INTELLECTUAL PROPERTY SECURITY AGREEMENT

This INTELLECTUAL PROPERTY SECURITY AGREEMENT (this "Agreement") is entered into as of September 30, 2014, by Tego, Inc., a corporation existing under the laws of Delaware ("Grantor"), in favor of Airbus Operations S.A.S, a Société par Actions Simplifiée incorporated under the laws of France ("Grantee").

WHEREAS, pursuant to that certain Convertible Promissory Note, dated as of September 14, 2011, as amended (as amended from time to time, the "Note") by and between Grantor and Grantee, Grantor lent Grantor certain amounts of money pursuant to the terms and conditions thereof; and

WHEREAS, pursuant to the Security Agreement, dated as of the date hereof, by and among Grantor and Grantee (the "Security Agreement"), Grantor has granted Grantee a security interest in certain intellectual property as more particularly described in the Security Agreement in order to secure performance of the Grantor's obligations under the Note.

NOW, THEREFORE, in consideration of the premises and mutual covenants herein contained and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby agrees with Grantee as follows:

1. Defined Terms. All initially capitalized terms used but not otherwise defined herein have the meanings given to them in the Security Agreement.

2. Grant of Security Interest in Intellectual Property Collateral. Grantor hereby unconditionally grants, assigns, and pledges to Grantee, to secure Grantee's payment and performance under the Note, a continuing security interest (referred to in this Agreement as the "Security Interest") in all of Grantor's right, title and interest in and to all intellectual property, including, without limitation, the following (collectively, the "Collateral").

(a) Any and all copyright rights, copyright applications, copyright registrations and like protections in each work or authorship and derivative work thereof, whether published or unpublished and whether or not the same also constitutes a trade secret, now or hereafter existing, created, acquired or held, including without limitation those set forth on Exhibit A attached hereto (collectively, the "Copyrights");

(b) Any and all trade secrets, and any and all intellectual property rights in computer software and computer software products now or hereafter existing, created, acquired or held;

(c) Any and all design rights that may be available to Grantor now or hereafter existing, created, acquired or held;

(d) All patents, patent applications and like protections including, without limitation, improvements, divisions, continuations, renewals, reissues, extensions and continuations-in-part of the same, including without limitation the patents and patent applications set forth on Exhibit A attached hereto (collectively, the "Patents");

(e) Any trademark and servicemark rights, whether registered or not, applications to register and registrations of the same and like protections, and the entire goodwill of the business of Grantor connected with and symbolized by such trademarks, including without limitation those set forth on Exhibit A attached hereto, other than any intent-to-use United States trademark applications for which an

amendment to allege use or statement of use has not been filed under 15 U.S.C. § 1051(c) or 15 U.S.C. § 1051(d), respectively, or if filed, has not been deemed in conformance with 15 U.S.C. § 1051(a) or examined and accepted, respectively, by the United States Patent and Trademark Office, provided that, upon such filing and acceptance, such intent-to-use applications shall be included in the definition of Collateral (collectively, the “Trademarks”);

(f) All mask works or similar rights available for the protection of semiconductor chips, now owned or hereafter acquired (collectively, the “Mask Works”);

(g) Any and all claims for damages by way of past, present and future infringements of any of the rights included above, with the right, but not the obligation, to sue for and collect such damages for said use or infringement of the intellectual property rights identified above;

(h) All licenses or other rights to use any of the Copyrights, Patents, Trademarks, or Mask Works and all license fees and royalties arising from such use to the extent permitted by such license or rights;

(i) All amendments, extensions, renewals and extensions of any of the Copyrights, Trademarks, Patents, or Mask Works; and

(j) All proceeds and products of the foregoing, including without limitation all payments under insurance or any indemnity or warranty payable in respect of any of the foregoing.

Notwithstanding the foregoing, the Collateral shall not include any of the Grantor’s right, title or interest in any lease, permit, license, license agreement, contract or agreement to which the Grantor is a party as of the date hereof or any of its right, title or interest thereunder to the extent, but only to the extent, that such a grant would, under the express terms of such lease, permit, license, license agreement, contract or agreement on the date hereof result in a breach of the terms of, or constitute a default under, such lease, permit, license, license agreement, contract or agreement.

3. Security Agreement. The Security Interest granted pursuant to this Agreement is granted in conjunction with the security interests granted to Grantee pursuant to the Security Agreement. Grantor hereby acknowledges and affirms that the rights and remedies of Grantee with respect to the Security Interest in the Collateral made and granted hereby are more fully set forth in the Security Agreement, the terms and provisions of which are incorporated by reference herein as if fully set forth herein. To the extent there is any inconsistency between this Agreement and the Note or Security Agreement, the Note or Security Agreement, as applicable, shall control.

4. Counterparts. This Agreement may be executed in any number of counterparts and by different parties on separate counterparts, each of which, when executed and delivered, shall be deemed to be an original, and all of which, when taken together, shall constitute one and the same Agreement. Delivery of an executed counterpart of this Agreement by facsimile or other electronic method of transmission shall be equally as effective as delivery of an original executed counterpart of this Agreement.

5. Governing Law. This Agreement and any claim, controversy, dispute or cause of action (whether in contract or tort or otherwise) based upon, arising out of or relating to this Agreement and the transactions contemplated hereby and thereby shall be governed by, and construed in accordance with, the laws of the United States and the Commonwealth of Massachusetts, without giving effect to any choice or conflict of law provision or rule.
