Terms defined in the Credit Agreement and not otherwise defined herein are used herein as defined in the Credit Agreement.

WHEREAS, as a condition precedent to the making of the Term Loan under the Credit Agreement, each Grantor has executed and delivered that certain Security Agreement dated as of October 22, 2013, among the Borrowers and the Secured Party (as amended, amended and restated, supplemented or otherwise modified from time to time, the “**Security Agreement**”).

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, each Grantor agrees as follows:

SECTION 1. Grant of Security. Each Grantor hereby grants to the Secured Party a security interest in all of such Grantor’s right, title and interest in and to the following (the “**Collateral**”):

1. all letters patent of the United States and all applications for letters patent of the United States, including those set forth in Schedule A hereto, and all reissues, continuations, divisions, continuations-in-part or extensions thereof, and the inventions disclosed or claimed therein, including the right to make, use and/or sell the inventions disclosed or claimed therein (the “**Patents**”);

2. all trademarks, service marks, corporate names, company names, business names, fictitious business names, trade styles, trade dress, logos, other source or business identifiers, designs and general intangibles of like nature, now existing or hereafter adopted or acquired, all registrations thereof (if any), and all registration and recording applications filed in connection therewith, including registrations and registration applications in the United States Patent and Trademark Office or any similar offices in any State of the United States or any other country or any political subdivision thereof, and all renewals thereof, including those set forth in Schedule B hereto, together with all goodwill associated therewith or symbolized thereby (provided that no security interest shall be granted in United States intent-to-use trademark applications prior to the filing of a "Statement of Use" or "Amendment to Allege Use" with respect thereto, to the extent, if any, that, and solely during the period, if any, in which the grant of a security interest therein would impair the validity or enforceability of such intent-to-use trademark application under applicable federal law) (the "**Trademarks**");
