INTELLECTUAL PROPERTY SECURITY AGREEMENT

THIS INTELLECTUAL PROPERTY SECURITY AGREEMENT is entered into as of March 10, 2014 by and between **MACHINIMA, INC.**, a Delaware corporation ("***Grantor***") to and for the benefit of Warner Bros. Entertainment Inc., a Delaware corporation (the "***Secured Party***").

RECITALS

A. The Secured Party is advancing money to Grantor (the "***Loan***") pursuant to that certain Note Purchase Agreement of even date herewith (the "***Note Purchase Agreement***") pursuant to which Grantor is issuing a convertible promissory note (the "***WB Note***") to the Secured Party.

B. The Secured Party has conditioned Grantor's consummation of the Loan on Grantor granting to the Secured Party a security interest in certain Copyrights, Trademarks and Patents to secure the obligations of Grantor under the Loan.

C. Pursuant to the terms of that certain Security Agreement, dated of even date herewith, made by Grantor for the benefit of the Secured Party (as the same may be amended, restated, modified or supplemented from time to time, the "***Security Agreement***"), Grantor has granted to the Secured Party a security interest in all of Grantor's right, title and interest in, to or under all of the Grantor's assets. All capitalized terms used but not otherwise defined herein shall have the respective meanings assigned to them in the Security Agreement.

AGREEMENT

NOW, THEREFORE, for good and valuable consideration, receipt of which is hereby acknowledged, and intending to be legally bound, Grantor hereby represents, warrants, covenants and agrees as follows:

To secure the Secured Obligations, Grantor grants and pledges to the Secured Party a security interest in all of Grantor's right, title and interest in, to and under its intellectual property, in any medium, of any kind or nature whatsoever, now or hereafter owned or acquired or received by Grantor or in which Grantor now holds or hereafter acquires or receives any right or interest, and shall include, in any event, any Copyright, Trademark, Patent, License, trade secret, customer list, marketing plan, internet domain name (including any right related to the registration thereof), proprietary or confidential information, mask work, source, object or other programming code, invention (whether or not patented or patentable), technical information, procedure, design, knowledge, know how, software, data base, data, skill, expertise, recipe, experience, process, model, drawing, material or record(including without limitation those Copyrights, Patents and Trademarks listed on Exhibits A, B and C hereto) (collectively, the "***Intellectual Property***"), and including without limitation all proceeds thereof (such as, by way of example but not by way of limitation, license royalties and proceeds of infringement suits), the right to sue for past, present and future infringements, all rights corresponding thereto throughout the world and all re-issues, divisions continuations, renewals, extensions and continuations-in-part thereof.

Notwithstanding the foregoing, the grant, assignment and transfer of a security interest as provided herein shall not include "intent-to-use" trademarks at all times prior to the first use thereof, whether by the actual use thereof in commerce, the recording of a statement of use with the United States Patent and Trademark Office or otherwise.

This security interest is granted in conjunction with the security interest granted to the Secured Party under the Security Agreement. The rights and remedies of the Secured Party with respect to the security interest granted hereby are subject to the terms of the Security Agreement and are in addition to those set forth in the Security Agreement and the other Loan Documents (as defined in the Security Agreement), and those which are now or hereafter available to the Secured Party as a matter of law or equity. Each right, power and remedy of the Secured Party provided for herein or in the Security Agreement or any of the Loan Documents, or now or hereafter existing at law or in equity shall be cumulative and concurrent and shall be in addition to every right, power or remedy provided for herein and the exercise by the Secured Party of any one or more of the rights, powers or remedies provided for in this Intellectual Property Security Agreement, the Security Agreement or any of the other Loan Documents, or now or hereafter existing at law or in equity, shall not preclude the simultaneous or later exercise by any person, including the Secured Party, of any or all other rights, powers or remedies.

Grantor represents and warrants that Exhibits A, B, and C attached hereto set forth any and all intellectual property rights in connection to which Grantor has registered or filed an application with either the United States Patent and Trademark Office or the United States Copyright Office, as applicable.

In all respects, including all matters of construction, validity and performance, this Security Agreement shall be governed by, and construed and enforced in accordance with, the laws of the State of California applicable to contracts made and performed in such state, without regard to the principles thereof regarding conflict of laws, except to the extent that the UCC provides for the application of the law of a different jurisdiction.

This Intellectual Property Security Agreement may be executed in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.
