INTELLECTUAL PROPERTY SECURITY AGREEMENT

This Intellectual Property Security Agreement (this "Agreement"), dated as of May 30, 2013, is entered into by and between EAST WEST BANK, a California banking corporation ("Secured Party"), and IOLO TECHNOLOGIES, LLC, a California limited liability company ("Grantor"), with reference to the following facts:

RECITALS

A. Secured Party and Grantor are parties to a Loan and Security Agreement dated as of the date of this Agreement (the "Loan Agreement"; capitalized terms used herein without definition shall have the respective meanings specified for such terms in the Loan Agreement).

B. Pursuant to the Loan Agreement, Secured Party will make loans and other Credit Extensions to Grantor.

C. It is a condition precedent to the effectiveness of the Loan Agreement that Grantor enter into this Agreement with Secured Party and hereby grant Secured Party a security interest in and Lien on all of Grantor's intellectual property as set forth below.

NOW, THEREFORE, to induce Secured Party to enter into the Loan Agreement and to provide Grantor the loans and other Credit Extensions contemplated thereunder, Grantor hereby agrees as follows:

I. Grant of Security Interest. To secure the timely payment and performance of its obligations to Secured Party under the Loan Agreement, Grantor hereby grants and pledges to Secured Party a security interest in and lien on all of Grantor's right, title and interest in, to and under its intellectual property (collectively, the "Intellectual Property Collateral"), including, without limitation, the following:

(a) All present and future United States registered copyrights and copyright registrations, including, without limitation, the registered copyrights, Mask Works, computer programs and other rights subject to United States copyright protection listed in Exhibit A attached hereto (and including all of the exclusive rights afforded a copyright registrant in the United States under 17 U.S.C. Section 106 and any exclusive rights which may in the future arise by act of Congress or otherwise), and all present and future applications for copyright registrations (including applications for copyright registrations of derivative works and compilations) (collectively, the "Registered Copyrights"), and any and all royalties, payments and other amounts payable to Grantor in connection with the Registered Copyrights, together with all renewals and extensions of the Registered Copyrights, the right to recover for all past, present and future infringements of the Registered Copyrights, and all computer programs and tangible property embodying or incorporating the Registered Copyrights, and all other rights of every kind whatsoever accruing thereunder or pertaining thereto;

(b) All present and future copyrights, Mask Works, computer programs and other rights subject to (or capable of becoming subject to) United States copyright protection which are not registered in the United States Copyright Office (collectively, the "Unregistered Copyrights"), whether now owned or hereafter acquired, and any and all royalties, payments, and other amounts payable to Grantor in connection with the Unregistered Copyrights, together with all renewals and extensions of the Unregistered Copyrights, the right to recover for all past, present and future infringements of the

Unregistered Copyrights, and all computer programs and all tangible property embodying or incorporating the Unregistered Copyrights, and all other rights of every kind whatsoever accruing thereunder or pertaining thereto. The Registered Copyrights and the Unregistered Copyrights collectively are referred to herein as the "Copyrights";

- (c) All present and future license agreements with respect to the Copyrights;
- (d) All present and future accounts, accounts receivable, royalties, and other rights to payment arising from, in connection with, or relating to the Copyrights;
- (e) All trade secrets;
- (f) All intellectual property rights in computer software and computer software products now or hereafter existing, created, acquired or held;
- (g) All design rights available to Grantor now or hereafter existing, created, acquired or held;
- (h) All patents, patent applications and similar protections including, without limitation, improvements, divisions, continuations, renewals, reissues, extensions and continuations-in-part of the same, including, without limitation, the patents and patent applications set forth on Exhibit B attached hereto (collectively, the "Patents");
- (i) All trademark and servicemark rights, whether registered or not, applications to register (other than "intent to use" applications until a verified statement of use is filed with respect to such applications) and registrations of the same and like protections, and the entire goodwill of the business of Grantor connected with and symbolized by such trademarks, including, without limitation, those set forth on Exhibit C attached hereto (collectively, the "Trademarks");
- (j) All mask works or similar rights available for the protection of semiconductor chips, now owned or hereafter acquired, including, without limitation, those set forth on Exhibit D attached hereto (collectively, the "Mask Works");
- (k) All claims for damages by way of past, present and future infringements of any of the rights included above, along with the right, but not the obligation, to sue for and collect such damages for such infringement;
- (l) All licenses or other rights to use any of the Copyrights, Patents, Trademarks or Mask Works and all license fees and royalties arising from such use to the extent permitted by such licenses or rights;
- (m) All amendments, extensions and renewals of any of the Copyrights, Trademarks, Patents or Mask Works; and
- (n) All proceeds of the foregoing, including, without limitation, all payments under insurance or any indemnity or warranty payable in respect of any of the foregoing and all license royalties and proceeds of infringement suits, and all rights corresponding to the foregoing throughout the world and all re-issues, divisions, continuations, renewals, extensions and continuations-in-part of the foregoing.

