ETAS ID: TM302839

SUBMISSION TYPE:	NEW ASSIGNMENT		
NATURE OF CONVEYANCE:	ASSIGNS THE ENTIRE INTEREST AND THE GOODWILL		
CONVEYING PARTY DATA			
Name	Formerly	Execution Date	Entity Type
NetLogic I, LLC	FORMERLY NetLogic Microsystems, Inc.	03/28/2014	LIMITED LIABILITY COMPANY: DELAWARE
RECEIVING PARTY DATA			
Name:	Broadcom Corporation		
Street Address:	5300 California Avenue		
City:	Irvine		
State/Country:	CALIFORNIA		
Postal Code:	92617		
Entity Type:	CORPORATION: CALIFORNIA		
PROPERTY NUMBERS Total: 1			
Property Type	Number	Word Mark	
Registration Number:	3419892	XLR	
CORRESPONDENCE DATA			
Fax Number:	9497609502		
<i>Correspondence will be sent to the e-mail address first; if that is unsuccessful, it will be sent via US Mail.</i>			
Phone:	(949) 760-0404		
Email:	efiling@knobbe.com		
Correspondent Name:	Brigette Chaput		
Address Line 1:	Knobbe, Martens, Olson & Bear, LLP		
Address Line 2:	2040 Main Street, 14th Floor		
Address Line 4:	Irvine, CALIFORNIA 92614		
ATTORNEY DOCKET NUMBER:	BROC.931T		
NAME OF SUBMITTER:	Brigette Chaput		
SIGNATURE:	/brigette chaput/		
DATE SIGNED:	04/28/2014

CONFIRMATORY TRADEMARK ASSIGNMENT

This Confirmatory Trademark Assignment (hereinafter referred to as "Assignment") is effective as of the 28th day off March 2014, by and between Netlogic I LLC (formally known as Netlogic Microsystems, Inc.), a Delaware Limited Liability Company having a place of business at 5300 California Avenue, Irvine, CA 92617 (hereinafter referred to as "ASSIGNOR"), and Broadcom Corporation, a California corporation having a place of business at 5300 California Avenue, Irvine California 92617 (hereinafter referred to as "ASSIGNEE").

WHEREAS, ASSIGNOR was formed via a conversion and change of name of Netlogic Microsystems, Inc. on January 22, 2013 as filed with the Delaware Secretary of State, a copy of which is attached as Exhibit A;

WHEREAS, ASSIGNOR and its predecessors in interest had adopted and used the trademarks listed in Exhibit B, attached hereto and incorporated herein by this reference;

WHEREAS, ASSIGNOR, to the best of its knowledge and belief, was the owner of the trademarks listed in Exhibit B, and the trademark applications and registrations related thereto listed in Exhibit B, and all other rights appurtenant thereto, including, but not limited to, all common law rights, trade name rights, causes of action, and the right to recover for past infringement (hereinafter collectively referred to as "Trademarks") worldwide;

WHEREAS, ASSIGNOR had acquired goodwill associated with and symbolized by said Trademarks and had not abandoned the same;

WHEREAS, ASSIGNEE desired to acquire all rights, title, and interest in and to the Trademarks worldwide and any other registered or unregistered trademarks owned or used by ASSIGNOR and its predecessors in interest or any licensees worldwide, along with the transfer of the entire business and goodwill to which the Trademarks pertained, such business having been ongoing and existing (the "Business");

WHEREAS, in a certain Distribution Agreement executed on February 1, 2013 by ASSIGNOR and ASSIGNEE, ASSIGNOR did assign unto ASSIGNEE all rights, title, and interest as ASSIGNOR possessed in and to the Trademarks worldwide and any other registered or unregistered trademarks owned or used by ASSIGNOR, its predecessors in interest or any licensees worldwide; and

WHEREAS, ASSIGNOR and ASSIGNEE desire to confirm that assignment.

