**INTELLECTUAL PROPERTY SECURITY AGREEMENT
(PATENTS AND TRADEMARKS)**

This **INTELLECTUAL PROPERTY SECURITY AGREEMENT (PATENTS AND TRADEMARKS)** (this “**Agreement**”) is made as of July 11, 2012 (the “**Effective Date**”) by **ILC DOVER LP**, a Delaware limited partnership, and **ILC DOVER IP, INC.**, a Delaware corporation (collectively, the “**Grantors**”) in favor of **THE GOVERNOR AND COMPANY OF THE BANK OF IRELAND**, as collateral agent for the Secured Parties (in such capacity, the “**Collateral Agent**”) (as defined in the Pledge and Security Agreement referred to below).

RECITALS:

WHEREAS, reference is made to that certain Pledge and Security Agreement, dated as of July 11, 2012 (as it may be amended, restated, supplemented or otherwise modified from time to time, the “**Pledge and Security Agreement**”), by and among the Grantors, the other grantors party thereto and the Collateral Agent; and

WHEREAS, under the terms of the Pledge and Security Agreement, the Grantors have (i) as collateral security for the Secured Obligations, granted to the Collateral Agent a security interest in and continuing lien on all of such Grantor’s right, title and interest in, to and under the Collateral (as defined in the Pledge and Security Agreement), including, without limitation, certain Intellectual Property of the Grantors and (ii) agreed to execute this Agreement for recording with the United States Patent and Trademark Office and other applicable Governmental Authorities.

NOW, THEREFORE, in consideration of the premises and the agreements, provisions and covenants herein contained, each Grantor and the Collateral Agent agree as follows:

Section 1. Grant of Security. As collateral security for the Secured Obligations, each Grantor hereby grants to the Collateral Agent a security interest in and continuing lien on all of such Grantor’s right, title and interest in, to and under the following (collectively, the “**Intellectual Property Collateral**”):

(a) All United States and foreign patents and certificates of invention, or similar industrial property, design or plant rights, and with respect to any and all of the foregoing: (i) all registrations, provisional applications and applications referred to in **Schedule 1** hereto; (ii) all reissues, divisions, continuations, continuations-in-part, extensions, renewals, and reexaminations therefor; (iii) all rights corresponding thereto throughout the world; (iv) all inventions and improvements described therein; (v) all rights to sue for past, present and future infringements thereof; and (vi) all Proceeds of the foregoing, including licenses, royalties, income, payments, claims, damages, and proceeds of suit (collectively, the “**Patents**”);

(b) All United States, and foreign trademarks, trade names, corporate names, company names, business names, fictitious business names, Internet domain names, service marks, certification marks, collective marks, logos, other source or business identifiers, designs and general intangibles of a like nature, and with respect to any and all of the foregoing: (i) all registrations and applications referred to in **Schedule 1** hereto; (ii) all extensions or renewals thereof; (iii) all of the goodwill of the business associated with the use of and symbolized thereby; (iv) the right to sue for past, present and future infringement or dilution of any of the foregoing or for any injury to goodwill, and (v) all Proceeds of the foregoing, including licenses, royalties, income, payments, claims, damages, and proceeds of suit, but excluding any “intent-to-use” trademark application, filed pursuant to Section 1(b) of the Lanham Act, 17 USC. § 1051(b), prior to the filing of a “Statement of Use” or “Amendment to Allege Use” with respect

thereto, to the extent, if any, that, and solely during the period, if any, in which, the grant of the security interest of the Collateral Agent, for the benefit of the Secured Parties, with respect thereto would impair the validity or enforceability of such intent-to-use trademark application or any registration that issues from such intent-to-use application under applicable federal law (collectively, the “**Trademarks**”); and

(c) All agreements, licenses and covenants providing for the granting of any right in or to Patents, Trademarks or otherwise providing for a covenant not to sue or permitting co-existence (in the case of Trademarks) (whether the applicable Grantor is licensee or licensor thereunder) regarding Patent or Trademark, including, without limitation, (i) the right to sue or otherwise recover for any and all past, present and future infringements and misappropriations of any of the foregoing, (ii) all income, royalties, damages and other payments now and hereafter due and/or payable to the applicable Grantor with respect thereto (including, without limitation, payments under all licenses entered into in connection therewith, and damages and payments for past, present or future infringements thereof), (iii) all other rights of any kind whatsoever of such Grantor accruing thereunder or pertaining thereto, and (iv) any and all proceeds of the foregoing.

Section 2. Recordation. Each Grantor authorizes and requests that the Commissioner of Patents and Trademarks record this Agreement.

Section 3. Counterparts. This Agreement may be executed in counterparts (and by different parties hereto in different counterparts), each of which shall constitute an original, but all of which when taken together shall constitute a single contract. Delivery of an executed counterpart of a signature page of this Agreement by facsimile or in electronic (i.e., “pdf” or “tif”) format shall be effective as delivery of a manually executed counterpart of this Agreement.

Section 4. Governing Law. This Agreement and any claims, controversy, dispute or cause of action (whether in contract or tort or otherwise) based upon, arising out of or relating to this Agreement and the transactions contemplated hereby and thereby shall be governed by, and construed in accordance with, the law of the State of New York.

Section 5. Conflict Provision. This Agreement has been entered into in conjunction with the provisions of the Pledge and Security Agreement and the Credit Agreement (as defined in the Pledge and Security Agreement). The rights and remedies of each party hereto with respect to the security interest granted herein are without prejudice to, and are in addition to those set forth in the Pledge and Security Agreement and the Credit Agreement, all terms and provisions of which are incorporated herein by reference. In the event that any provisions of this Intellectual Property Security Agreement are in conflict with the Pledge and Security Agreement or the Credit Agreement, the provisions of the Pledge and Security Agreement or the Credit Agreement shall govern.
