IP ASSIGNMENT

WHEREAS, Pfizer Inc., a Delaware corporation with its registered address at 235 East 42nd Street, New York, NY 10017 (the "Assignor") owns certain rights in (A) the patents and patent applications each listed on Part 1 of Appendix A; (B) the trade marks and trade mark applications each listed on Part 2 of Appendix A; and (C) the domain names each listed on Part 3 of Appendix A (the "Domain Names"); (whether or not any of these is registered) and in each case including applications and rights to apply for registration of any such thing (each of (A), (B) and (C) the "Intellectual Property Rights"); and

WHEREAS, on April 16, 2009 Pfizer Inc. ("Pfizer"), GlaxoSmithKline plc ("GSK") and GlaxoSmithKline Newco Limited ("Mercury") entered into a Share Purchase Agreement ("the SPA Agreement") in connection with the proposed joint venture between Pfizer and GSK to create a new specialist company dedicated to the research, development and commercialization of HIV medicines (the "Transaction"); and

WHEREAS, to give effect to the Transaction the Assignor wishes to transfer to PHIVCO-1 LLC., a Delaware corporation with registered number 4731421 (the "Assignee"), and the Assignee desires to acquire and assume from the Assignor, such right, title and interest as the Assignor may have in and to the Intellectual Property Rights listed on Appendix A;

NOW THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Assignor does hereby sell, transfer, convey and assign to the Assignee such entire right, title and interest as it may have in and to:

- (I) the Intellectual Property Rights listed on attached Appendix A;
- (II) in the case of the patents and patent applications listed on Part 1 of Appendix A, such right title and interest it may have in any patents issuing therefrom, and any continuations, confirmations, divisionals, re-examinations, reissues, revalidations, registrations, supplemental protection certificates or extensions of term, including patent term restoration of any of the foregoing patents and applications and all foreign counterparts thereof and including such right, title and interest as it may have in the

TRADEMARK

REEL: 004583 FRAME: 0003

inventions covered by the claims of such patents and patent applications (collectively, the "Assigned Patents");

- (III) in the case of the trade marks and trade mark applications listed in Part 2 of Appendix I, such right title and interest it may have in the goodwill of the business connected with the use of the trade marks and applications and symbolized thereby; and
- (IV) such right title and interest as it may have to sue and recover for any future infringement, damage or injury to any of the Intellectual Property Rights, and for any past infringement, damage or injury to any of the Intellectual Property Rights by any third parties, and collect profits or damages with respect to the same,

the same to be held and enjoyed by Assignee, for its own use and behalf and the use and behalf of its successors and assigns, to the full end of the term or terms for which such Intellectual Property Rights may be granted as fully and entirely as the same would have been held and enjoyed by the Assignor had this sale and assignment not been made.

The Assignor listed as the registered holder of (A) such patent or patent applications; (B) such trade mark and trade mark applications; and (C) such domain names hereby authorizes and requests the Commissioner or Director of Patents and Trademarks of the United States; the relevant register at which the Domain Names are registered; and any official of any country foreign to the United States whose duty it is to issue patents, trade marks or domain names, to issue and transfer the relevant Intellectual Property Rights to Assignee, its successors and assigns, in accordance with the terms of the assignment, or otherwise as Assignee may direct.

This Assignment is binding on the Assignor, its successors and assigns, and will inure to the benefit of Assignee, its successors and assigns. Nothing in this instrument, express or implied, is intended or shall be construed to confer upon, or give to, any person, corporation or entity other than Assignee, its successors and assigns, any remedy or claim under or by reason of this instrument, or any terms, covenants or conditions hereof, and all the terms, covenants and conditions in this instrument shall be for the sole and exclusive benefit of Assignee and its successors and assigns.

The Assignee acknowledges that the Assignor gives no representation, warranty, indemnity or guarantee in respect of any of the Intellectual Property Rights listed on Appendix A

or ancillary rights assigned hereunder and the Assignor's rights in and to the Intellectual Property Rights are assigned on an 'as is' basis. This is without prejudice to the provisions of any other agreement implementing the Transaction.

IN WITNESS WHEREOF, the Assignor and Assignee have caused this Assignment to be executed as of the date written below.
