PATENT AND TRADEMARK SECURITY AGREEMENT

THIS PATENT AND TRADEMARK SECURITY AGREEMENT, dated as of December 20, 2011, is made by EAM Corporation ("Grantor"), in favor of SunTrust Bank, as a secured party ("Bank") for the Lenders and the L/C Issuers (as defined in the Credit Agreement referred to below) and the other Secured Parties.

WITNESSETH:

WHEREAS, pursuant to that certain Second Amended and Restated Loan Agreement between Grantor and Bank, dated as of the date hereof (the "Loan Agreement"), Bank agreed to extend a line of credit and other loans (the "Loans") to Grantor, subject to the terms and conditions thereof;

WHEREAS, pursuant to that certain Security Agreement between Grantor and Bank, dated as of the date hereof (the "Security Agreement"), Grantor agreed to grant and convey to Bank a security interest in the Collateral (as defined therein) as security for Grantor's debts, liabilities and obligations under certain notes related to the Loans and to induce Bank to make the Loans; and

WHEREAS, Grantor now desires to execute and deliver this Patent and Trademark Security Agreement for purposes of recording Bank's security interest in certain patents and trademarks included in the Collateral with the United States Patent and Trademark Office.

NOW, THEREFORE, in consideration for the covenants and premises set forth herein and in the Loan Agreement and Security Agreement, the receipt and sufficiency of which is hereby acknowledged by Grantor, Grantor hereby agrees as follows:

Section 1. Defined Terms. Capitalized terms used herein without definition are used as defined in the Loan Agreement or Security Agreement.

Section 2. Grant of Security Interest in Patent and Trademark Collateral. To secure the payment and performance of the liabilities and other obligations of Grantor as set forth in the Security Agreement, Grantor hereby grants and conveys to Bank a continuing security interest in, and security title in and to and a lien on, all of Grantor's right, title and interest in and to the following Collateral of Grantor (the "Patent and Trademark Collateral"):

- (a) all of its patents and patent applications, including, without limitation, those referred to on Schedule 1 hereto;
- (b) all renewals, extensions, reissues, reexaminations, continuations, continuations-in-part and divisionals of the foregoing;
- (c) all trademark registrations and applications, including, without limitation, those referred to on Schedule 1 hereto;

(d) all goodwill of the business connected with the use of, and symbolized by, each such trademark; and

(e) all income, royalties, proceeds and liabilities at any time due or payable or asserted under and with respect to any of the foregoing, including, without limitation, all rights to sue and recover at law or in equity for any past, present and future infringement, misappropriation, dilution, violation or other impairment thereof.

Notwithstanding the foregoing, there shall be no lien on or security interest granted or pledged by Grantor in any trademark application that is filed on an "intent-to-use" basis until such time as a statement of use has been filed with and duly accepted by the United States Patent and Trademark Office.

Section 3. Security Agreement. The security interest granted pursuant to this Patent and Trademark Security Agreement is granted in conjunction with the security interest granted to Bank pursuant to the Security Agreement, and Grantor hereby acknowledges and agrees that the rights and remedies of Bank with respect to the security interest in the Patent and Trademark Collateral made and granted hereby are more fully set forth in the Security Agreement. In the event that any provision of this Patent and Trademark Security Agreement is deemed to conflict with the Security Agreement, the provisions of the Security Agreement shall control.

Section 4. Grantor Remains Liable. Grantor hereby agrees that, anything herein to the contrary notwithstanding, Grantor shall assume full and complete responsibility for the prosecution, defense, enforcement or any other necessary or desirable actions in connection with their patents and trademarks subject to a security interest hereunder.

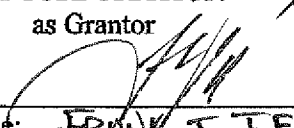

Section 5. Counterparts. This Patent and Trademark Security Agreement may be executed in any number of counterparts and by different parties in separate counterparts, each of which when so executed shall be deemed to be an original and all of which taken together shall constitute one and the same agreement. Signature pages may be detached from multiple separate counterparts and attached to a single counterpart.

Section 6. Governing Law. This Patent and Trademark Security Agreement and the rights and obligations of the parties hereto shall be governed by, and construed and interpreted in accordance with, the law of the State of Georgia.
