WHEREAS, the Grantors, Grantee and Wells Fargo Bank, National Association, as administrative agent ("**Senior Agent**"), are entering into a Subordination and Intercreditor Agreement of even date herewith to establish the relative rights and priorities of the Grantee, the Senior Agent and the Senior Lenders (as defined in the Purchase Agreement) with respect to the Trademark Collateral (as it may be amended, restated, supplemented or modified from time to time, the "**Subordination Agreement**"). The Liens and security interests created hereunder, the obligations of Grantors to deliver Collateral to Grantee, and the exercise of rights and remedies of the Grantee set forth herein shall be subject in all instances to the terms of the Subordination Agreement.

NOW, THEREFORE, in consideration of the premises set forth herein and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties agree as follows:

1. Defined Terms. Unless otherwise defined herein, the capitalized terms used herein shall have the meanings specified in the Pledge and Security Agreement.
2. Incorporation of the Purchase Agreement. The Purchase Agreement and the terms and provisions thereof are hereby incorporated herein in their entirety by this reference thereto.
3. Security Interest in Trademarks and Licenses. To secure a prompt, complete and timely payment, performance and satisfaction of all of the Secured Obligations, each Grantor hereby grants to Grantee, for the benefit of the Grantee, a continuing security interest in, as and by way of a second

mortgage and security interest having priority over all other security interests except for the security interest in favor of Senior Agent securing the Senior Debt (as defined in the Purchase Agreement), with power of sale to the extent permitted by applicable law, all of such Grantor's now owned or existing or hereafter acquired or arising:

(a) trademarks, registered trademarks, trademark applications, trade names, trade styles, service marks, registered service marks, internet domain names and service mark applications, including, without limitation, the trademarks, registered trademarks, trademark applications, trade names, trade styles, service marks, registered service marks, internet domain names and service mark applications listed on Schedule A attached hereto and made a part hereof, and (i) all renewals thereof, (ii) all income, royalties, damages and payments now or hereafter due and/or payable under and with respect thereto, including, without limitation, payments under all licenses entered into in connection therewith and damages and payments for past or future infringements thereof, (iii) the right to sue for past, present and future infringements or dilutions thereof, (iv) the goodwill of each Grantor's business symbolized by the foregoing and connected therewith and (v) all of each Grantor's rights corresponding thereto throughout the world (all of the foregoing are sometimes hereinafter individually and/or collectively referred to as the "**Trademarks**"); and

(b) rights under or interests in any trademark license agreements or service mark license agreements with any other party in connection with any of the Trademarks or such other party's trademarks and registered trademarks, trademark applications, service marks, registered service marks, service mark applications, trade names and trade styles, to the extent such rights are assignable pursuant to such trademark license agreements or service mark license agreement without invalidating such agreements, whether any Grantor is a licensor or licensee under any such license agreement, including without limitation, those license agreements listed on Schedule B attached hereto and made a part hereof, and the right, upon the occurrence and during the continuation of an Event of Default, to prepare and sell any and all Inventory now or hereafter owned by such Grantor and now or hereafter covered by such licenses, and all books and all records (including, without limitation, customer lists, credit files, computer programs, printouts and other computer materials and records) pertaining to any of the foregoing (all of the foregoing are hereinafter referred to collectively as the "**Licenses**," and together with the Trademarks, the "**Trademark Collateral**").

Notwithstanding the foregoing, with respect to the Grantors, the payment and performance of the Secured Obligations shall not be secured by (and the definition of Trademark Collateral is hereby limited to exclude): (a) any contract, license, permit or franchise where the third party to such agreement asserts (and it is determined that) such contract, license, permit or franchise validly prohibits the creation by the Grantors of a security interest in such contract, license, permit or franchise (or in any rights or property obtained by the Grantors under such contract, license, permit or franchise), in which case the security granted hereunder in such contract, license, permit or franchise, shall be deemed not to have been granted, ab initio; or (b) any rights or property to the extent that any valid and enforceable law or regulation applicable to such rights or property prohibits the creation of a security interest therein; provided, however, that the provisions of this paragraph shall not prohibit the creation of a security interest under this Agreement to the extent that Article 9 of the UCC is effective to permit the creation of such security interest notwithstanding the prohibitions referred to above; provided, further, that the provisions of this paragraph shall not prohibit the security interests created by this Agreement from extending to the proceeds of such contract, license, permit, franchise or rights or property or to the monetary value of the good will and other General Intangibles of the Grantors related thereto. Each Grantor represents and warrants to the Grantee that such Grantor does not have knowledge of any contract, license, permit, franchise, rights or properties of third parties that would prohibit the creation of a security interest therein.

