**AMENDED AND RESTATED
INTELLECTUAL PROPERTY SECURITY AGREEMENT**

This AMENDED AND RESTATED INTELLECTUAL PROPERTY SECURITY AGREEMENT (as amended, amended and restated, supplemented or otherwise modified from time to time, the "IP Security Agreement") dated as of October 31, 2014, is made by and among the Persons listed on the signature pages hereof (collectively, the "Grantors") and PNC Bank, National Association, as the administrative and collateral agent (in such capacity, together with its permitted successors and assigns, the "Agent") for the Lenders (as defined in the Pledge and Security Agreement referred to below).

WHEREAS, VERTELLUS SPECIALTIES INC., an Indiana corporation ("VSI"), certain affiliates of VSI, the Lenders from time to time party thereto, and the Agent have entered into an Amended and Restated Credit and Security Agreement dated as of October 31, 2014 (as amended, amended and restated, waived, renewed, replaced, restructured, supplemented or otherwise modified from time to time, the "Credit Agreement"). Terms defined in the Credit Agreement and not otherwise defined herein are used herein as defined in the Credit Agreement.

WHEREAS, as a condition precedent to the Lenders making their respective extensions of credit and other accommodations as set forth in the Credit Agreement and/or the Other Documents, each Grantor has executed and delivered that certain Amended and Restated Pledge and Security Agreement dated as of October 31, 2014 by and among the Grantors and the Agent (as amended, amended and restated, waived, renewed, replaced, restructured, supplemented or otherwise modified from time to time, the "Security Agreement").

WHEREAS, under the terms of the Security Agreement, the Grantors have granted to the Agent, for the ratable benefit of the Lenders, a security interest in, among other property, certain intellectual property of the Grantors, and have agreed as a condition thereof to execute this IP Security Agreement for recording with the U.S. Patent and Trademark Office, the United States Copyright Office and other governmental authorities.

WHEREAS, in connection with the Original Credit Agreement (as defined in the Credit Agreement), certain of the Grantors and Agent entered into an Intellectual Property Security Agreement, dated as of September 30, 2010 (as amended restated, supplemented or otherwise modified prior to the date hereof, the "Existing IP Security Agreement") and, in connection with the execution and delivery of the Credit Agreement, Grantors and Agent have agreed to amend and restate in its entirety (but not to effect a novation of) the Existing IP Security Agreement.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, each Grantor agrees as follows:

SECTION 1. Definitions. Unless otherwise defined in this IP Security Agreement, capitalized terms herein shall have the meanings ascribed to them in the Security Agreement.

SECTION 2. Grant of Security. Each Grantor hereby grants to the Agent for the ratable benefit of the Lenders a security interest in such Grantor's right, title and interest in and to the following property of such Grantor, whether now owned or hereafter acquired by such Grantor, wherever located, and whether now or hereafter existing or arising (collectively, the "Collateral"):

(i) all patents, patent applications, utility models and statutory invention registrations, together with all inventions claimed or disclosed therein, and all improvements thereto, including the patents and patent applications set forth in Schedule A hereto (the "Patents");

(ii) all trademarks, service marks, domain names, trade dress, logos, designs, slogans, trade names, business names, fictitious business names, corporate names, certification marks, collective marks, and other source identifiers, whether registered or unregistered, including the trademark and service mark registrations and applications set forth in Schedule B hereto (provided that no security interest shall be granted in any United States intent-to-use trademark application for registration of a trademark filed pursuant to Section 1(b) of the Lanham Act, 15 U.S.C. § 1051, prior to the filing of a "Statement of Use" pursuant to Section 1(d) of the Lanham Act or an "Amendment to Allege Use" pursuant to Section 1(c) of the Lanham Act with respect thereto, solely to the extent that and solely during the period in which the grant of a security interest therein would impair the validity or enforceability of any registration that issues from such intent-to-use trademark application under applicable federal law), together, in each case, with the goodwill symbolized thereby (the "Trademarks");

(iii) all copyrights (whether or not the underlying works of authorship have been published), including, without limitation, copyrights in Computer Software (as defined in the Security Agreement), internet web sites and the content thereof, whether registered or unregistered, including, without limitation, the copyright registrations and applications and exclusive copyright licenses set forth in Schedule C hereto (the "Copyrights");

(iv) all registrations and applications for registration for any of the foregoing, including, without limitation, those registrations and applications for registration set forth in Schedules A, B and C hereto, together with all reissues, divisions, continuations, continuations-in-part, extensions, renewals and reexaminations thereof and all other rights of any kind whatsoever of such Grantor accruing thereunder or pertaining thereto;

(v) any and all claims for damages and injunctive relief for past, present and future infringement, dilution, misappropriation, violation, misuse or breach with respect to any of the foregoing, with the right, but not the obligation, to sue for and collect, or otherwise recover, such damages; and

(vi) all proceeds of, collateral for, income, royalties and other payments now or hereafter due and payable with respect to, and supporting obligations relating to, any and all of the foregoing Collateral.

