INTELLECTUAL PROPERTY ASSIGNMENT

THIS INTELLECTUAL PROPERTY ASSIGNMENT (together with all Schedules hereto, this "Assignment"), dated and effective as of May 9, 2014 (the "Effective Date") is made by and between Coldwater Creek Inc. and Aspenwood Advertising, Inc. (Coldwater Creek Inc. and Aspenwood Advertising, Inc. are collectively referred to as "Assignor") and CWC Direct LLC (formerly known as CC IP Acquisition LLC), a Delaware limited liability company, its designees, successors and assigns ("Assignee"). Capitalized terms used herein but not otherwise defined shall have the meanings set forth in the Amended and Restated Agency Agreement dated as of May 2, 2014, by and among Coldwater Creek Inc. and its subsidiaries and a contractual joint venture comprising Hilco Merchant Resources, LLC and Gordon Brothers Retail Partners, LLC (the "Agency Agreement") and the Sale Order (defined below).

WHEREAS, on April 11, 2014, the Assignor commenced the Chapter 11 Cases under Chapter 11 of the Bankruptcy Code in the Bankruptcy Court for the District of Delaware;

WHEREAS, on May 7, 2014, the Bankruptcy Court entered the Sale Approval Order, which order has become a Final Order (the "Sale Order");

WHEREAS, pursuant to the Agency Agreement and the Sale Order, Assignor has agreed to sell, assign, transfer, convey and deliver, or cause to be sold, assigned, transferred, conveyed and delivered, to Assignee, and Assignee desires to purchase, acquire, and accept all of Assignor's right, title and interest in, to and under the Intellectual Property, all as more fully described in the Agency Agreement, and including, without limitation, the patents and patent applications identified in Schedule A hereto and the inventions described therein, the copyright registrations and applications identified in Schedule B hereto, the trademarks, service marks and registrations and applications identified in Schedule C hereto, and the domain name registrations identified in Schedule D hereto; and

WHEREAS, Assignee is the designee of CC Intellectual Property Limited and this Assignment is being executed and delivered by the Assignor to the Assignee pursuant to the Agency Agreement.

NOW, THEREFORE, in consideration of the foregoing and the mutual covenants contained herein and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties hereto, intending to be legally bound hereby, agree as follows:

1. Assignment and Transfer. Effective upon the Effective Date, Assignor hereby sells, assigns, transfers and conveys to Assignee, its successors and assigns, and Assignee accepts, any and all of Assignor's worldwide rights in and to the Intellectual Property as defined in the Agency Agreement, including all tangible and intangible intellectual property assets of Assignor (whether arising under statutory or common law, contract, or otherwise), which include without limitation all of the following items owned by Assignor or in which Assignor has an interest (and Schedule A, Schedule B, Schedule C and Schedule D hereto list all issued or registered Intellectual Property and applications therefor owned by Assignor): (a) inventions,

discoveries, processes, designs, techniques, developments and related improvements whether or not patentable, (b) patents, patent applications, industrial design registrations and applications therefor, divisions, divisionals, continuations, continuations-in-part, reissues, substitutes, renewals, registrations, confirmations, re-examinations, extensions and any provisional applications, or any such patents or patent applications, and any foreign or international equivalent of any of the foregoing, (c) trademarks (whether registered, unregistered or pending), trade dress, service marks, service names, trade names, brand names, product names, logos, domain names, corporate names, fictitious names, other names, symbols (including business symbols), slogans, translations of any of any of the foregoing and any foreign or international equivalent of any of the foregoing and all goodwill associated therewith and (to the extent transferable by law) any applications and/or registrations in connection with the foregoing and all advertising and marketing collateral including any of the foregoing, (d) work specifications, databases and artwork, (e) technical, scientific and other know how and information (including promotional material), trade secrets, confidential information, methods, processes, practices, formulas, designs, patterns, assembly procedures, specifications owned or used by Assignor, (f) rights associated with works of authorship including copyrights, moral rights, design rights, rights in databases, copyright applications, copyright registrations, rights existing under any copyright laws and rights to prepare derivative works, (g) work for hire, (h) any and all rights of Assignor to the name "Coldwater Creek" or any derivation thereof, (i) all assets used or useful by Assignor in the conduct of its catalog business and its business over the internet and/or in any other electronic medium, including (without limitation) any websites, social media sites and accounts (including the content contained therein, user names and passwords), diagrams, drawings, domain names, and all marketing collateral (including all imagery and catalog design files), (j) all goodwill, rights and contracts (including all licenses and sublicenses granted or obtained with respect thereto) related to the foregoing, (k) the right to sue for infringement and other remedies against infringement of any of the foregoing, and (l) rights to protection of interests in the foregoing under the laws of all jurisdictions. The Intellectual Property includes all of the foregoing rights in all of the patents and patent applications identified on Schedule A and the inventions described therein, the copyright registrations and applications identified on Schedule B, the trademark and service mark registrations and applications identified on Schedule C and all goodwill associated therewith, the domain names identified on Schedule D, including the right to sue for past, present and future infringement or other violation of any of the foregoing.