provided, however, that the Intellectual Property Collateral shall not include the following (collectively, "Excluded Intellectual Property"):

(a) assets owned by Grantor on the date hereof or hereafter acquired that are subject to a Lien of the type described in clause (c) of the definition of "Permitted Lien" in the Loan Agreement if and to the extent that the contract or other agreement pursuant to which such Lien is granted (or the documentation relating thereto) validly prohibits the creation of any other Lien on such asset;

(b) any intellectual property to the extent that the attachment of the security interest of this Agreement thereto, or any assignment thereof, would result in the forfeiture, cancellation, invalidation, unenforceability, or other loss of Grantor's rights in such property including, without limitation, any license pursuant to which Grantor is licensee under terms which prohibit the granting of a security interest or under which granting such an interest would give rise to a breach or default by Grantor, and any trademark applications filed in the United States Patent and Trademark Office on the basis of Grantor's "intent-to-use" such Trademark;

(c) any rights of Grantor arising under any contract, lease, instrument, license or other document or any intellectual property subject thereto to the extent that and only for so long as the grant of a security interest therein would (x) constitute a violation of a valid and enforceable restriction in respect of, or result in the abandonment, invalidation or unenforceability of any right, title and interest of Grantor in, such rights in favor of a third party or under any law, regulation, permit, order or decree of any governmental authority, or (y) result in a breach, termination, or default under any such contract, lease, instrument, license or other document, or expressly give any other party in respect of any such contract, lease, instrument, license or other document or any intellectual property subject thereto, the right to terminate its obligations thereunder, provided, however, that the limitation set forth in this clause (b) shall not affect, limit, restrict or impair the grant by Grantor of a security interest pursuant to this Agreement in any such Collateral to the extent that an otherwise applicable prohibition or restriction on such grant is rendered ineffective pursuant to Section 9-406, 9-407, 9-408 or 9-409 of the Uniform Commercial Code of any relevant jurisdiction and provided, further, that, at such time as the condition causing the conditions in subclauses (x) and (y) of this clause (b) shall be remedied, whether by contract, change of law or otherwise, the intellectual property shall immediately cease to be Excluded Intellectual Property, and any security interest that would otherwise be granted herein shall attach immediately to such intellectual property, or to the extent severable, to any portion thereof that does not result in any of the conditions in subclauses (x) or (y) above;

(d) any intellectual property to the extent and for so long as the pledge of such assets is prohibited by law and such prohibition is not overridden by the Uniform Commercial Code or other applicable law;

(e) 35% of the equity interests in any "controlled foreign corporation," as defined in Section 957 of the IRC;

(f) the equity interests in any Subsidiary all or substantially all of the assets of which consist of equity interests in "controlled foreign corporations," as defined in Section 957 of the IRC; and

(g) any intellectual property with respect to which Secured Party and Grantor have determined in writing that the costs of providing a security interest in such intellectual property is excessive in relation to the practical benefits to be obtained by the Secured Party.

2. Recordation. Grantor authorizes and requests the Commissioner for Patents, the Commissioner for Trademarks and the Register of Copyrights and any other government officials to record and register this Agreement upon request by Secured Party.

3. Loan Documents. This Agreement has been entered into pursuant to and in conjunction with the Loan Agreement, which is hereby incorporated by reference. The provisions of the Loan Agreement shall supersede and control over any conflicting or inconsistent provision of this Agreement. The rights and remedies of Bank with respect to the Intellectual Property Collateral are as provided by the Loan Agreement and the other Loan Documents, and nothing in this Agreement shall be deemed to limit such rights and remedies.

4. Execution in Counterparts. This Agreement may be executed in counterparts (and by different parties hereto in separate counterparts), each of which shall constitute an original, but all of which when taken together shall constitute a single contract. Delivery of an executed counterpart of a signature page to this Agreement by facsimile or in electronic (i.e., "pdf" or "tif" format) shall be effective as delivery of a manually executed counterpart of this Agreement.

5. Successors and Assigns. This Agreement shall be binding on and shall inure to the benefit of the parties hereto and their respective successors and assigns.

6. Governing Law. This Agreement and any claim, controversy, dispute or cause of action (whether in contract or tort or otherwise) based upon, arising out of or relating to this Agreement and the transactions contemplated hereby and thereby shall be governed by, and construed in accordance with, the laws of the United States and the State of California, without giving effect to any choice or conflict of law provision or rule (whether of the State of California or any other jurisdiction).
