**Declaration In Support of Corrective Assignment
To the Commissioner for Trademarks:**

REGISTRATION NUMBER: 2,702,847
REGISTRATION DATE: 4/3/2013

MARK: NO POWER ... NO PROBLEM

OWNER: Signature Control Systems, Inc., a corporation of California, having an address of 18 Goodyear Suite 110, Irvine, California 92618, United States.

1. The undersigned is an officer of Signature Control Systems, Inc. ("Signature"), which is the owner of the above-identified Registration. The undersigned is authorized to execute this Declaration on behalf of Signature. The undersigned makes the following declarations.

2. I have firsthand knowledge of the facts concerning why the previously recorded document to Robert Bosch Tool Corporation ("Bosch") should not be considered against the above-identified registration.

3. The undersigned declares that the above-identified registration was assigned from L.R. Nelson Corporation ("Nelson") to Signature on September 19, 2008.

4. The assignment was part of a larger transaction on September 18-19, 2008 in which some assets of L.R. Nelson Corporation were assigned to Signature, and others were assigned to Robert Bosch Tool Corporation ("Bosch"). Bosch did not acquire the present registration as part of the assignment, or subsequently. Bosch has no rights in and to the above-identified registration.

5. Bosch recorded an assignment listing numerous registrations at Reel/Frame 4002/0432 on June 11, 2009. Unfortunately, the recordal cover sheet contained numerous errors, one of which concerns the above-identified registration.

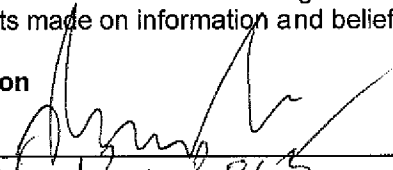

6. As can be seen in the actual document itself which includes an alphabetized list itemizing the trademarks transferred from Nelson to Bosch, Bosch did not acquire the above-identified registration or trademark. Specifically, the "NO POWER ... NO PROBLEM" trademark is not listed on Reel/Frame 004002/0443 between NELSON RAINSCAPES (STYLIZED) and PINCH-SET. Accordingly, Bosch should not have listed the above-identified registration or trademark in the recordal cover sheet of Reel/Frame 4002/0432. A copy of the assignment, marked on the appropriate pages, is attached hereto as Exhibit A (COPY OF AS_RECORDED ASSIGNMENT NELSON TO BOSCH).

7. This Declaration is being recorded to properly indicate the chain of title with regard to the above-identified registration, namely, that (A) the above-identified registration was not assigned from L.R. Nelson Corporation to Bosch; and (B) the above-identified registration was assigned from L.R. Nelson Corporation, a Delaware Corporation, to Signature Control Systems, Inc. on September 19, 2008.

Declaration

The undersigned being hereby warned that willful false statements and the like are punishable by fine or imprisonment, or both, under 18 U.S.C. Section 1001, and that such willful false statements and the like may jeopardize the validity of this document and the registration, declares that he/she is properly authorized to execute this document on behalf of the owner of the registration; and all statements made of his/her own knowledge are true and that all statements made on information and belief are believed to be true.

INTELLECTUAL PROPERTY ASSIGNMENT

This INTELLECTUAL PROPERTY ASSIGNMENT (this "Assignment"), dated as of September 18, 2008, is made by and between L.R. Nelson Corporation (the "Assignor"), a Delaware corporation, and Robert Bosch Tool Corporation (the "Assignee"), a Delaware corporation. Capitalized terms used but not otherwise defined herein have the meanings ascribed to them in the Purchase Agreement (as defined below).

WHEREAS, Assignor and Assignee have entered into a Global Purchase Agreement, dated as of September 17, 2008 (the "Purchase Agreement"), pursuant to which Assignor assigned to Assignee the Intellectual Property Assets, including, but not limited to, the patents and patent applications identified on Schedule A (collectively, the "Patents") and the copyright and trademark registrations and applications identified on Schedule B (each, respectively, the "Copyrights" and "Trademarks"); and

NOW, THEREFORE, in consideration of the premises and covenants set forth herein, the sum of one dollar (US\$1.00) and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties agree as follows:

1. Assignment of Copyrights and Trademarks. Subject to the terms of the Purchase Agreement, Assignor hereby irrevocably assigns its entire right, title and interest in and to the Copyrights and Trademarks to Assignee, and any renewals and extensions thereof, including, but not limited to: (i) any and all goodwill of the business symbolized thereby or associated therewith; (ii) all rights therein provided by international conventions and treaties; and (iii) the right to sue and recover for past, present and future infringement, misappropriation or dilution thereof.

2. Assignment of Patents. Subject to the terms of the Purchase Agreement, Assignor hereby irrevocably assigns its entire right, title and interest in and to the Patents, any and all improvements thereon, any disclosures which may have not been filed, any and all patent applications (provisional or non-provisional) and any division, continuation, continuation-in-part, renewal and extension thereof, any Letters Patent of the United States which may be issued on any of said applications, and any reissues and reexaminations thereof, and any and all applications for Letters Patent filed in foreign countries for said inventions or improvements, including all priority rights under the Paris Convention, Patent Cooperation Treaty and other national and international agreements, and any and all Letters Patent which have been and may be granted in foreign countries therefor, together with the right to sue and recover for past, present and future infringements thereof.

3. Cooperation. This Assignment has been executed and delivered by the Assignor for the purpose of recording the assignments herein with the United States Patent and Trademark Office, the United States Copyright Office and foreign equivalents thereof. The parties shall cooperate to execute and deliver such other documents and take all such other actions as reasonably necessary to effect the intent hereof and as Assignee may request to evidence, establish, maintain or protect its rights in and ownership of the Copyrights, Trademarks and Patents, including, but not limited, to executing additional forms of assignment as necessary, and cooperating with any assertion efforts to enforce such Patents, Trademarks and Copyrights.

4. General Provisions. This Assignment may be executed in one or more counterparts, each of which when executed shall be deemed to be an original but all of which taken together shall constitute one and the same agreement. This Assignment may not be amended or modified except by an instrument in writing signed by the parties. The failure of any party to enforce any terms or provisions of this Assignment shall not waive any of its rights under such terms or provisions.

5. Governing Law. This Assignment will be governed by and construed in accordance with the laws of the State of Illinois as applicable to contracts made and to be performed in the State of Illinois without regard to conflicts of laws principles.

6. Entire Agreement. This Assignment, including Schedule A and Schedule B hereto, together with the Purchase Agreement (including the Disclosure Schedule in final form) and the Acquisition Documents, constitutes the entire agreement of the parties with respect to the subject matter hereof and supersedes all prior agreements and undertakings, both written and oral, between the parties hereto with respect to the subject matter hereof. This Assignment is subject to all of the terms and conditions set forth in the Purchase Agreement. The Purchase Agreement shall govern in the event of a conflict between the terms hereof and those set forth in the Purchase Agreement.
