TRADEMARK ASSIGNMENT

This TRADEMARK ASSIGNMENT ("Assignment") is entered into as of November 21, 2011, by Synergy Services, Inc. an Alabama corporation having a principal place of business at 10815 St. John's Lane, Foley, Alabama 36535 ("Assignor") in favor of GREENE'S ENERGY GROUP, LLC, a Texas limited liability Company having a principal place of business at 11757 Katy Freeway, Suite 300, Houston, Texas 77079 ("Assignee").

WHEREAS, Assignor owns the trademarks, trademark applications, and trademark registrations set forth on Schedule A attached hereto (collectively the "Trademarks");

WHEREAS, Assignor, Assignee and Mark A. Mattox are parties to the Asset Purchase Agreement dated November 21 2011 (the "Purchase Agreement") pursuant to which Assignor has sold, and Assignee has purchased, certain assets of Assignor, including, without limitation, the Trademarks and the goodwill associated therewith; and

WHEREAS, pursuant to the Purchase Agreement, Assignor wishes to assign to Assignee, and Assignee wishes to acquire from Assignor, all worldwide right, title and interest in and to the Trademarks together with the goodwill associated therewith.

NOW, THEREFORE, for good and valuable consideration, the receipt, adequacy and sufficiency of which are hereby acknowledged, Assignor hereby agrees:

1. Assignment. Assignor hereby contributes, conveys, transfers, assigns and delivers to Assignee its entire right, title and interest in, to and under the Trademarks and all the goodwill represented thereby, and all corresponding rights that are or may be secured under the laws of the United States or any foreign country or any multi-national registration body, now or hereafter arising or in effect, for Assignee's own use and enjoyment, and for the use and enjoyment of Assignee's successors, assigns and other legal representatives, as fully and entirely as the same would have been held and enjoyed by Assignor if this Assignment had not been made, together with all rights to collect royalties and proceeds in connection with any of the foregoing and all rights to sue for past, present, and future infringement, misappropriation or other violation of the foregoing, and all rights to recover damages or lost profits in connection therewith.
2. Representations. Assignor represents and warrants to Assignee that it has the full right to convey the entire right title and interest in and to the Trademarks herein assigned to Assignee, that it has not executed, and will not enter into or execute, any agreement in conflict with the terms of this Trademark Assignment, and that it has not heretofore directly or indirectly, whether personally or through others, pledged, mortgaged, or otherwise encumbered the rights conveyed in this Trademark Assignment, which rights are free and clear of all liens, encumbrances, and conflicting claims.
3. Covenants. Assignor covenants and agrees that upon the request of Assignee or its designee, without further consideration, but at the expense of Assignee or its designee, it

will execute and deliver any additional assignment or other writing and do any additional act as Assignee or its designee may deem necessary or desirable to perfect the enjoyment of the grant conveyed to Assignee in this Trademark Assignment. Assignor further covenants and agrees that upon the request of Assignee or its designee Assignor will provide Assignee with all pertinent facts and documents relating the Trademarks as may be known and accessible to Assignor, and will testify, at Assignee's expense, as to the same in any cancellation or litigation related thereto, and Assignor will promptly execute and deliver to Assignee or its legal representative all papers, instruments, or affidavits required to maintain and enforce the Trademarks, which may be necessary or desirable to carry out the purposes hereof.

4. Governance. Notwithstanding any other provision of this Assignment to the contrary, nothing contained in this Assignment shall in any way supersede, merge with, modify, replace, amend, change, rescind, waive, exceed, expand, enlarge or in any way affect the provisions set forth in the Purchase Agreement nor shall this Assignment reduce, expand or enlarge any remedies under the Purchase Agreement. This Assignment is intended only to effect the assignment of the Patents pursuant to the Purchase Agreement and shall be governed entirely in accordance with the terms and conditions of the Purchase Agreement. In the event that any term or condition of this Assignment conflicts with any term or condition of the Purchase Agreement, the terms and conditions of the Purchase Agreement shall prevail in all respects.
5. Counterparts. This Assignment may be executed in one or more counterparts, any one of which need not contain the signatures of more than one person, but all such counterparts taken together will constitute one and the same instrument.

7. Governing Law. This Assignment shall be governed by and interpreted in accordance with the laws of the State of Texas without giving any effect to any choice of law or conflict of law rules or provisions (whether of the State of Texas or any other jurisdiction) that would cause the application of the laws of any jurisdiction other than the State of Texas.
