ASSIGNMENT OF INTELLECTUAL PROPERTY

This Assignment of Intellectual Property (the "Assignment") is made and effective as of the 14th day of November, 2012 between Nuvo Technologies, LLC, an Ohio limited liability company ("Seller") and Legrand Home Systems, Inc., a Delaware corporation ("Buyer").

RECITALS:

A. Pursuant to an Asset Purchase Agreement (the "Purchase Agreement") dated as of even date herewith between Seller and Buyer, Seller agreed to sell to Buyer certain assets used in the operation of the Business;

B. Seller has created, acquired, adopted, used, or is using, the Intellectual Property (as hereinafter defined); and

C. Buyer desires to acquire the Intellectual Property from Seller and Seller desires to transfer the Intellectual Property to Buyer, each on the terms and conditions set forth in this Assignment.

Now Therefore, it is hereby agreed as follows:

1. Assignment. Seller hereby sells, assigns, and transfers to Buyer, its entire, worldwide, right, title and interest in and to any and all proprietary rights provided under patent law, copyright law, trade-mark law, design patent or industrial design law, semi-conductor chip or mask work law, or any other applicable statutory provision or common law principle, including trade secret law, that may provide a right in any ideas, formulae, algorithms, concepts, inventions, improvements, works, know-how, trademarks, service marks, trade dress, or the expression or use of any of the foregoing, and any and all applications, registrations, licenses, sublicenses, agreements, or any other evidence of a right in respect of any of the foregoing (the "Intellectual Property") and which includes, without limitation, the following:

(a) all copyrights, copyright registrations and copyright applications, domestic or foreign, and with respect to each such item, (a) all renewals and extensions thereof, (b) all income, royalties, damages and other rights to payment now or in the future due and/or payable in connection therewith, including, without limitation, damages and payment for past or future infringements thereof, (c) all right, title and interest in any and all license agreements relating thereto, including, without limitation, the rights to income or royalties from such licenses, (d) the right to sue and recover for past, present, and future infringements thereof, (e) all other rights accruing under or pertaining thereto throughout the world, and (f) all proceeds of any kind arising from any and all of the foregoing (collectively, the "Copyrights");

(b) all inventions, improvements, whether or not the subject of a patent or patent application, all patents and patent applications, domestic or foreign, and all inventions and improvements disclosed or claimed in any of the foregoing, and with respect to each such item, (a) all reissues, divisions, continuations, renewals, extensions and continuations in-part thereof, (b) all income, royalties, damages and payments now or in the future due and/or payable in connection therewith, including, without limitation,

damages and payments for past or future infringements thereof, (c) all rights to sue for past, present or future infringements thereof, (d) all right, title and interest in any and all license agreements with respect thereto between Seller and any other party, regardless of whether Seller is licensor or licensee, including, without limitation, all rights to income or royalties from any such licenses, (e) all corresponding patents or patent applications and all rights corresponding thereto throughout the world, (f) all general intangibles and all intellectual or other similar property of any kind or nature, arising from or associated therewith not otherwise described above, and (g) all proceeds of any kind arising from any and all of the foregoing (collectively, the "Patents");

(c) all federal, state, common law and foreign trademarks, service marks business names, trade names, domain names, trading styles, logos and trade dress, along with the goodwill of the businesses in which each of the foregoing has been or is used, all applications for registration and registrations of any of the foregoing, including, without limitation, applications or registrations filed under section 1(a) of the Trademark Act, 15 U.S.C. § 1051(a), or section 1(b) of the Trademark Act, 15 U.S.C. § 1051(b) for which a statement of use has been filed, the assignment of an interest in which would not result in an invalidation of the registration, and further including, without limitation, the trademarks, service marks, business names, trade names, domain names, trading styles, logos and trade dress, and the applications and registrations listed in Schedule A attached hereto and made a part of this Assignment, and with respect to each such item, (a) all renewals or extensions thereof, (b) all income, royalties, damages and payments now due and/or payable in connection therewith, including, without limitation, damages and payment for past or future infringements thereof, (c) the right to sue for all past, present and future infringements thereof, (d) all right, title and interest in any and all present and future license agreements with respect thereto, including, without limitation, the rights to income or royalties from such licenses, (e) all rights corresponding thereto throughout the world, (f) all general intangibles and all intellectual or other similar property of any kind or nature, arising from or associated therewith and not otherwise mentioned above, (g) the entire goodwill of or associated with the businesses symbolized by and connected therewith, and (h) all proceeds of any kind arising from any and all of the foregoing (collectively, the "Trademarks"); and

(d) to the extent not identified above, all technology and information of whatever nature or kind, in all cases whether or not the subject of any application or registration, and whether or not fixed in any medium or reduced to practice, including without limitation software, source code, source materials, trade secrets, industrial designs, formulae, product formulations, processes, processing methods, technology, techniques, know-how, research, technical data, studies, findings, algorithms, instructions, guides, manuals and designs.

2. Excluded Intellectual Property. Notwithstanding anything in this Assignment to the contrary, the term "Intellectual Property" shall not be deemed to include any Excluded Assets.

3. Terms of Purchase Agreement. Seller and Buyer covenant and agree that the representations, warranties, covenants and agreements of the parties contained in the Purchase Agreement shall not merge into or with this Assignment, but shall survive this Assignment and shall continue in full force and effect for the period specified in the Purchase Agreement. Seller and Buyer, by their execution of this Assignment, each acknowledge and agree that neither the representations and warranties nor the rights and remedies of the parties under the Purchase Agreement shall be deemed to be enlarged, modified or altered in any way by such execution and acceptance of this Assignment. The parties acknowledge and agree that the terms and conditions of the Purchase Agreement shall govern the assignment of the Intellectual Property including, without limitation, the rights of indemnification and limitations thereon as set forth in the Purchase Agreement.

4. Binding Effect. This Assignment shall be binding upon, inure to the benefit of, and be enforceable by the Seller, the Buyer, and their respective successors and permitted assigns.

5. Capitalized Terms. Capitalized terms used, but not otherwise defined herein shall have the meaning set forth in the Purchase Agreement.

6. Governing Law. This Assignment shall be governed by and construed in accordance with the laws of the State of Delaware without giving effect to any choice or conflict of law provision or rule that would cause the application of the laws of any jurisdiction other than the State of Delaware.

7. Counterparts. This Assignment may be executed in any number of counterparts with the same effect as if all the signatures on such counterparts appeared on one document; each such counterpart will be deemed to be an original, but all counterparts together will constitute one and the same instrument.
