## Physical Therapy

Whether you're looking to improve your game or simply want to maintain a healthy lifestyle, physical therapy can help you turn it up a notch and get where you want to go.

**Physical Therapy** is a medical specialty that includes the evaluation and treatment of physical dysfunction or injury using education, manual techniques, exercise and modalities to relieve pain, restore maximum function and prevent disability and/or re-injury. Common conditions treated are:

- Sports Medicine
- Pre-/Post Surgical Orthopedic Conditions
- Core Stabilization/Spine Management
- Fibromyalgia

**Vestibular Rehabilitation** services focus on evaluation of the patient's functional abilities and assessment of positions or movement that provoke the patient's symptoms of dizziness and unsteadiness. Appropriate therapy programs are designed to minimize those symptoms, improve the patient's balance, and increase their functional capability. Common diagnoses include:

- Benign Paroxysmal Positional Vertigo (BPPV)
- Vestibular Labyrinthitis and Neuritis
- Meniere's Disease
- Acoustic Neuroma
- Traumatic Brain Injury
- Stroke

## Women's Health

The **Women's Health** program addresses the musculo-skeletal components of obstetric and gynecological diagnoses including:

- Incontinence
- Pelvic floor and abdominal pain and dysfunction
- Peri-natal musculoskeletal dysfunction
- Post-Surgical Pain

## Pediatrics

Our **Pediatric** clinics offer comprehensive evaluations for children from birth to age 21. All treatment programs are specific to the individual child and customized to highlight functional goals during the therapy session that will be carried over by the children and family at home. Our team consists of pediatric trained licensed physical therapists, occupational therapist and speech-language pathologists. We offer the following:

- **Physical Therapy**—focus on maximizing a child's ability to functionally move through and interact with their environment.
- **Speech-Language Pathology**—promote age appropriate speech and language skills, as well as oral motor/swallowing control.
- **Occupational Therapy**—development of adaptive and fine motor and sensory processing skills function to promote selective attention, learning, coordination, behavior modulation and hand skills needed for daily living.

## Hand Therapy

The **Hand Therapy** program is designed to help maximize function and independence for those individuals with hand and upper extremity dysfunction including:

- Arthritis
- Amputations
- Carpal Tunnel Syndrome
- Reflex Sympathetic Dystrophy (RSD)
- Nerve Grafts and repairs, peripheral nerve injuries
- Ligamentous Instability
- Fractures and Crash Injuries

## Workers' Compensation Services

**Workers' Compensation Services** specializes in the prevention, treatment and functional evaluation of work-place treated injuries. We offer a range of services designed to meet the rehabilitative and preventive needs of the workers' compensation and general business population. All programs are compliant with OSHA and ADA standards and guidelines. Our program offers:

- Injury Prevention Services
- ADA Compliance Programs
- Functional Capacity Evaluation
- Work Hardening
- Work Conditioning
- Ergonomic Assessment