NOW, THEREFORE, for good and adequate consideration, the receipt and sufficiency of which is hereby acknowledged, ASSIGNOR hereby confirms that it did and hereby does assign to ASSIGNEE all rights, title, and interest as ASSIGNOR possessed and may possess in and to the Trademarks set forth in Exhibit B, and any other registered or unregistered trademarks owned or used anywhere in the world by ASSIGNOR, its predecessors in interest or any licensees, along with the entire business and goodwill to which the Trademarks pertain, concurrent with the transfer of tangible assets as indicia of said goodwill.

I, JEFFREY W. BULLOCK, SECRETARY OF STATE OF THE STATE OF DELAWARE DO HEREBY CERTIFY THAT THE ATTACHED IS A TRUE AND CORRECT COPY OF THE CERTIFICATE OF CONVERSION OF A DELAWARE CORPORATION UNDER THE NAME OF "NETLOGIC MICROSYSTEMS, INC." TO A DELAWARE LIMITED LIABILITY COMPANY, CHANGING ITS NAME FROM "NETLOGIC MICROSYSTEMS, INC." TO "NETLOGIC I LLC", FILED IN THIS OFFICE ON THE TWENTY-SECOND DAY OF JANUARY, A.D. 2013, AT 11:05 O'CLOCK A.M.

**CERTIFICATE OF CONVERSION
FROM A CORPORATION
TO LIMITED LIABILITY COMPANY**

Pursuant to Sections 18-204 and 18-214 of the
Delaware Limited Liability Company Act
and Section 266 of the
General Corporation Law of the State of Delaware

1. The name of the Corporation immediately prior to the filing of this Certificate of Conversion is NetLogic Microsystems, Inc.
2. The Corporation was originally incorporated on the 7th day of April, 1997 under the laws of the State of Delaware. The Corporation's jurisdiction of incorporation immediately prior to the filing of this Certificate of Conversion is the State of Delaware.
3. The name of the limited liability company into which the Corporation shall be converted, as set forth in its Certificate of Formation, is NetLogic I LLC.
4. The Conversion has been approved in accordance with the provisions of Section 266 of the General Corporation Law of the State of Delaware.

[SIGNATURE PAGE FOLLOWS]

IN WITNESS WHEREOF, the Corporation has caused this Certificate of Conversion to be executed in its name this 16th day of January, 2013.

XLP	China	7505801 6/29/2009	7505801 2/7/2011	9: Integrated circuits; Semiconductors; System-on-chip microprocessors; Computer hardware and software for connecting global computer networks; Enterprise, telecommunications and networking microprocessors; Networking switches; Routers; Microprocessor development boards; Digital line cards; Network communication device; Computers software for networking, enterprise and telecommunications equipment and systems; Computer software for facilitating the operation of telecommunications and networking microprocessors, networking switches routers, microprocessor development boards, digital line cards and interface circuits; Software programmable semiconductors that enable broadband communications, access and networking applications for processing voice, video and data
RMI Alchemy	China	200932632 4/11/2007		42
	European Union	4137171 22-Nov-2004	4137171 31-Jan-2006	09 electronic apparatus, instruments and components; electronics, namely, integrated circuits; telecommunication components, namely, switches, interface circuits, hubs, routers, and modems.
ALCHEMY	European Union	7147416 08-Aug-2008	7147416 17-Nov-2010	09 semiconductors and microelectronic components and microelectronic devices. 42 design, fabrication, test and technical support services for semiconductor related products, microelectronic components and microelectronic devices, and software used to operate and integrate such semiconductor related products, microelectronic components and microelectronic devices
AU 1100	European Union	3101888 20-Mar-2003	3101888 10-Nov-2004	09 semiconductor devices.
AU1200	European Union	5721841 28-Feb-2007	5721841 18-Feb-2008	09 Integrated circuits; computer hardware and software for connecting global computer networks; telecommunications equipment and systems hardware, namely, telecommunications and networking microprocessors, switches, routers, line cards and interface circuits; computer software for telecommunications equipment and systems, namely, for facilitating the operation of telecommunications and networking microprocessors, switches, routers, line cards and interface circuits; high performance, low power digital media microprocessors for use in personal media devices, digital media adapters (DMAs), automotive information and entertainment systems, multimedia clients, and related devices; and software programmable semiconductors that enable secure communications, access and networking services for voice, video and data. 42 Design and engineering of electronics, integrated circuits, telecommunications systems and computers; design and customer support for others in the field of electronics, integrated circuits, telecommunications systems and computers; technical consultation and research in the field of electronics, integrated circuits, telecommunications systems and computers; and engineering, namely, design, engineering and customer support in the fields of telecommunications and networking microprocessors, switches, routers, line cards and interface circuits, computer software for telecommunications equipment and systems, namely, for facilitating the operation of telecommunications and networking microprocessors, switches, routers, line cards and interface circuits, high performance, low power digital media microprocessors for use in personal media devices, digital media adapters (DMAs), automotive information and entertainment systems, multimedia clients, and related devices and software programmable semiconductors that enable secure communications, access and networking services for voice, video and data.
AU1550	European Union	5722591 28-Feb-2007	5722591 17-Apr-2008	09 Integrated circuits; computer hardware and software for connecting global computer networks; telecommunications equipment and systems hardware, namely, telecommunications and networking microprocessors, switches, routers, line cards and interface circuits; computer software for telecommunications equipment and systems, namely, for facilitating the operation of telecommunications and networking microprocessors, switches, routers, line cards and interface circuits; high speed, high security and low power networking

