Box 1007, Fraser, CO 80442.

RECITALS

A. WHEREAS, Seller is engaged in the business of owning and licensing certain intellectual property necessary to manufacture the Combat Application Tourniquet™ (the “**Product**”); and

B. WHEREAS, Purchaser is the exclusive licensee, manufacturer, and distributor of the Product; and

C. WHEREAS, the parties entered into an asset purchase agreement dated November 6th, 2014 (the “**Purchase Agreement**”) whereby: (a) Seller agreed to grant, convey, assign, transfer, and set over (collectively “**Transfer**”) the Assets (defined below) to Purchaser; (b) Purchaser agreed to grant Seller a security interest in the Assets to secure all of Purchaser’s obligations under the Purchase Agreement (the “**Obligations**”); and (c) Purchaser agreed to conditionally transfer the Assets back to Seller; and

D. WHEREAS, Purchaser’s grant of the security interest and conditional assignment contemplated by this Agreement are conditions precedent to Seller’s entering into the Purchase Agreement.

AGREEMENT

NOW THEREFORE, in consideration of the Recitals and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties hereby agree as follows:

1. Definition of Assets. The term “**Assets**” means the following:

(a) All of Seller’s right, title and interest in and to, including any of Seller’s rights to file a lawsuit for any infringement of, the patents listed on **Exhibit 2.1.1** (collectively, the “**Patents**”), together with patent applications, statutory invention registrations, and patent disclosures, together with reissuances, provisional patent applications, divisionals, continuations, continuations-in-part, revisions, extensions, requests for continued examination, continued prosecution applications, and re-examinations relating to the listed patents (collectively, the “**Patent IP**”). No other patents, patent applications and/or inventions are being conveyed, and the

conveyance specifically excludes U.S. Patent Application No. 13/843,792 filed on March 15, 2013, entitled “Quick-Connect Buckle for a Tourniquet and Methods Associated Therewith,” and further excludes all future patents and patent applications related thereto by priority claim, and any other rights related thereto.

(b) All of Seller’s right, title and interest in and to, including any of Seller’s rights to file a lawsuit for any infringement of, the trademarks listed on **Exhibit 2.1.2** (collectively, the “Trademarks”), together with the service marks, certification marks, trade names, corporate names and product names, and registrations and applications directed to any trademark, service mark, certification mark, trade name, corporate name or product name, and material unregistered trademarks, service marks, certification marks, trade names, corporate names and Product names (collectively, the “Trademark IP”).

(c) All of Seller’s right, title and interest in and to, including any of Seller’s rights to file a lawsuit for any infringement of, the copyrights listed on **Exhibit 2.1.3** (collectively, the “Copyrights”), together with the copyright registrations and applications for copyright registration, and renewals and extensions thereof, and material unregistered works of authorship related to the Product (collectively, the “Copyright IP”).

2. Assignment from Seller to Purchaser. Seller hereby irrevocably Transfers to Purchaser its entire right, title, and interest in and to the Assets, subject to the Security Interest and Conditional Assignment described below.

3. Security Interest.

(a) Grant. As security for the performance of all of Purchaser’s Obligations, Purchaser hereby assigns, pledges, and grants to Seller a lien on and continuing security interest in all of Purchaser’s right, title, and interest in the Assets (the “**Security Interest**”).

(b) Negative Covenant. Purchaser shall not create, incur, assume, or permit to exist, directly, indirectly, or by operation of law, any lien, encumbrance, security interest, or claim upon any of the Assets without written consent of Seller.

(c) Remedies. Upon Purchaser’s default of any Obligation, and the expiration of all applicable cure periods under the Purchase Agreement and this Agreement, in addition to all other rights and remedies of Seller, whether under law, the Purchase Agreement, or otherwise, Seller’s rights and remedies with respect to the Assets shall include, but not be limited to (all such rights and remedies being cumulative, not exclusive, and enforceable alternatively, successively, or concurrently, without notice to or consent by Buyer except as expressly provided otherwise herein), the following, without payment of royalty or compensation of any kind to Purchaser:

(i) Exercise Secured Party Rights. Seller may exercise all rights and remedies of a secured party on default under the Uniform Commercial Code (regardless of whether such Code applies to the affected Assets).

(ii) Institute Proceedings. Institute any proceeding or proceedings to enforce the Obligations.

(iii) License the Assets. Seller may license or sublicense, whether general, special, or otherwise, and whether on an exclusive or nonexclusive basis, any of the Assets, throughout the world for such term or terms, on such conditions, and in such manner, as Seller shall in its sole discretion determine.

(iv) Enforce Licenses. Seller may (without assuming any obligations or liability thereunder), at any time, enforce (and shall have the exclusive right but not the obligation to enforce) against any licensor, licensee, or sublicensee of the Assets all license rights of Purchaser, and take or refrain from taking any such action.

(v) Sell Assets.

1. Seller may, to the extent permitted by law, in its sole discretion, without notice except as specified below, assign, sell, or otherwise transfer or dispose of the Assets or any part thereof, either with or without special or other conditions or stipulations, with power to buy the Assets or any part of it in one or more portions at public or private sale, at any of Seller's offices or elsewhere, at such time or times, for cash, on credit, or for future delivery, and at such price or prices and upon such other terms as Seller may deem commercially reasonable, irrespective of the impact of any such sales on the market price of any of the Assets.

2. Each such purchaser at any such sale shall hold the property sold absolutely free from any claim or right on the part of Purchaser or any party claiming through Purchaser, and Purchaser hereby waives (to the extent permitted by law) all rights of redemption, stay, and/or appraisal that is now, has, or may at any time in the future have under any rule of law or statute now existing or hereafter enacted.

