TRADEMARK ASSIGNMENT

This Trademark Assignment is executed as of February 19, 2014 by and between Jimmyjane, Inc. ("Assignor"), a Delaware corporation, and JJ Acquisition, LLC, a Delaware limited liability company ("Assignee").

WHEREAS, Assignee and Assignor have entered into an Asset Purchase Agreement, dated as of the date hereof (the "Asset Purchase Agreement");

WHEREAS, Assignor owns the trademarks identified on Exhibit A attached hereto (the "Marks");

WHEREAS, in accordance with the Asset Purchase Agreement, Assignor has agreed to assign the Marks to Assignee;

NOW THEREFORE, for valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto expressly agree that:

Assignor hereby irrevocably transfers, grants, conveys, assigns, and relinquishes exclusively to Assignee all of Assignor's ownership, right, title, and interest in and to the Marks, in perpetuity (or for the longest period of time otherwise permitted by law), including, without limitation, all ownership, right, title, interest, and benefit of Assignee throughout the world in and goodwill to the Marks, including but not limited to any common law rights, any registrations and applications relating thereto and any renewals and extensions thereof.

In furtherance of this assignment, Assignor hereby irrevocably assigns to Assignee, and Assignor acknowledges that Assignee has succeeded to all of Assignor's right, title, and standing to:

1. receive all rights and benefits (including, without limitation, any litigation proceeds) pertaining to the Marks;
2. institute and prosecute all actions, suits, claims and proceedings and take all actions that Assignee, in its sole discretion, may deem necessary or proper to collect, assert, or enforce any claim, right, or title of any kind in and to any and all of the Marks, including, without limitation, all actions, suits, claims and proceedings related to past, present and future infringements, violations and misappropriations of the Marks under trademark and other intellectual property laws;
3. defend and compromise any and all actions, suits, or proceedings, including, without limitation, all actions, suits, claims and proceedings related to past, present and future infringements, violations and misappropriations, relating to such transferred and assigned rights, title, interest, and benefits and the Marks generally, and
4. do all other such acts and things in relation thereto as Assignee, in its sole discretion, deems advisable.

Assignor agrees to execute all papers and to perform such other proper acts as Assignee may deem necessary to secure for Assignee or its designee the rights herein assigned. If, after reasonable effort, Assignee is unable to secure Assignor's signature on any document needed to apply for or prosecute any right or protections relating to the Marks, Assignor hereby designates, appoints, and grants power of attorney to Assignee and its duly authorized officers and agents as Assignor's agents and attorneys-in-fact, to act for and on Assignor's behalf, to execute, verify and file any such applications and to do all other lawfully permitted acts to further the prosecution and issuance of trademarks and other rights and protections thereon with the same legal force and effect as if executed by Assignor.

This Assignment may not be modified except by a written document signed by both parties.

This Assignment shall be binding upon the parties, their successors and assigns.