MARK	COUNTRY	APP. NO. FILING DATE	REG. NO. REG. DATE	GOODS AND SERVICES
				<p>systems for wireless systems and voice over IP (VOIP) systems; network addressable storage (NAS) units; microprocessors for use in security and remote access devices network printers, thin-client devices, entertainment set-top boxes, and related devices; and software programmable semiconductors that enable secure communications, access and networking services for voice, video and data.</p> <p>42 Design and engineering of electronics, integrated circuits, telecommunications systems and computers; design and technical customer support for others in the field of electronics, integrated circuits, telecommunications systems and computers; technical consultation and research in the field of electronics, integrated circuits, telecommunications systems and computers; and engineering, namely, design, engineering and customer support in the fields of telecommunications and networking microprocessors, switches, routers, line cards and interface circuits, computer software for telecommunications equipment and systems, and for facilitating the operation of telecommunications and networking microprocessors, switches, routers, line cards and interface circuits, high speed, high security and low power networking systems for wireless systems and voice over IP (VOIP) systems, network addressable storage (NAS) units, microprocessors for use in security and remote access devices network printers, thin-client devices, entertainment set-top boxes, and related devices, and software programmable semiconductors that enable secure communications, access and networking services for voice, video and data.</p>
INTELLIGENT ACCESS	European Union	4697462 21-Oct-2005	4697462 02-Feb-2007	09 integrated circuits; integrated chips; computer hardware; computer software; computer firmware; telecommunications hardware; telecommunications software; microprocessors; packet servers; chip sets; motherboards; data processing equipment; computers; semiconductors; semiconductor chips; microcomputers; printed circuit boards; parts and fittings for the aforementioned goods
Media Acceleration Engine	European Union	7078348 21-Jul-2008	7078348 05-Jun-2009	09 semiconductor chips; semiconductor devices; semiconductors; electronic chips for the manufacturer of integrated circuits; electronic integrated circuits; integrated circuits; integrated circuits and integrated circuit cores for use in wireless communications and wireless communication equipment and apparatus and digital signal processors (dsp); large scale integrated circuits.
ORION	European Union	4640728 19-Sep-2005	4640728 27-Feb-2008	09 data processing equipment; circuit boards for computers; integrated circuits; all the afore mentioned goods being especially intelligent access transport and communication processors and circuits, especially for providing ethernet, gigabit-ethernet, sonet/sdh and tdm expansion interfaces, packet processing, data framing and tagging and/or virtual switching, and especially for delivering ethernet virtual private line, virtual private lan, and pseudowire services.
RMI	European Union	7078471 21-Jul-2008	7078471 10-Jun-2009	<p>40 custom manufacture of semiconductor related products, namely integrated circuits, microprocessors, boards, cards and subsystems</p> <p>42 design, development and test of and technical support services for semiconductor related products, namely integrated circuits, microprocessors, boards, cards and subsystems, and software used to operate and integrate such semiconductor related products.</p>
RMI	European Union	3701448 09-Mar-2004	3701448 28-Sep-2006	09 electronics; integrated circuits; fibre optics; telecommunications systems; computers; parts and fittings for all the aforementioned goods; but not including computer software intended for the storage and retrieval of other parties' company, financial, legal or other business information, or electronic publications or any form of electronic media relating to the foregoing.
RMI ALCHEMY	European Union	5721931 28-Feb-2007	5721931 06-Apr-2009	09 Integrated circuits; computer hardware and software for connecting global computer networks; telecommunications equipment and systems hardware, namely, telecommunications and networking microprocessors, switches, routers, line cards and interface circuits; computer software for telecommunications equipment and systems, namely, for facilitating the operation of telecommunications and networking microprocessors, switches, routers, line cards and interface circuits; high performance, low power digital media microprocessors for use in personal media devices, digital media

