INTELLECTUAL PROPERTY SECURITY AGREEMENT

This INTELLECTUAL PROPERTY SECURITY AGREEMENT (as amended, restated, extended, renewed, supplemented, reaffirmed or otherwise modified from time to time, the "*IP Security Agreement*") dated as of December 16, 2011, is made by N.V. Perricone LLC, a Delaware limited liability company (the "*Grantor*"), in favor of Union Bank, N.A., as administrative agent (the "*Agent*") for the Lenders (as defined below).

WHEREAS, the Grantor previously entered into that certain Credit Agreement dated as of March 3, 2006 (as amended prior to the date hereof, the "*Existing Credit Agreement*"), with the lenders party thereto and the Agent.

WHEREAS, the Existing Credit Agreement is being amended and restated by that certain Amended and Restated Credit Agreement dated as of the date hereof (as further amended, restated, extended, renewed, supplemented, reaffirmed or otherwise modified from time to time, the "*Credit Agreement*") among the Grantor, the lenders party thereto (the "*Lenders*") and the Agent. Terms defined in the Credit Agreement and not otherwise defined herein are used herein as defined in the Credit Agreement.

WHEREAS, pursuant to the Credit Agreement, the Grantor has executed and delivered that certain Reaffirmation Agreement dated as of the date hereof whereby the Grantor reaffirmed its obligations under the Security Agreement dated as of March 3, 2006 executed by the Grantor in favor of the Agent (the "*Security Agreement*").

WHEREAS, under the terms of the Security Agreement, the Grantor has granted to the Agent, for the ratable benefit of the Lenders, a security interest in, among other property, certain intellectual property of the Grantor, and has agreed pursuant thereto to execute this IP Security Agreement for recording with the U.S. Patent and Trademark Office, the United States Copyright Office and other governmental authorities.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Grantor agrees as follows:

SECTION 1. Grant of Security. The Grantor hereby grants to the Agent for the ratable benefit of the Lenders a security interest in all of the Grantor's right, title and interest in and to the following (the "*Collateral*"):

(i) all patents and patent applications, now owned or hereafter acquired by the Grantor, including without limitation, the patents and patent applications set forth on Schedule A hereto (the "*Patents*");

(ii) all trademarks and service marks and applications, now owned or hereafter acquired by the Grantor, including, without limitation, the trademark and service mark registrations and applications set forth on Schedule A attached hereto, together with the goodwill symbolized thereby (the "*Trademarks*");

(iii) all copyrights, whether registered or unregistered, now owned or hereafter acquired by the Grantor, including, without limitation, the copyright registrations and

applications and exclusive copyright licenses set forth on Schedule A attached hereto (the “*Copyrights*”);

(iv) all reissues, divisions, continuations, continuations-in-part, extensions, renewals and reexaminations of any of the foregoing, all rights in the foregoing provided by international treaties or conventions, all rights corresponding thereto throughout the world and all other rights of any kind whatsoever of the Grantor accruing thereunder or pertaining thereto;

(v) any and all claims for damages and injunctive relief for past, present and future infringement, dilution, misappropriation, violation, misuse or breach with respect to any of the foregoing, with the right, but not the obligation, to sue for and collect, or otherwise recover, such damages; and

(vi) any and all proceeds of, collateral for, income, royalties and other payments now or hereafter due and payable with respect to, and supporting obligations relating to, any and all of the Collateral of or arising from any of the foregoing.

Notwithstanding the foregoing, the Collateral shall not include any intent-to-use United States trademark applications for which an amendment to allege use or statement of use has not been filed under 15 U.S.C. § 1051(c) or 15 U.S.C. § 1051(d), respectively, or if filed, has not been deemed in conformance with 15 U.S.C. § 1051(a) or examined and accepted, respectively, by the United States Patent and Trademark Office, provided that upon such filing and acceptance, such intent-to-use applications shall be included in the Collateral.

SECTION 2. Security for Obligations. The grant of a security interest in the Collateral by the Grantor under this IP Security Agreement secures the payment and performance of all Obligations of the Grantor now or hereafter existing under or in respect of the Loan Documents, whether direct or indirect, absolute or contingent, and whether for principal, reimbursement obligations, interest, premiums, penalties, fees, indemnifications, contract causes of action, costs, expenses or otherwise. Without limiting the generality of the foregoing, this IP Security Agreement secures, as to the Grantor, the payment of all amounts that constitute part of the Obligations and that would be owed by the Grantor to any Lender under the Loan Documents but for the fact that such Obligations are unenforceable or not allowable due to the existence of a bankruptcy, reorganization or similar proceeding involving a Loan Party.
