TRADEMARK ASSIGNMENT AGREEMENT

This Trademark Assignment Agreement (this "Agreement") between Birchwood Laboratories, Inc., a Minnesota corporation located at 7900 Fuller Road, Eden Prairie, Minnesota 55344 ("BLI"), and Birchwood Casey, LLC, a Minnesota limited liability company located at 7887 Fuller Road Suite 100, Eden Prairie Minnesota 55344 ("Birchwood Casey"), is effective as of December 28, 2012 (the "Effective Date"). Capitalized terms not defined in this License Agreement will have the meaning set forth in the Contribution and Assignment Agreement of the same date between the parties hereto and the other parties named therein (the "Contribution Agreement").

RECITALS

- A. BLI owns the trademarks and service marks listed on Schedule A (the "Marks").
B. BLI assigned the Marks to Birchwood Casey pursuant to the Contribution Agreement and the parties are executing this Agreement for recordation with governmental authorities.

AGREEMENT

In consideration of the above recitals and the promises set forth in this Agreement, the parties agree as follows:

- 1. Assignment. Subject to Section 2, below, BLI hereby sells, assigns, and transfers to Birchwood Casey all of BLI's right, title, and interest in and to the Marks, together with all associated good will and all related rights, and all registrations and applications for registration of the Marks in the United States and any foreign countries, including any renewals and extensions of any registration that is or may be secured.
2. Restrictions. Birchwood Casey hereby agrees that it will not use the Marks listed on Schedule B in connection with the corresponding goods and services designated by a strike-through on Schedule B, and will remove such deleted goods and services from the Marks' registrations when such registrations are to be renewed.

The parties have executed this Agreement as of the date first written above.

RESTRICTIONS

MARK	COUN-TRY	REG. NO.	CLA-SS	GOODS/SERVICES
BIRCHWOOD CASEY	Europe an Union	4439883	1	Oxidizing chemical compositions in liquid and powder form for oxidizing metal finishes to provide a finished surface therefore; oxidizing chemical compositions in liquid and powder form for the prevention of corrosion of metallic surfaces by displacing moisture from the pores thereof and removing oil and grease therefrom; oxidizing chemical compositions in liquid and powder form for cleaning, de-rusting, and preparing metal surfaces to facilitate a subsequent surface finishing operation thereupon; oxidizing chemical compositions in liquid and powder form for preparing metal surfaces for the subsequent application of protective coatings; liquid acid cleaner for preconditioning steel parts for blackening; metal oxidizing solution for aluminum surfaces; zinc phosphate conversion coating for iron and steel for use in various industrial manufacturing industries, namely, machine tool automotive and machine manufacturing industries; metal oxidizing solution for metal surfaces, liquid chemical converting mixtures for metals, a water based blend of acrylic polymers and dry film lubricants for providing a high gloss, hard finish to metals; a water based blend of polymers and waxes for providing a clear smooth finish to metals

			2	<p>Gun repair and refinishing products, namely, gun stock stain, gun stock finishing oil, being oil used to provide gun stocks (or furniture) with a tough clear, hard finish that protects and enhances the beauty of the wood, gun stock polyurethane finish, non-tacky-rust-preventative, a wax-type-preserved-for-metals, a-polymer-based-liquid-wax-which-produces-a-coating-when-applied-to-metal-which-protects-against-scuffing-and-corrosion, gun bluing paste, being a paste that reacts with metal gun parts to provide a long-lasting dark blue or black colour, gun bluing liquid, being a liquid that reacts with metal gun parts to provide a long-lasting dark blue or black colour, gun bluing touch up, being a paste or liquid that reacts with metal gun parts to provide a long-lasting dark blue or black colour, applied by felt tip marker to a small area, gun stock rubbing compound, gun stock conditioner, being a liquid applied to surfaces, particularly plastic, wood and synthetic stocks to provide a glossy shine, gun stock filler, being a liquid applied to wood to seal pores before staining, non-reflective black spray, being a liquid applied to aluminum parts to provide a non-dimensional deep grey to black colour, gun stock filler, being a liquid applied to wood to seal pores before staining; liquid touch-up, being a liquid applied to antique brass, copper and bronze parts to provide a non-dimensional blackened finish; gun stock finishing kits, being an oil used to provide gun stocks used to provide gun stocks with a tough, clear, hard finish that protects and enhances the beauty of fine woods; gun bluing kits, being chemicals, liquids or pastes to react with metal gun parts to provide a dark blue or black colour</p>
			3	<p>Gun care products; namely, gun stock wax, leather dressing, gun stock polish and conditioner and gun stock wax, brass cartridge case cleaners, gun bore solvent, being a liquid used to dissolve and remove lead, copper, plastic carbon, and powder fouling from the bore of a gun,, gun stock finish remover, gun cleaner and degreaser, gun bluing and rust remover, aerosol gun cleaning solvents, gun bore cleaner, black powder solvent, being a water-soluble cleaner that dissolves powder residue and loosens metal traces for easy removal when cleaning a muzzleloader gun, lens cleaner, industrial metal cleaning compound, aerosol cleaning solvents for use on fishing reels, caustic cleaning powder for ferrous metals; alkaline cleaner in powder form for cleaning all metals</p>
			4	<p>Polymer-based-liquid-wax-which-produces-a-coating-when-applied-to-metal-which-protects-against-scuffing-and-corrosion; gun choke tube lubricant, being an anti-seize lubricating compound used to ease choke tube insertion and removal on shotgun barrels</p>
<p>BIRCHWOOD CASEY and Design (lined)</p> 	<p>United States of Americ a</p>	<p>1,746,633</p>	1	<p>Chemical composition for oxidizing metal finishes.</p>

			13	Disposable gun wipes.
			2	Gun stock filler, gun stock stain, gun stock finishing oil, gun stock finishing kit (including wool pad, fine and coarse production papers, and a finishing oil, gun bluing paste, gun bluing liquid, gun bluing touch-up, gun stock sheen and conditioner, gun sights black, gun bluing kits (including of gun bluing, gun cleaner, degreaser, bluing and rust remover, bluing remover cloth, steel wool pads, bluing applicators, service cloth, and silicone cloth), gun stock wax, gun stock refinishing kits (consisting of gun stock finishing kits, including gun stock finishing oil, gun stock sheen and conditioner, gun stock wax, silicone cloth, fine and coarse gun production papers, steel wool pads, and service and polishing cloths), rust preventative for guns, brass black liquid touch-up, aluminum black touch-up, metal oxidizing solution for aluminum surfaces, non-tacky-rust-preventative, zinc-phosphate-conversion-coating-for-iron-and-steel-for-use-in-various-industrial-manufacturing-industries-namely-machine-tool-automotive-and-machine-manufacturing-industries, metal oxidizing solution for metal surfaces, liquid chemical converting mixtures for metals, a wax-type preservative for metals, a polymer based liquid wax which produces a coating when applied to metal which protects against scuffing and corrosion, a water based blend of acrylic polymers and dry film lubricants for providing a high gloss, hard finish to metals, a water based blend of polymers and waxes for providing a clear smooth finish to metals.
			28	Shooting target spots, shooting targets made of paper.
			3	Gun care products; namely, brass cartridge case cleaners, gun bore solvent, gun cleaner and degreaser, gun bluing and rust remover, aerosol gun cleaning solvents, gun bore cleaner, gun bore solvent, black powder solvent, gun choke tube lubricant, lens cleaner, industrial metal cleaning compound, caustic cleaning powder for ferrous metals, liquid acid cleaner for preconditioning steel parts for blackening
			4	Polymer based liquid wax which produces a coating when applied to metal which protects against scuffing and corrosion.