MARK	COUNTRY	APP. NO. FILING DATE	REG. NO. REG. DATE	GOODS AND SERVICES
				<p>adapters (DMAs), automotive information and entertainment systems, multimedia clients, and related devices; high speed, high security and low power networking systems for wireless systems and voice over IP (VOIP) systems; network addressable storage (NAS) units; microprocessors for use in security and remote access devices network printers, thin-client devices, entertainment set-top boxes, and related devices; mobile information appliances (IAs), WebPADs, telematics, personal data assistants (PDAs) and multimedia handheld computing devices; consumer premises equipment, (CPE), namely, remote internet access devices, wireless handheld enterprise PDAs; and software programmable semiconductors that enable secure communications, access and networking services for voice, video and data.</p> <p>42 Design and engineering of electronics, integrated circuits, telecommunications systems and computers; design and customer support for others in the field of electronics, integrated circuits, telecommunications systems and computers; technical consultation and research in the field of electronics, integrated circuits, telecommunications systems and computers; and engineering, namely, design, engineering and customer support in the fields of high performance, low power digital media microprocessors for use in personal media devices, digital media adapters (DMAs), automotive information and entertainment systems, multimedia clients, and related devices; high speed, high security and low power networking systems for wireless systems and voice over IP (VOIP) systems; network addressable storage (NAS) units; microprocessors for use in security and remote access devices network printers, thin-client devices, entertainment set-top boxes, and related devices; mobile information appliances (IAs), WebPADs, telematics, personal data assistants (PDAs) and multimedia handheld computing devices; consumer premises equipment, (CPE), namely, remote internet access devices, wireless handheld enterprise PDAs; and software programmable semiconductors that enable secure communications, access and networking services for voice, video and data.</p>
THREAD PROCESSOR	European Union	4697496 21-Oct-2005	4697496 10-Oct-2006	09 integrated circuits; integrated chips; computer hardware; computer software; computer firmware; telecommunications hardware; telecommunications software; electronics; microprocessors; packet servers; chip sets; motherboards; data processing equipment; computers; semiconductors; semiconductor chips; microcomputers; printed circuit boards; parts and fittings for the aforementioned goods.
XLP	European Union	8395972 30-Jun-2009	8395972 12-Jan-2010	09 integrated circuits; semiconductors; system-on-chip microprocessors; computer hardware and software for connecting global computer networks; telecommunications equipment and systems hardware, namely enterprise, telecommunications and networking microprocessors, networking switches, routers, microprocessor development boards, digital line cards and interface circuits; computer software for networking, enterprise and telecommunications equipment and systems, namely for facilitating the operation of telecommunications and networking microprocessors, networking switches, routers, microprocessor development boards, digital line cards and interface circuits; software programmable semiconductors that enable broadband communications, access and networking applications for processing voice, video and data
XLR	European Union	4567459 29-Jul-2005	4567459 05-Dec-2006	09 integrated circuits, specifically semiconductor chips.
XLS	European Union	7077928 21-Jul-2008	7077928 04-Aug-2009	09 integrated circuits; computer hardware and software for connecting global computer networks; telecommunications equipment and systems hardware, namely, telecommunications and networking microprocessors, switches, routers, line cards and interface circuits; computer software for telecommunications equipment and systems, namely, for facilitating the operation of telecommunications and networking microprocessors, switches, routers, line cards and interface circuits; and software programmable semiconductors that enable broadband communications, access and networking services for voice, video and data
Aeluros	European Union	3191236	3191236	09 Computer software and firmware; computer software, publications and data in electronic form; computer hardware and peripherals; semiconductors; semiconductor devices; semiconductor chips;