2. Domain Names. Upon execution of this Assignment, Assignor shall place each of the domain names set forth on Schedule D in "unlocked" status and provide to Assignee the applicable Internet domain name registrars' transfer authorization codes for each of the domain names or any required information to effectuate the transfer of Assignor's right, title, and interest in the domain names (including all account login and password information) to Assignee and do all things necessary, proper or advisable to reasonably assist Assignee in transferring such domain names.

3. Further Assurances. Upon execution of this Agreement, Assignor shall deliver to Assignee or its designee any files relating to the Intellectual Property in Assignor's possession and instruct its agents to deliver files in the possession of such agents and identify such agents to Assignee. Each party hereto shall, at the request of any other party hereto at the sole expense of

the requesting party, timely execute, acknowledge and deliver all such further conveyances, notices, assumptions, release and acquaintances and such other instruments, as such other party may reasonably request in order to more effectively consummate the transactions contemplated by this Assignment, and assure fully to the Assignee that all of the properties, rights, titles, interests, estates, remedies, powers and privileges intended to be conveyed to the Assignee are conveyed to the Assignee, all in accordance with and subject to the terms and conditions of the Sale Order and the Agency Agreement.

4. Authorization to Record. To the extent applicable, the parties hereto authorize and request the Commissioner of Patents and Trademarks of the United States, the Copyright Office of the United States, the corresponding entities or agencies in any applicable foreign countries, and all applicable domain name registries to record Assignee as the assignee and owner of all Intellectual Property. Assignee agrees to cause its agents to perform any acts necessary in registry websites to effect transfer of domain names.

5. Attorney-in-Fact. Assignor hereby irrevocably designates and appoints the Assignee and its duly authorized officers and agents as Assignor's agent and attorney-in-fact, to act for and on Assignor's behalf to execute and file any such documents, applications and to do all other lawfully permitted acts to carry out the intent of this Assignment, to record this Assignment with applicable governmental authorities, and to further the prosecution and issuance of patents, copyright, trademark and mask work registrations with the same legal force and effect as if executed by Assignor, if the Assignee is unable because of Assignor's unavailability, dissolution, incapacity, or for any other reason, to secure Assignor's signature for the purpose of confirming or recording this Assignment or applying for or pursuing any application for any United States or foreign patents or mask work or copyright or trademark registrations covering the Intellectual Property.

6. Counterparts. This Assignment may be executed in any number of counterparts, all of which shall be considered one and the same agreement and shall become effective when counterparts have been signed by each of the parties and delivered to the other party (including via facsimile or other electronic transmission), it being understood that each party need not sign the same counterpart.

7. Governing Law. This Assignment shall be governed and construed in accordance with the internal laws of the State of Delaware, without reference to any conflict of laws provisions thereof.

8. Entire Agreement. This Assignment, together with the Agency Agreement and the schedules, annexes, exhibits and the documents referred to in the Agency Agreement and the Sale Approval Order, including the agreements, schedules, annexes, exhibits and documents accompanying any of the foregoing, constitutes the entire agreement of the parties and supersedes all prior agreements, arrangements or understandings, whether written or oral, between the parties with respect to the subject matter of this Assignment.

9. Headings. The headings in the Assignment are for purposes of reference only and shall not limit or otherwise affect the meaning of this Assignment.

10. Binding Effect. This Assignment and the obligations of the parties hereunder shall be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns.
