PATENT AND TRADEMARK SECURITY AGREEMENT

THIS PATENT AND TRADEMARK SECURITY AGREEMENT (this "Agreement") is entered into as of October 9, 2013 by Rexair LLC, a Delaware limited liability company (the "Borrower"), and Rexair Holdings, Inc., a Delaware corporation (the "Guarantor", and together with the Borrower, the "Grantors"), in favor of JPMorgan Chase Bank, N.A., a national banking association, in its capacity as Administrative Agent (as defined below) under the Credit Agreement referred to below.

Recitals

A. The Borrower, the lenders party thereto and JPMorgan Chase Bank, N.A., as administrative agent for the lenders party thereto, entered into a Credit Agreement dated as of December 22, 2009, as amended and restated by an Amended and Restated Credit Agreement dated as of November 19, 2010, as amended and restated by an Amended and Restated Credit Agreement dated as of April 28, 2011 (as further amended or modified from time to time, the "Existing Credit Agreement").

B. Pursuant to a Third Amended and Restated Credit Agreement dated as of the date hereof (as amended, modified, restated or refinanced from time to time, the "Credit Agreement"), by and among the Borrower, the lenders party thereto from time to time (the "Lenders"), and JPMorgan Chase Bank, N.A., a national banking association, as Administrative Agent for the Lenders (in such capacity, the "Administrative Agent"), the Lenders, the Borrower and the Administrative Agent will be amending and restating the Existing Credit Agreement.

C. In connection with the Credit Agreement, the Grantors and the Administrative Agent entered into a Consent and Amendment of Collateral Documents dated as of even date herewith (the "Consent and Amendment"), pursuant to which, among other things, the Grantors and the Administrative Agent confirmed and amended certain Existing Collateral Agreements (as defined in the Consent and Amendment), including without limitation that certain Pledge and Security Agreement dated as of December 22, 2009 by and among the Grantors and the Administrative Agent (the "Security Agreement", and together with the Consent and Amendment, the "Collateral Agreements"), relating to the collateral granted by the Grantors to the Secured Parties which were executed in connection with the Existing Credit Agreement.

D. Pursuant to the terms of the Collateral Agreements, the Grantors pledged, assigned and granted to the Administrative Agent, on behalf of and for the benefit of the Secured Parties, a first-priority security interest in substantially all of the assets of the Grantors, including all right, title and interest of the Grantors in, to and under all now owned and hereafter acquired Patent and Trademarks (as defined in the Security Agreement), to secure the prompt and complete payment and performance of the Secured Obligations under the Credit Agreement.

E. The Grantors are executing and delivering this Agreement to the Administrative Agent to facilitate the recording with the United States Patents and Trademarks Office of the security interests that it holds for the benefit of the Lenders in the Patents and Trademarks identified on both restated Exhibit D set forth in Schedule 2 of the Consent and Amendment and Schedule 1 and Schedule 2 attached hereto.

Agreement

In consideration of the recitals set forth above and the mutual agreements contained herein and in the Credit Agreement and the other Loan Documents, each Grantor hereby grants to the Administrative Agent, for the benefit of the Secured Parties, to secure the Secured Obligations, a continuing security interest in each of the Grantor's right, title and interest in, to and under the following, whether now owned by or owing to, or hereafter acquired by or arising in favor of each Grantor:

(1) each trademark and trademark application, including without limitation, each trademark and trademark application in the United States referred to in Schedule 1 attached hereto, together with any reissues, continuations or extensions thereof and all goodwill associated therewith, but excluding any "intent to use" Trademark applications for which a statement of use has not been filed and accepted with the U.S. Patent and Trademark Office; and

(2) each patent and patent application, including without limitation, each patent and patent application in the United States referred to in Schedule 2 attached hereto, together with any reissues, continuations or extensions thereof and all goodwill associated therewith.

The security interests granted to the Administrative Agent herein are granted in furtherance, and not in limitation of, the security interests granted to the Administrative Agent pursuant to the Collateral Agreements. The Grantors acknowledge and affirm that the rights and remedies of the Administrative Agent with respect to the security interest in the Trademarks and the Patents made and granted hereby are more fully set forth in the Credit Agreement and the Collateral Agreements, the terms and provisions of which are incorporated by reference herein as if fully set forth herein. In the event of any conflict between the terms of this Agreement and the Collateral Agreements, the terms of the Collateral Agreements shall govern. All capitalized terms used but not defined herein shall have the respective meanings ascribed thereto in the Credit Agreement. This Agreement shall be governed by and construed in accordance with the laws of the State of New York. This Agreement may be executed upon any number of counterparts with the same effect as if the signatures thereto were upon the same instrument.