SECTION 3. Security for Obligations. The grant of a security interest in the Collateral by each Grantor under this IP Security Agreement secures the payment of all Secured Obligations of such Grantor now or hereafter existing whether direct or indirect, absolute or contingent, and whether for principal, reimbursement obligations, interest, premiums, penalties, fees, indemnifications, contract causes of action, costs, expenses or otherwise. Without limiting the generality of the foregoing, the security interest in the Collateral created hereunder secures, as to each Grantor, the payment of all amounts that constitute part of the Secured Obligations and would be owed by such Grantor to the Agent and/or any Lender under the Credit Agreement and/or the Other Documents but for the fact that they are unenforceable or not allowable due to the existence of a bankruptcy, reorganization or similar proceeding involving the Grantor.

SECTION 4. Recordation. Each Grantor authorizes and requests that the Register of Copyrights, the Commissioner for Patents and the Commissioner for Trademarks and any other applicable government officer record this IP Security Agreement.

SECTION 5. Execution in Counterparts. This IP Security Agreement may be executed in any number of counterparts, each of which when so executed shall be deemed to be an original and all of which taken together shall constitute one and the same agreement. Delivery of an executed counterpart of a signature page to this IP Security Agreement by telecopier, e-mail or other electronic means shall be effective as delivery of an original executed counterpart of this Agreement.

SECTION 6. Grants, Rights and Remedies. This IP Security Agreement has been entered into in conjunction with the provisions of the Security Agreement. Each Grantor does hereby acknowledge and confirm that the grant of the security interest hereunder to, and the rights and remedies of, the Agent with respect to the Collateral are more fully set forth in the Security Agreement, the terms and provisions of which are incorporated herein by reference as if fully set forth herein.

SECTION 7. Governing Law. **THIS AGREEMENT SHALL BE GOVERNED BY THE LAWS OF THE STATE OF NEW YORK WITHOUT GIVING EFFECT TO ANY CONFLICT OF LAW PRINCIPLES (BUT GIVING EFFECT TO SECTION 5-1401 OF THE NEW YORK GENERAL OBLIGATIONS LAW).**

SECTION 8. Intercreditor Agreement. **Reference is made to the Intercreditor Agreement, dated of even date herewith, among PNC Bank, National Association, as agent for the ABL Secured Parties referred to therein and Jefferies Finance LLC, as agent for the Term Secured Parties referred to therein and acknowledged by each of the Grantors (the "Intercreditor Agreement"). Each Person that is secured hereunder, by accepting the benefits of the security provided hereby, (1) consents (or is deemed to consent), to the subordination of Liens provided for in the Intercreditor Agreement, (ii) agrees (or is deemed to agree) that it will be bound by, and will take no actions contrary to, the provisions of the Intercreditor Agreement, (iii) authorizes (or is deemed to authorize) the**

Agent on behalf of such Person to enter into, and perform under, the Intercreditor Agreement and (iv) acknowledges (or is deemed to acknowledge) that a copy of the Intercreditor Agreement was delivered, or made available, to such Person.

Notwithstanding any other provision contained herein, this Agreement, the Liens created hereby and the rights, remedies, duties and obligations provided for herein are subject in all respects to the provisions of the Intercreditor Agreement. In the event of any conflict or inconsistency between the provisions of this Agreement and the Credit Agreement, the provisions of the Credit Agreement shall control, provided, that, in the event of any inconsistency between the provisions of the Credit Agreement and the Intercreditor Agreement, the provisions of the Intercreditor Agreement shall control.

SECTION 9. Effect of Amendment and Restatement. Upon the effectiveness of this IP Security Agreement, the Existing IP Security Agreement shall be amended and restated in its entirety by this IP Security Agreement. Each Grantor (other than VSHC) acknowledges that, except as expressly modified hereby, the grants, pledges and assignments of liens and security interests made by such Grantor to Agent for its benefit and for the benefit of the Lenders in the Existing IP Security Agreement remain continuous, in full force and effect, and are reaffirmed hereby to secure the payment and performance of the Secured Obligations.

[INTENTIONALLY LEFT BLANK]

IN WITNESS WHEREOF, each Grantor and the Agent have caused this IP Security Agreement to be duly executed and delivered by their respective officers thereunto duly authorized as of the date first above written.
