PATENT AND TRADEMARK SECURITY AGREEMENT

This Patent and Trademark Security Agreement (the "Agreement"), dated as of April 19, 2012, is made by and between The Robert Allan Group, Inc., a Delaware corporation having a business location at the address set forth below next to its signature (the "Borrower"), and Wells Fargo Bank, National Association ("Lender"), and having a business location at the address set forth below next to its signature.

Recitals

A. Company and Lender are parties to a Credit and Security Agreement (as amended, supplemented or restated from time to time, the "Credit Agreement") dated the same date as this Agreement, setting forth the terms on which Lender may now or hereafter extend credit to or for the account of Company.

B. As a condition to extending credit to or for the account of Company, Lender has required the execution and delivery of this Agreement by Company.

ACCORDINGLY, in consideration of the mutual covenants contained in the Loan Documents and herein, the parties hereby agree as follows:

1. Definitions. All terms defined in the Recitals hereto or in the Credit Agreement that are not otherwise defined herein shall have the meanings given to them in the Credit Agreement. In addition, the following terms have the meanings set forth below:

"Patents" means (except to the extent constituting Excluded Collateral) all of Company's right, title and interest in and to patents or applications for patents, fees or royalties with respect to each, and including without limitation the right to sue for past infringement and damages therefor, and licenses thereunder, all as presently existing or hereafter arising or acquired, including without limitation the patents listed on Exhibit A.

"Security Interest" has the meaning given in Section 2.

"Trademarks" means (except to the extent constituting Excluded Collateral) all of Company's right, title and interest in and to: (i) trademarks, service marks, collective membership marks, registrations and applications for registration for each, and the respective goodwill associated with each, (ii) licenses, fees or royalties with respect to each, (iii) the right to sue for past, present and future infringement, dilution and damages therefor, and (iv) licenses thereunder, all as presently existing or hereafter arising or acquired, including, without limitation, the marks listed on Exhibit B.

2. Security Interest. Company hereby irrevocably pledges and assigns to, and grants Lender a security interest (the "Security Interest") with power of sale to the extent permitted by law, in the Patents and in the Trademarks to secure payment of the Obligations. As set forth in the Credit Agreement, the Security Interest is coupled with a security interest in substantially all of the personal property of Company. This Agreement grants only the Security Interest herein

described, is not intended to and does not affect any present transfer of title of any trademark registration or application and makes no assignment and grants no right to assign or perform any other action with respect to any intent to use trademark application, unless such action is permitted under 15 U.S.C. § 1060.

3. Credit and Security Agreement. The Security Interest granted pursuant to this Agreement is granted in conjunction with the security interest granted to Lender pursuant to the Credit Agreement and Borrower hereby acknowledges and agrees that the rights and remedies of Lender with respect to the Security Interests made and granted hereby are more fully set forth in the Credit Agreement, the terms and provisions of which are incorporated by reference herein as if fully set forth herein, including, without limitation, all representations, warranties and covenants with respect to Patents and Trademarks.

4. Termination. This Agreement shall terminate and the Lien on the Security Interests shall be released upon the payment and performance in full of the Obligations (other than any outstanding indemnification obligations) pursuant to the terms of the Credit Agreement. Upon the termination of this Agreement, Lender shall execute all documents, make all filings, and take all other actions reasonably requested by the Borrower to evidence and record the release of the Lien on and Security Interests granted herein.

5. Counterparts. This Agreement may be executed in any number of counterparts, all of which shall constitute one and the same instrument, and any party hereto may execute this Agreement by signing and delivering one or more counterparts. Delivery of an executed counterpart of this Agreement by telefacsimile or other electronic method of transmission shall be equally as effective as delivery of an original executed counterpart of this Agreement.

6. Governing Law. This Agreement shall be construed in accordance with and governed by the laws of the State of New York.

IN WITNESS WHEREOF, the parties have executed this Patent and Trademark Security Agreement as of the date written above.
