INTELLECTUAL PROPERTY ASSIGNMENT

This Intellectual Property Assignment ("Assignment") is entered into as of October 22, 2013 ("Effective Date") by and among Comar, Inc., a New Jersey corporation having a business address of One Comar Place, Buena, NJ 08310 ("Assignor"), and Comar, LLC, a Delaware limited liability company having a business address of One Comar Place, Buena, NJ 08310 ("Assignee"). The Assignor and Assignee are hereinafter referred to collectively as the "Parties" and sometimes each individually as a "Party."

WHEREAS, Assignor and Assignee are parties to a certain Agreement and Plan of Merger Agreement ("Agreement"), dated October 3, 2013, pursuant to which Assignor has agreed to assign all its intellectual property to Assignee, including the intellectual property assets set forth below; and

WHEREAS, Assignee wishes to acquire from Assignor, and Assignor wishes to assign to Assignee, all of Assignor's right, title and interest in and to its intellectual property, including the intellectual property listed below.

NOW, THEREFORE, in consideration of the mutual promises and undertakings herein contained and Agreement, and for other good and valuable consideration, receipt of which is acknowledged, the Parties agree as follows:

Assignor irrevocably hereby assigns, transfers, conveys and delivers unto Assignee any and all right, title and interest held by or licensed to Assignor in and to all intellectual property including the following throughout the world (collectively, "Intellectual Property"):

(i) all inventions (whether patentable or unpatentable and whether or not reduced to practice), all improvements thereto, and all patents, patent applications, and patent disclosures, together with all reissuances, continuations, continuations-in-part, revisions, extensions, and reexaminations thereof, including all patents and patent applications in Schedule A;

(ii) all trademarks, service marks, trade dress, logos, trade names, and other indications of origin, and all corporate names, including all goodwill associated therewith, and all applications, registrations, and renewals in connection therewith in any jurisdiction, including all registrations and applications in Schedule B;

(iii) all copyrights and works of authorship (whether copyrightable or not), and all applications, registrations, and renewals in connection therewith in any jurisdiction, including all registrations and applications in Schedule C;

(iv) all mask works and all applications, registrations, and renewals in connection therewith in any jurisdiction;

(v) all trade secrets;

(vi) all software;

(vii) all websites, website content, and domain names (including registrations thereof), including all domain names in Schedule D;

(viii) all other intellectual property and/or proprietary rights;

(ix) all rights of any kind whatsoever of Assignor accruing under any of the foregoing provided by applicable law of any jurisdiction, by international treaties and conventions and otherwise throughout the world;

(x) all tangible embodiments of any of the foregoing (in whatever form or medium), including all copies thereof;

(xi) any and all royalties, fees, income, payments and other proceeds now or hereafter due or payable with respect to any and all of the foregoing; and

(xii) any and all claims and causes of action, with respect to any of the foregoing, whether accruing before, on and/or after the date hereof, including all rights to and claims for damages, restitution and injunctive and other legal and equitable relief for past, present and future infringement, dilution, misappropriation, violation, misuse, breach or default, with the right but no obligation to sue for such legal and equitable relief and to collect, or otherwise recover, any such damages.

All rights in, to and under the Intellectual Property to be held and enjoyed by Assignee to the same extent as would have been held and enjoyed by such Assignor had this sale, assignment and transfer not been made; any and all rights to royalties, profits, compensations, license fees or other payments or remuneration of any kind relating to the Intellectual Property from the Effective Date; and all claims or causes of action such Assignor has or may have in connection with the Intellectual Property, including, but not limited to, the right to sue and recover damages for any and all past infringements of any of the Intellectual Property.

The Assignor covenants and agrees that the Assignor shall, at the request of Assignee or its counsel, execute, acknowledge and deliver all such further acts, deeds, assignments, transfers, powers of attorney and assurances as may be required to carry out the intent of this Assignment, and to transfer and vest title to and in the Intellectual Property and to procure, maintain, enforce and protect the right, title and interest in and enjoyment of all of the Intellectual Property assigned, transferred and conveyed to Assignee pursuant to this Assignment; provided, however, this Assignment shall be effective regardless of whether any such additional documents are executed. Assignor agrees to cooperate with Assignee to initiate the transfer process in relation to the Domain Names electronically from Assignor's account to Assignee's account, as soon as practicable.

Assignor further authorizes the Commissioner of Patents and Trademarks of the United States, and any official of any country foreign to the United States, whose duty it is to record intellectual property registrations, applications and title thereto, to record the title thereto as the property of the Assignee, its legal representatives, successors and assigns and to issue all patents for improvements therein to the Assignee, in accordance with the terms of this Assignment. Assignor authorizes and requests the applicable registration authority to transfer the Domain Names from Assignor to Assignee.

This Assignment shall be binding upon and shall inure to the benefit of the Assignor and Assignee and their respective successors, legal representatives and assigns, and all others acting by, through, with or under the Assignor's direction and all those in privity therewith.

A facsimile or photocopied signature (which may be delivered by facsimile or other electronic means) shall be deemed to be the functional equivalent of an original for all purposes.
