In consideration of the recitals set forth above and the mutual agreements contained herein and in the Financing Documents (as defined in the Intercreditor Agreement), the Grantor hereby grants to the Collateral Agent, for the benefit of the Secured Parties, to secure the Secured Obligations, a continuing security interest in all of the Grantor's right, title and interest in, to and under the following, whether now owned by or owing to, or hereafter acquired by or arising in favor of the Grantor (including any trade name or derivations thereof):

Each Grantor acknowledges and affirms that the rights and remedies of the Collateral Agent with respect to the security interest in the Trademark Collateral and the Patent Collateral made and granted hereby are more fully set forth in the Intercreditor Agreement and the Security Agreement, the terms and provisions of which are incorporated herein by reference as if fully set forth herein.
