AMENDED AND RESTATED INTELLECTUAL PROPERTY SECURITY
AGREEMENT

This AMENDED AND RESTATED INTELLECTUAL PROPERTY SECURITY AGREEMENT (as amended, amended and restated, supplemented or otherwise modified from time to time, this "Agreement") dated December 11, 2012, is made by the persons listed on the signature pages hereof (collectively, the "Grantors") in favor of Bank of Montreal, as Administrative Agent (the "Administrative Agent") for the Secured Creditors (as defined in the Security Agreement referred to below).

WHEREAS, the Administrative Agent, certain financial institutions party thereto as lenders, and the Grantors have entered into that certain Amended and Restated Credit Agreement dated as of the date hereof (as further amended, restated, amended and restated, supplemented or otherwise modified from time to time, the "Credit Agreement").

WHEREAS, the Grantors have entered into that certain Amended and Restated Security Agreement dated as of the date hereof (as amended, amended and restated, supplemented or otherwise modified from time to time, the "Security Agreement") with the Administrative Agent. Terms defined in the Security Agreement and not otherwise defined herein are used herein as defined in the Security Agreement.

WHEREAS, under the terms of the Security Agreement, the Grantors have granted to the Administrative Agent, for the ratable benefit of the Secured Creditors, a security interest in, among other property, certain intellectual property of the Grantors, and have agreed as a condition thereof to execute this Agreement for recording with the U.S. Patent and Trademark Office, the United States Copyright Office and other governmental authorities.

WHEREAS, the parties hereto have agreed to amend that certain Intellectual Property Security Agreement dated August 1, 2011 (as amended up to but not including the date hereof, the "Existing IP Security Agreement") pursuant to this Agreement as a condition precedent to the financing accommodations under the Credit Agreement.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, each Grantor hereby confirms the grant pursuant to the Security Agreement, to the Administrative Agent, for the ratable benefit of itself and the other Secured Parties, of a continuing security interest in all of the Grantors' right, title and interest in, to and under the following, whether presently existing or hereafter arising or acquired:

SECTION 1. Grant of Security. Each Grantor hereby grants to the Administrative Agent for the ratable benefit of the Secured Creditors a security interest in all of such Grantor's right, title and interest in and to the following (the "Collateral"):

- (a) the United States patents and patent applications set forth in Schedule A hereto (the "Patents");
- (b) the United States trademark and service mark registrations and applications set forth in Schedule B hereto (provided that no security interest

shall be granted in United States intent-to-use trademark applications to the extent that, and solely during the period in which, the grant of a security interest therein would impair the validity or enforceability of such intent-to-use trademark applications under applicable federal law), together with the goodwill symbolized thereby (the "Trademarks or Service Marks");

- (c) all copyrights, whether registered or unregistered, now owned or hereafter acquired by such Grantor, including, without limitation, the copyright registrations and applications and exclusive copyright licenses set forth in Schedule C hereto (the "Copyrights");
- (d) all reissues, divisions, continuations, continuations-in-part, extensions, renewals and reexaminations of any of the foregoing, all rights in the foregoing provided by international treaties or conventions, all rights corresponding thereto throughout the world and all other rights of any kind whatsoever of such Grantor accruing thereunder or pertaining thereto;
- (e) any and all claims for damages and injunctive relief for past, present and future infringement, dilution, misappropriation, violation, misuse or breach with respect to any of the foregoing, with the right, but not the obligation, to sue for and collect, or otherwise recover, such damages; and
- (f) any and all proceeds of, collateral for, income, royalties and other payments now or hereafter due and payable with respect to, and supporting obligations relating to, any and all of the Collateral of or arising from any of the foregoing.

Notwithstanding anything in this Agreement to the contrary, in no event shall the defined term "Collateral" include or the security interest granted hereunder attach to (i) any license, property rights or agreement to which any Grantor is a party, any of its rights or interests thereunder, or any property of the Grantor if and for so long as the grant of such security interest shall constitute or result in (A) the abandonment, invalidation or unenforceability of any right, title or interest of any Grantor therein or (B) a breach or termination pursuant to the terms of, or a default under, any such license, contract property rights or agreement (other than to the extent that any such term would be rendered ineffective pursuant to Sections 9-406, 9-407, 9-408 or 9-409 of the UCC (or any successor provision or provisions) of any relevant jurisdiction or any other applicable law or principles of equity), provided however that the Collateral shall include and such security interest shall attach immediately at such time as the condition causing such abandonment, invalidation or unenforceability shall be remedied and to the extent severable, shall attach immediately to any portion of such license, contract, property rights or agreement that does not result in any of the consequences specified in (A) or (B) above; and (ii) any assets with respect to which the Administrative Agent shall reasonably determine that the cost of creating and/or perfecting the security interest therein is excessive in relation to the benefit to the Secured Creditors.

SECTION 2. Security for Secured Obligations. The grant of a security interest in, the Collateral by each Grantor under this Agreement secures the payment of all Secured

Obligations of such Grantor now or hereafter existing, whether direct or indirect, absolute or contingent, and whether for principal, reimbursement obligations, interest, premiums, penalties, fees, indemnifications, contract causes of action, costs, expenses or otherwise. Without limiting the generality of the foregoing, this Agreement secures, as to each Grantor, the payment of all amounts that constitute part of the Secured Obligations and that would be owed by such Grantor to any Secured Creditor as set forth in the Security Agreement but for the fact that such Secured Obligations are unenforceable or not allowable due to the existence of a bankruptcy, reorganization or similar proceeding involving a Debtor.

SECTION 3. Recordation. Each Grantor authorizes and requests that the Register of Copyrights, the Commissioner for Patents and the Commissioner for Trademarks and any other applicable government officer record this Agreement.

SECTION 4. Execution in Counterparts. This Agreement may be executed in any number of counterparts, each of which when so executed shall be deemed to be an original and all of which taken together shall constitute one and the same agreement.

SECTION 5. Grants, Rights and Remedies. This Agreement has been entered into in conjunction with the provisions of the Security Agreement. Each Grantor does hereby acknowledge and confirm that the grant of the security interest hereunder to, and the rights and remedies of, the Administrative Agent with respect to the Collateral are more fully set forth in the Security Agreement, the terms and provisions of which are incorporated herein by reference as if fully set forth herein. In the event that any provision of this Agreement is deemed to conflict with the Security Agreement, the provisions of the Security Agreement shall control unless the Administrative Agent shall otherwise determine.

SECTION 6. Governing Law. This Agreement shall be governed by, and construed in accordance with, the laws of the State of New York, without regard to the conflict of law principles thereof.

SECTION 7. Amendment and Restatement.

- (a) This Agreement shall amend and restate in its entirety the Existing IP Security Agreement, without constituting a novation.
- (b) The Liens granted in the Existing IP Security Agreement hereby are renewed and extended and shall be continuing.
