PATENT AND TRADEMARK SECURITY AGREEMENT

This PATENT AND TRADEMARK SECURITY AGREEMENT (this "Agreement"), dated as of September 13, 2013, is entered into by and between PRINTRONIX, INC., a Delaware corporation (the "Grantor") and SILICON VALLEY BANK (the "Assignee"), as Administrative Agent pursuant to that certain Guarantee and Collateral Agreement, dated as of September 13, 2013, among the Assignee, the Grantor and the other parties thereto (as amended, restated, amended and restated, supplemented or otherwise modified from time to time, the "Guarantee and Collateral Agreement"), and pursuant to that certain Credit Agreement, dated as of September 13, 2013, among Grantor, PIONEER HOLDING CORP., a Delaware corporation, the Lenders party thereto and the Assignee (as amended, restated, amended and restated, supplemented or otherwise modified from time to time, the "Credit Agreement").

Capitalized terms not otherwise defined herein have the respective meanings ascribed to them in the Guarantee and Collateral Agreement or the Credit Agreement, as applicable.

WHEREAS, pursuant to the Guarantee and Collateral Agreement, Grantor has granted in favor of Assignee a security interest in certain Collateral, including the Patents and Trademarks set forth on Schedules A and B hereto, respectively.

NOW, THEREFORE, in consideration of the foregoing and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Grantor and the Assignee hereby agree as follows:

1. Grant of Security Interest

(a) Subject to the terms and conditions of the Guarantee and Collateral Agreement, to evidence further the security interest granted by Grantor to Assignee pursuant to the Guarantee and Collateral Agreement, Grantor hereby grants to Assignee a security interest in all of Grantor's right, title and interest in, to and under the Patents and Trademarks, whether owned or hereafter existing or in which Grantor now has or hereafter acquires an interest and wherever the same may be located, as collateral security for the prompt and complete payment and performance when due (whether at the stated maturity, by acceleration or otherwise) of Grantor's Obligations.

(b) For the purposes of this Agreement, "Patents" means (i) all letters patent of the United States, any other country or any political subdivision thereof, all reissues and extensions thereof and all goodwill of Grantor's business associated therewith, including, without limitation, any of the foregoing referred to on Schedule A hereto, (ii) all applications for letters patent of the United States or any other country and all divisions, continuations and continuations-in-part thereof, including, without limitation, any of the foregoing referred to on Schedule A hereto, (iii) all rights to obtain any reissues or extensions of the foregoing, and (iv) all proceeds of the foregoing (such as, by way of example but not by way of limitation, license royalties and proceeds of infringement suits), the right to sue for past, present and future infringements, all rights corresponding thereto throughout the world and all reissues, divisions, continuations, renewals, extensions and continuations-in-part thereof.

(c) Schedule A hereto contains a true and accurate list of all of Grantor's United States Patents.

(d) For the purposes of this Agreement, “Trademarks” means (i) all trademarks, trade names, corporate names, company names, business names, fictitious business names, trade styles, service marks, logos, Internet domain names and other source or business identifiers, and all goodwill of Grantor’s business associated therewith, now existing or hereafter adopted or acquired, all registrations and recordings thereof, and all applications in connection therewith, whether in the United States Patent and Trademark Office or in any similar office or agency of the United States, any State thereof or any other country or any political subdivision thereof, or otherwise, and all common-law rights related thereto, including, without limitation, any of the foregoing referred to on Schedule B hereto (but in any event excluding any intent-to-use trademark application to the extent that, and solely during the period in which, the grant of a security interest therein would impair the validity or enforceability of such intent-to-use trademark application under Federal law), (ii) the right to obtain all renewals thereof, and (iii) all proceeds of the foregoing (such as, by way of example but not by way of limitation, license royalties and proceeds of infringement suits), the right to sue for past, present and future infringements, all rights corresponding thereto throughout the world and all re-issues, divisions, continuations, renewals, extensions and continuations-in-part thereof.

(e) Schedule B hereto contains a true and accurate list of all of Grantor’s United States applications and registrations for the Trademarks.

(f) The security interest granted hereby is granted concurrently and in conjunction with the security interest granted to the Assignee under the Guarantee and Collateral Agreement. The rights and remedies of the Assignee with respect to the security interest granted hereby are in addition to those set forth in the Guarantee and Collateral Agreement (which is deemed incorporated by reference herein) and those which are now or hereafter available to the Assignee as a matter of law or equity. The exercise by the Assignee of any one or more of the rights, powers or privileges provided for in this Agreement, in the Guarantee and Collateral Agreement, any other Loan Document, or now or hereafter existing at law or in equity shall not preclude any other or further exercise by any person, including the Assignee, of any or all other rights, powers or privileges. In the event that any of the provisions of this Agreement are in conflict with the Guarantee and Collateral Agreement, the provisions of the Guarantee and Collateral Agreement shall govern.

2. Modifications

This Agreement or any provision hereof may not be changed, waived, or terminated except in accordance with the amendment provisions of the Credit Agreement. Notwithstanding the foregoing, Grantor authorizes the Assignee, upon notice to Grantor, to modify this Agreement without obtaining Grantor’s signature to such modification, to the extent that such modification constitutes an amendment of Schedules A or B hereto, to add any right, title or interest in any Patent or Trademark, respectively, owned or subsequently acquired by Grantor or to delete any reference to any right, title or interest in any Patent or Trademark, respectively, in which Grantor no longer has or claims any right, title or interest. Grantor additionally agrees to execute any additional agreement or amendment hereto as may be reasonably required by the Assignee from time to time, to subject any such owned or subsequently acquired right, title or interest in any Patent or Trademark, respectively, to the security interest and perfection created or contemplated hereby or by the Guarantee and Collateral Agreement.

3. Applicable Law

THIS AGREEMENT AND THE RIGHTS AND OBLIGATIONS OF THE PARTIES HEREUNDER SHALL BE GOVERNED BY, AND SHALL BE CONSTRUED AND INTERPRETED IN ACCORDANCE WITH, THE LAWS OF THE STATE OF CALIFORNIA.

4. Counterparts

This Agreement may be executed by one or more of the parties to this Agreement on any number of separate counterparts (including by telecopy or electronic transmission of a PDF), and all of said counterparts taken together shall be deemed to constitute one and the same instrument.
