ASSIGNMENT OF TRADEMARKS

This ASSIGNMENT OF TRADEMARKS (this "Assignment"), dated as of February 20, 2014, is made among ATMI Packaging, Inc., a Minnesota company ("ATMI Packaging"), Advanced Technology Materials, Inc., a Delaware company ("ATMI Opco" and together with ATMI Packaging, the "Assignor"), and Pall Technology UK Limited, a private limited company registered in England and Wales (the "Assignee") (each a "party," and collectively, the "parties"). Capitalized terms used herein but not otherwise defined herein shall have the meanings set forth in the Purchase Agreement (defined below).

WHEREAS, Assignor is the owner of each of the trademarks and service marks, trademark and service mark registrations, and trademark and service mark applications (including any and all goodwill symbolized by any of the foregoing) set forth on Schedule A hereto (the "Trademarks");

WHEREAS, Assignor and Assignee, as well as certain other parties, entered into that certain Share and Asset Purchase Agreement, dated as of December 22, 2013 (the "Purchase Agreement"), pursuant to which Assignee has agreed to purchase the Transferred Assets from Assignor, including all right, title and interest in and to the Trademarks; and

WHEREAS, the execution and delivery of this Assignment is a condition to the Closing.

NOW THEREFORE, for good and valuable consideration, including the premises and covenants set forth in the Purchase Agreement, the receipt and sufficiency of which are hereby acknowledged, the parties hereby agree as follows:

1. Assignment. Effective upon the Closing, Assignor hereby sells, conveys, assigns and transfers to Assignee, and Assignee hereby acquires and accepts from Assignor, free and clear of all Liens other than Permitted Exceptions, all of Assignor's right, title and interest in, to and under the Trademarks, including all rights therein provided by international conventions and treaties, all rights of priority and renewals, and all rights to sue and recover damages for past, present and future infringement, dilution, misappropriation, unlawful imitation or other violation thereof or conflict therewith.

2. Further Assurances. (a) Assignor shall (i) execute and deliver at the request of the Assignee, all papers, instruments and assignments, and perform any other reasonable acts the Assignee may require in order to (A) update the public records with the correct registered owner's name of any of the Trademarks and/or (B) vest all Assignor's rights, title, and interest in and to the Trademarks in the Assignee and (ii) provide reasonable evidence as necessary to document any of the foregoing.

(b) If after the Closing Assignee has used reasonable efforts, including requesting signatures in a written notice to Assignor delivered in accordance with Section 10.03 of the Purchase Agreement, to secure Assignor's signature to any document it is entitled to under Section 2 hereof and Assignor has not provided such signatures, Assignor hereby irrevocably

designates and appoints Assignee, and Assignee's duly authorized officers, agents and representatives, as its agents and attorneys-in-fact with full power of substitution to act for and on the behalf and instead of Assignor, to execute and file any such document or documents and to do all other lawfully permitted acts in order to vest in Assignee or record in the name of Assignee all of Assignor's right, title, and interest in and to the Trademarks with the same legal force and effect as if executed by Assignor.

3. Due Authorization. Assignor hereby authorizes and requests the Commissioner of Trademarks of the United States and any other official of any applicable Governmental Authority to record this Assignment and issue any and all registrations from any and all applications for registration included in the Trademarks to and in the name of Assignee.

4. Governing Law. This Assignment shall be governed by, and construed in accordance with, the Laws of the State of Delaware applicable to contracts executed in and to be performed in that State, without regard to the conflicts of law principles of such State.

5. Counterparts. This Assignment may be executed and delivered (including by facsimile transmission) in one or more counterparts, and by the different parties hereto in separate counterparts, each of which when executed shall be deemed to be an original, but all of which taken together shall constitute one and the same agreement.

6. General. From and after the Closing, in the event of a conflict between the terms and conditions of this Assignment and the terms and conditions of the Purchase Agreement, the terms and conditions of the Purchase Agreement shall govern, supersede and prevail. Notwithstanding anything to the contrary in this Assignment, nothing herein is intended to, nor shall it, extend, amplify, or otherwise alter the representations, warranties, covenants and obligations of the parties contained in the Purchase Agreement or the survival thereof.
