applications listed on Exhibit A hereto (collectively, the "**Trademarks**").

WHEREAS, pursuant to the Purchase Agreement, Assignor desires to assign to Assignee all of Assignor's right, title and interest in and to the Trademarks, including, without limitation, those registrations and applications listed on Exhibit A hereto, together with the goodwill of Assignor pertaining thereto.

NOW, THEREFORE, in consideration of the foregoing premises, the mutual covenants and agreements contained in the Purchase Agreement and the covenants and agreements in this Assignment and to induce Assignee to consummate the transactions contemplated by the Purchase Agreement, Assignor agrees as follows:

1. Assignor does hereby sell, transfer, convey, assign and deliver to Assignee all of Assignor's right, title and interest in and to the Trademarks, together with the goodwill of Assignor pertaining thereto, the same to be held by Assignee for Assignee's own use and enjoyment, and for the use and enjoyment of Assignee's successors, assigns and other legal representatives, as fully and entirely as the same would have been held and enjoyed by Assignor if this Assignment and sale had not been made; together with all demands and claims, actions or causes of action for losses, damages (whether direct, indirect or consequential), deficiencies, costs, expenses, liabilities, judgments, settlements, awards, fines, response costs, sanctions, penalties and charges ("**Damages**") by reason of past infringements of the Trademarks, along with the right to sue for and collect such Damages for the use and benefit of Assignee and its successors, assigns and other legal representatives.

2. Assignor hereby authorizes and requests the Commissioner of Patents and Trademarks of the United States and, in the case of any trademark registrations or applications therefor made with any office of any country or countries foreign to the United States, any officer of such country, whose duty it is to issue trademarks or other evidence or forms of intellectual property protection or applications as aforesaid, to issue the same to Assignee and its successors, assigns and other legal representatives in accordance with the terms of this instrument.

3. Assignor further agrees that, should additional or further documentation of the assignment be required to effect the assignment contemplated hereby, Assignor will, without

further consideration, provide or execute such other information or documents as may be necessary upon Assignee's reasonable request and, in any event, in accordance with the Purchase Agreement.

4. This Assignment shall be binding on and shall inure to the benefit of, the parties hereto and their respective successors and assigns. This Assignment will be governed by, and construed in accordance with, the internal laws of the State of California applicable to contracts executed and performed entirely therein, without regard to the principles of choice of law or conflicts or law of any jurisdiction. If any term or other provision of this Assignment is invalid, illegal or incapable of being enforced by any rule of law or public policy, all other conditions and provisions of this Assignment will nevertheless remain in full force and effect so long as the economic or legal substance of the transactions contemplated hereby is not affected in any manner materially adverse to any party. Upon such determination that any term or other provision is invalid, illegal or incapable of being enforced, the parties hereto will negotiate in good faith to modify this Assignment so as to effect the original intent of the parties as closely as possible in a mutually acceptable manner in order that the transactions contemplated hereby be consummated as originally contemplated to the greatest extent possible. This Assignment may be executed in one or more counterparts, and by the different parties hereto in separate counterparts, including counterparts transmitted by facsimile or electronic transmission, each of which when executed will be deemed to be an original but all of which taken together will constitute one and the same agreement.