3. Purchaser agrees that, to the extent notice of sale shall be required by law, at least thirty (30) days' notice to Purchaser of the time and place of any public sale or the time after which any private sale is to be made shall constitute reasonable notification.

4. At any sale of the Assets, if permitted by law, Seller may bid (which bid may be, in whole or in part, in the form of cancellation of indebtedness) for and purchase the Assets or any portion thereof for the account of Seller.

5. Seller shall not be obligated to make any sale of the Assets regardless of notice of sale having been given.

6. Seller may adjourn any public or private sale from time to time by announcement at the time and place fixed therefor, and such sale may, without further notice, be made at the time and place to which it was adjourned.

7. Purchaser recognizes that Seller may elect in its sole discretion to sell all or part of the Assets to one or more purchasers in privately negotiated transactions.

8. Purchaser hereby waives any claims against Seller arising by reason of the fact that the price at which any Assets may have been sold at such a private sale was less than the price which might have been obtained at a public sale, even if Seller accepts the first offer received and does not offer such Assets to more than one offeree.

9. Seller shall also have the power to execute assurances and do all other acts and things for completing the assignment, sale, transfer, or disposition which Seller, in its sole discretion, deems appropriate or proper.

4. Conditional Assignment from Purchaser to Seller.

(a) Conditional Assignment. In addition to the Security Interest, Purchaser hereby Transfers to Seller its entire right, title, and interest in and to the Assets (the “**Conditional Assignment**”); provided, however, that the Conditional Assignment shall only be and become of force and effect upon occurrence of any of the following events (each a “**Condition**”):

(i) an Event of Default (defined in the Purchase Agreement);

(ii) a default of any other Obligation that remains uncured after expiration of the applicable Cure Right (defined in the Purchase Agreement); or

(iii) the Transfer of any of the Assets from Purchaser to any third party, in violation of the Purchase Agreement, whether by sale, operation of law, or otherwise, without the prior written consent of Seller.

(b) Seller’s Rights. Upon the occurrence of either Condition, Seller: (i) shall own the entire right, title, and interest in and to the Assets, free and clear of any lien, charge, encumbrance, or claim of Purchaser or any third party; and (ii) may, if applicable, either: (1) terminate, without any liability to Purchaser or third parties, any licenses granted by Purchaser to third parties to the Assets; or (2) collect any royalties or fees due to Purchaser, without any liability or obligations to Purchaser, under any such license.

5. Seller’s Rights Cumulative. Any and all rights and interests of Seller in and to the Assets (and in and to the Obligations of Purchaser) provided in or arising under this Agreement shall supplement, be cumulative and be in addition to the rights and interests of Seller in, to, and with respect to the Assets (and to the Obligations of Purchaser) provided in or arising under the Purchase Agreement.

6. Expiration of Security Interest and Conditional Assignment. Unless Purchaser fails to perform the Obligations or either Condition is met, the Security Interest and Conditional Assignment shall terminate on the earlier of: (a) the payment of the remainder of the Purchase Price as defined in, and in accordance with, the Purchase Agreement; or (b) January 1, 2019. At such time Seller will have no further rights in or to the Assets.

7. Power of Attorney. Purchaser hereby appoints Seller as its attorney-in-fact, with full authority in the place and stead of Purchaser and in the name of Purchaser, or otherwise, from time to time, in Seller's reasonable discretion for the sole purpose of taking any action and executing any instrument which Seller may deem reasonably necessary or advisable to accomplish the purposes of this Agreement (but Seller shall not be obligated to and shall have no liability to Purchaser or any third party for failure to do so or take action). This appointment, being coupled with an interest, is irrevocable.

8. Recordation with Governmental Authorities.

(a) The parties authorize the Commissioner for Patents, the Commissioner for Trademarks, and the Register of Copyrights and any other government officials to record and register this Agreement.

(b) In no event shall this Agreement or the recordation of this Agreement with any governmental authority, including the Copyright Office or the U.S. Patent and Trademark Office, adversely affect or impair, in any way or to any extent: (i) the Purchase Agreement; (ii) the Security Interest; (iii) the attachment and perfection of the Security Interest under the Uniform Commercial Code; (iv) the Conditional Assignment; or (v) the present or future rights and interests of Seller in and to the Assets under or in connection with the Purchase Agreement, this Agreement, and/or the Uniform Commercial Code.

9. Further Assurances. Seller and Purchaser hereby agree that each will make, execute, and deliver any and all other instruments and documents in writing and generally do all things which may be necessary to more effectually secure and vest in the other party the rights, titles, and interests in and to the Assets pursuant to the term of this Agreement.

10. Governing Law. This Agreement shall be governed and construed in accordance with the internal laws (and not the law of conflicts) of the State of Colorado. Any dispute or claim arising under this Agreement shall be heard in the state or federal courts situated in the City and County of Denver, Colorado and each Party hereby waives any defense it may have to the jurisdiction of or venue in such courts.

11. Severability. If any covenant contained herein, or any part thereof, is hereafter construed to be invalid or unenforceable, the same shall not affect the remaining covenants, which shall be given full effect without regard to the invalid portion; and any court having jurisdiction shall have the power to reduce the duration, area, or scope of any such covenant; and in its reduced form, such covenant shall then be enforceable.

12. Purchase Agreement. This Agreement has been entered into pursuant to and in conjunction with the Purchase Agreement, which is hereby incorporated by reference. The provisions of the Purchase Agreement shall supersede and control over any conflicting or inconsistent provision herein.