4. New Trademarks and Licenses. Each Grantor hereby represents and warrants to Grantee that (i) Schedule A sets forth all of the Trademarks owned by such Grantor as of the date of this Agreement, (ii) Schedule B sets forth all of the Licenses held by such Grantor as of the date of this Agreement and (iii) no other liens, claims or security interests have been granted by such Grantor to any other Person in such Trademarks and Licenses except as permitted under Section 8.2 of the Purchase Agreement. Each Grantor hereby agrees that if, prior to the termination of this Agreement, such Grantor shall obtain rights to any new Trademarks, file any application for registration thereof, become entitled to the reissue, division, continuation, renewal, extension or continuation-in-part of any Trademark or Licenses, or enter into any new License, then (i) the provisions of this Agreement shall automatically apply thereto, (ii) such Grantor shall promptly furnish written notice thereof to Grantee together with information sufficient to permit Grantee, upon its receipt of such notice, to modify this Agreement, as appropriate, by amending Schedules A and/or B, as appropriate, and (iii) such Grantor shall execute and deliver, with regard to any Trademarks, any agreements, instruments and documents that Grantee may reasonably request from time to time to further effect and confirm the assignment and grant of security interest created by this Agreement in such Trademarks, and such Grantor hereby appoints Grantee, at all times during the continuance of a Default, its attorney-in-fact to execute, deliver and record any and all such agreements, instruments and documents for the foregoing purposes, all acts of such attorney being hereby ratified and confirmed and such power, being coupled with an interest, shall be irrevocable for so long as this Agreement shall be in effect with respect to such Grantor.

5. Royalties. Each Grantor hereby agrees that the use by the Grantee of the Trademarks and Licenses as authorized hereunder shall be coextensive with such Grantor's rights thereunder and with respect thereto and without any liability for royalties or other related charges from Grantee to such Grantor.

6. Termination of Grantee's Security Interest. This Agreement is made for collateral security purposes only. Upon payment in full of all of the Secured Obligations and termination of the Purchase Agreement, this Agreement shall terminate. Following such termination, Grantee shall, upon the request of any Grantor, execute a written release confirming the termination and any and all other documents reasonably requested by such Grantor or the United States Patent and Trademark Office or any similar office or agency in any state, province or county, in connection with such termination.

7. Duties of the Grantors. Each Grantor shall (i) prosecute diligently any Trademark or service mark application, if any, that is part of the Trademarks pending as of the date hereof or thereafter until the termination of this Agreement, (ii) make application on registrable trademarks or service marks as such Grantor deems appropriate, and (iii) take all reasonable steps to preserve and maintain all of such Grantor's rights in the registered Trademarks and Licenses whether now existing or hereafter acquired or arising, including, without limitation, making timely filings with regard to registered Trademarks with the United States Patent and Trademark Office or any similar office or agency in any state, province or country or renewals and extensions and diligently monitoring unauthorized use hereof.

8. Grantee's Right to Sue. After the occurrence and during the continuation of a Default, the Required Holders (as defined in the Purchase Agreement) shall have the right, but shall in no way be obligated, to bring suit in their own name to enforce the Trademarks or Licenses and, if the Required Holders shall commence any such suit, each Grantor shall, at the request of the Required Holders, do any and all lawful acts and execute any and all proper documents required by the Required Holders in aid of such enforcement. Each Grantor shall, upon demand, promptly reimburse Grantee for all costs incurred by Grantee in the exercise of such enforcement (including, without limitation, reasonable attorneys' fees).

9. Waivers. No course of dealing between any Grantor and Grantee and no failure or delay on the part of Grantee to exercise, or delay in exercising, any right, power or privilege hereunder, under the Purchase Agreement or under any other agreement, shall operate as a waiver of any of Grantee's rights, powers or partial exercise of any right, power or privilege hereunder, under the Purchase Agreement or under any other agreement.

10. Modification. This Agreement may not be altered, amended or modified in any way, except as specifically provided herein or by a writing signed by Grantors and Grantee.

11. Cumulative Remedies; Power of Attorney. All of the rights and remedies of Grantee with respect to the Trademarks or Licenses, whether established hereby, by any other agreements or by law, shall be cumulative and may be exercised singularly or concurrently. After the occurrence and during the continuance of a Default, each Grantor hereby appoints Grantee and all Persons as the Grantee may designate, in its sole and absolute discretion, as such Grantor's attorney-in-fact, with full authority in the place and stead of such Grantor and in the name of such Grantor or otherwise, to take any action and to execute any instrument which the Grantee may deem necessary or advisable to accomplish the purposes of this Agreement; provided, however, Grantee shall not exercise the foregoing rights without the prior written approval of the Required Holders. Each Grantor hereby ratifies all that such attorney-in-fact shall lawfully do or cause to be done by virtue hereof. This power of attorney is coupled with an interest and shall be irrevocable until all of the Secured Obligations shall have been paid in full and all financing arrangements between Grantee and the Grantors shall have been terminated. Each Grantor acknowledges and agrees that this Agreement is not intended to limit or restrict in any way the rights and remedies of Grantee under the Purchase Agreement or any of the other Investment Documents, but rather is intended to facilitate the exercise of such rights and remedies given it by the terms of this Agreement, all rights and remedies allowed by law and the rights and remedies of a secured party under the Uniform Commercial Code as enacted in any jurisdiction in which the Trademarks or Licenses may be located or deemed located.