MARK	COUNTRY	APP. NO. FILING DATE	REG. NO. REG. DATE	GOODS AND SERVICES
		5/13/2003	9/27/2004	integrated circuits; semiconductors for use in networking devices; semiconductors for use in connection with high speed communication systems and services; communications, optical and network hardware and devices. 16 Printed matter; publications; software and manuals in printed form; teaching and instructional material. 42 Semiconductor design services; design and production of devices in the fields of semiconductors, communications and networks; design and production of semiconductor devices and integrated circuits; technical consultation services in the fields of electronics, communications, integrated circuits, semiconductors and semiconductor and network devices; information and advice regarding the aforesaid services.
Pegasus	European Union	4640694 9/19/2005	4640694 10/17/2006	09 Apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; computer hardware, namely computer processors; circuit boards for computers; electrical circuits; integrated circuits; parts and fittings for all the aforementioned goods.
OPTICHRON	European Union	4442612 5/17/2005	4442612 1/17/2007	09 Scientific, nautical, photographic, cinematographic, measuring, checking (supervision) and life-saving apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording discs; automatic vending machines and mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment and computers; computer software; fire-extinguishing apparatus; integrated circuits; none of the aforementioned goods related to eye optics.
	European Union	4493045 6/15/2005	4493045 6/7/2006	09 Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording discs; automatic vending machines and mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment and computers; integrated circuits; computer software; fire-extinguishing apparatus.
XLS	Israel	232293 8/10/2010	232293 2/2/2012	9: Semiconductors; semiconductor devices; semiconductor chips; semiconductor memory units; compact discs to be used with semiconductors and semiconductor devices; computer software to be used with semiconductors and semiconductor devices; firmware to be used with semiconductors and semiconductor devices; microelectronic components; microelectronic devices; integrated circuits; integrated circuit cores; large scale integrated circuits; integrated circuit cards and components; circuit boards; circuit boards provided with integrated circuits; motherboards; daughter boards; compact discs to be used with motherboards and daughterboards; software to be used with motherboards and daughterboards; firmware to be used with motherboards and daughterboards; microprocessors; data processors; software programmable microprocessors; micro-code; instructions and manuals to be used with the aforesaid goods; all included in class 9.
Alchemy	Israel	232291 8/10/2010	232291 7/11/2011	9: Semiconductors; semiconductor devices; semiconductor chips; semiconductor memory units; compact discs to be used with semiconductors and semiconductor devices; computer software to be used with semiconductors and semiconductor devices; firmware to be used with semiconductors and semiconductor devices; microelectronic components; microelectronic devices; integrated circuits; integrated circuit cores; large scale integrated circuits; integrated circuit cards and components; circuit boards; circuit boards provided with integrated circuits; motherboards; daughter boards; compact discs to be used with motherboards and daughterboards; software to be used with motherboards and daughterboards; firmware to be used with motherboards and daughterboards; microprocessors; data processors; software programmable microprocessors; micro-code; instructions and manuals to be used with the aforesaid goods; all included in class 9.
