SUPPLEMENTAL INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT

THIS SUPPLEMENTAL INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT (the "Agreement") is entered into as of October 1, 2010 by and between Tru-Flex Real Estate Holdings, Inc., an Indiana corporation ("Holdings"), and Tru-Flex Metal Hose, LLC, a Missouri limited liability company ("Company").

WHEREAS, Tru-Flex Metal Hose Corp., a former Indiana corporation, amended its Articles of Incorporation to effectuate a corporate name change whereby it changed its name to Tru-Flex Real Estate Holdings, Inc. (the "Name Change") effective September 20, 2010;

WHEREAS, Holdings and Company are parties to that certain Bill of Sale, Assignment and Assumption Agreement (the "Sale Agreement") dated July 30, 2010 under which Holdings assigned certain Acquired Assets (as defined in the Sale Agreement) to Company and further agreed to execute additional instruments and agreements as reasonably requested by Company to evidence the transfer of the Acquired Assets to Company;

WHEREAS, Holdings and Company previously executed an Intellectual Property Assignment Agreement (the "Original Intellectual Property Assignment Agreement") dated July 30, 2010; and

WHEREAS, Holdings desires to convey and Company desires to receive all right, title and interest in and to any and all Intellectual Property owned by Holdings which was not assigned to Company under the Original Intellectual Property Assignment Agreement.

NOW, THEREFORE, in consideration of the foregoing premises and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto agree as follows:

ARTICLE 1 DEFINITIONS

For purposes of this Agreement:

1.1 "Intellectual Property" means all intellectual property rights, including but not limited to those listed on Exhibits A, B and C hereto, arising from or associated with the following, whether protected, created or arising under the laws of the United States or any other jurisdiction, including all foreign countries and territories, throughout the world:

- (a) trade names, trademarks, service marks, slogans, logos, designs and other indicia of origin (registered and unregistered), domain names and other Internet addresses or identifiers, trade dress and similar rights, and all common law rights, applications to register (including intent-to-use applications), registrations, renewals and goodwill associated with any of the foregoing (collectively, "Marks");
- (b) patents, patent applications, patent disclosures and improvements thereto together with all continuations, continuations-in-part, divisions, reissuances, revisions, extensions, substitutes, reexaminations and counterparts thereof, including all rights to claim priority (collectively, "Patents");
- (c) copyrights (registered and unregistered), works of authorship, website designs, marketing materials and product literature, computer software (including source code, executable code, databases and related documentation) and all applications for registration,

registrations and renewals in connection with any of the foregoing (collectively, "Copyrights"); and

- (d) know-how, ideas, inventions, designs, methods, processes, formulae, algorithms, techniques, technical data, specifications, research and development information, technology, product roadmaps, drawings, customer and supplier lists, business and marketing plans, proposals, studies, reports, price and cost information and any other information, in each case to the extent any of the foregoing derives economic value (actual or potential) from not being generally known to other persons who can obtain economic value from its disclosure or use, excluding any Copyrights or Patents that may cover or protect any of the foregoing (collectively, "Trade Secrets").

ARTICLE 2 ASSIGNMENT

2.1 Assignment. In consideration of the sum of ten dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency which is hereby acknowledged, Holdings hereby sells, assigns, transfers and sets over unto Company all of Holdings' right, title and interest in and to any and all Intellectual Property owned by Holdings which was not assigned to Company under the Original Intellectual Property Assignment Agreement, including but not limited to the Intellectual Property listed on Exhibits A, B and C, and further including:

- (a) all goodwill related to or associated with the use of and symbolized by the Marks;
- (b) the know-how associated with and necessary to control the nature and quality of goods and services offered in connection with the Marks;
- (c) all reproduction, publishing, display and distribution rights associated with the Copyrights;
- (d) the right to change, modify, edit, distort, or alter the Copyrights;
- (e) the right to produce derivative works and/or works incorporating the Copyrights;
- (f) all moral rights associated with the Copyrights and, to the extent any applicable law or treaty prohibits the transfer or assignment of any moral rights or rights of restraint that Holdings has in the Copyrights, Holdings hereby waives those rights as to Company, its successors, licensees and assigns;
- (g) all causes of action, either in law or in equity, for past, present, or future infringement of the Intellectual Property; and
- (h) all rights corresponding to any of the foregoing, throughout the world.

2.2 Further Assurances. Holdings further agrees that it will, at any time upon request, execute and deliver any and all documents that may be necessary or desirable to perfect the title of the Intellectual Property rights in Company, its successors and assigns, and that it will, at any time upon request, communicate to Company, its successors and assigns, such facts relating to the Intellectual Property rights or the history thereof as may be known to it. Holdings authorizes Company to record this Agreement in the United States Patent and Trademark Office and in similar government offices throughout the world.