12. Binding Effect; Benefits. This Agreement shall be binding upon each Grantor and its successors and assigns, and shall inure to the benefit Grantee and its nominees, successors or assigns. Grantor's successors and assigns shall include, without limitation, a receiver, trustee or debtor-in-possession of or for such Grantor. No Grantor shall assign its obligations hereunder without Grantee's prior written consent.

13. Severability. Whenever possible, each provision of this Agreement shall be interpreted in such manner as to be effective and valid under applicable law, but if any provision of this Agreement shall be held invalid or prohibited under applicable law, such provision shall be ineffective only to the extent of such invalidity or prohibition, without invalidating the remainder of such provision or the remaining provisions of this Agreement.

14. **GOVERNING LAW; WAIVER OF JURY TRIAL.** THIS AGREEMENT SHALL BE GOVERNED BY, AND BE CONSTRUED AND INTERPRETED IN ACCORDANCE WITH, THE INTERNAL LAWS AND DECISIONS OF THE STATE OF ILLINOIS, WITHOUT REGARD TO CONFLICT OF LAWS PROVISIONS. EACH GRANTOR AND GRANTEE HEREBY WAIVES ITS RESPECTIVE RIGHTS TO A JURY TRIAL OF ANY CLAIM OR CAUSE OF ACTION BASED UPON OR ARISING OUT OF OR RELATED TO THIS AGREEMENT OR THE TRANSACTIONS CONTEMPLATED HEREBY, IN ANY ACTION, PROCEEDING OR OTHER LITIGATION OF ANY TYPE BROUGHT BY ANY OF THE PARTIES AGAINST THE OTHER PARTY, WHETHER WITH RESPECT TO CONTRACT

CLAIMS, TORT CLAIMS OR OTHERWISE. GRANTORS AND GRANTEE EACH AGREE THAT ANY SUCH CLAIM OR CAUSE OF ACTION SHALL BE TRIED BY A COURT TRIAL WITHOUT A JURY. WITHOUT LIMITING THE FOREGOING, THE PARTIES FURTHER AGREE THAT THEIR RESPECTIVE RIGHT TO A TRIAL BY JURY IS WAIVED BY OPERATION OF THIS SECTION AS TO ANY ACTION, COUNTERCLAIM OR OTHER PROCEEDING WHICH SEEKS, IN WHOLE OR IN PART, TO CHALLENGE THE VALIDITY AND ENFORCEABILITY OF THIS AGREEMENT OR ANY PROVISIONS HEREOF. THIS WAIVER SHALL APPLY TO ANY SUBSEQUENT AMENDMENTS, RENEWALS, SUPPLEMENTS OR MODIFICATIONS TO THIS AGREEMENT.

15. Notices. All notices or other communications required or desired to be served, given or delivered hereunder shall be served, given or delivered and shall be deemed to have been validly served, given or delivered in accordance with Section 13.2 of the Purchase Agreement.

16. Duty of Grantee. Grantee shall not be liable for any actions, omissions, errors of judgment or mistakes of fact or law with respect to the Trademarks or Licenses except as a result of the gross negligence or willful misconduct of Grantee. Without limiting the generality of the foregoing, Grantee shall not be under any obligation to take any action necessary to preserve rights of any Grantor in the Trademarks or Licenses against any other Persons but may do so at its option, and all expenses incurred in connection therewith shall be for the sole account of Grantors and added to the Secured Obligations secured hereby.

17. Section Headings. The section headings herein are for convenience of reference only, and shall not affect in any way the interpretation of any of the provisions hereof.

18. Subordination Agreement. THIS INSTRUMENT IS SUBJECT TO THE TERMS OF THE SUBORDINATION AGREEMENT IN FAVOR OF WELLS FARGO BANK, NATIONAL ASSOCIATION AND EACH HOLDER (AS DEFINED IN THE PURCHASE AGREEMENT), BY ITS ACCEPTANCE HEREOF, SHALL BE BOUND BY THE PROVISIONS OF THE SUBORDINATION AGREEMENT.
