This ASSIGNMENT OF INTELLECTUAL PROPERTY (the "Assignment"), dated as of November 21, 2014, is entered into by and between Drew Estate Holding Company LLC, a Delaware limited liability company with a principal place of business at 12415 SW 136<sup>th</sup> Avenue, Suite 7, Miami, FL 33186 ("Assignor"), and Drew Estate LLC, a Delaware limited liability company with a principal place of business at 12415 SW 136<sup>th</sup> Avenue, Suite 7, Miami, FL 33186 ("Assignee").

This Assignment is executed and delivered in connection with that certain Asset and Equity Purchase Agreement, dated October 17, 2014, by and among Swisher, the Asset Purchasers, the Equity Purchasers, the Companies, the Founders and Assignor, and certain other parties named therein (the "Purchase Agreement"), pursuant to which, among other things, Assignor has agreed to execute an Assignment of Intellectual Property to Assignee wherein Assignor will assign, transfer and convey to Assignee all of Assignor's right, title and interest in and to all Intellectual Property Rights owned by Assignor as of the Closing, including those relating to the Trademarks, Domain Names, Patents and Copyrights, and all common law rights associated therewith ("Intellectual Property").

Pursuant to Section 5.2 of that certain Limited Liability Company Agreement of Assignee dated April 1, 2010 to which Assignor is a party, in connection with a sale of substantially all of the assets of the Assignee as provided in the Purchase Agreement, Assignor is required to contribute to Assignee all intellectual property it owns or has rights in and licenses to Assignee for use in connection with the business of the Assignee.

In consideration of the foregoing, the sum of \$1.00, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties have agreed as follows:

1. Each term which is capitalized, but not defined, in this Assignment shall have the meaning ascribed to such term in the Purchase Agreement.

2. Upon and subject to the terms and conditions of the Purchase Agreement and this Assignment, Assignor hereby irrevocably sells, conveys, transfers and assigns to Assignee all of Assignor's worldwide right, title and interest in and to the Intellectual Property, including but not limited to the following:

(a) the trademarks, including the registrations and applications, set forth in **Schedule F-1** hereto, and any and all common law rights relating thereto, together with the goodwill connected with the use of and symbolized thereby and all issuances, extensions and renewals thereof ("Trademarks"); provided that, with respect to the United States intent-to-use trademark applications set forth in Schedule F-1 hereto, the transfer of such applications accompanies the transfer of Assignor's business, or portion of the business to which the trademark pertains, and that business is ongoing and existing;

(b) the patents and patent applications set forth in **Schedule F-2** hereto and all issuances, divisions, continuations, continuations-in-part, reissues, extensions, reexaminations and renewals thereof ("Patents");

(c) all copyrights, including all rights identified in 17 U.S.C. § 106, in the works set forth in **Schedule F-3** hereto and their various components, regardless of color ("Copyrights"), including any and all moral rights therein to the extent such moral rights are assignable;

(d) all rights of any kind whatsoever of Assignor accruing under any of the foregoing provided by applicable law of any jurisdiction, by international treaties and conventions and otherwise throughout the world;

(e) any and all royalties, fees, income, payments and other proceeds now or hereafter due or payable with respect to any and all of the foregoing; and

(f) any and all claims and causes of action, with respect to any of the foregoing, whether accruing before, on and/or after the date hereof, including all rights to and claims for damages, restitution and injunctive and other legal and equitable relief for past, present and future infringement, dilution, misappropriation, violation, misuse, breach or default, with the right but no obligation to sue for such legal and equitable relief and to collect, or otherwise recover, any such damages.

3. Each party hereby agrees to execute and deliver any and all additional documents that any other party may reasonably request, and to use commercially reasonable efforts to take such further actions as may be reasonably necessary to effectuate, carry out, and comply with the agreements set forth in this Assignment.

4. All of the terms and provisions of this Assignment are binding upon Assignor, Assignee and their respective successors and assigns and will inure to the benefit of the parties and their respective successors and assigns.

5. The terms and conditions of this Assignment shall be governed and construed in accordance with the laws of the State of Delaware without giving effect to the conflicts of laws principles thereof or of any other state.

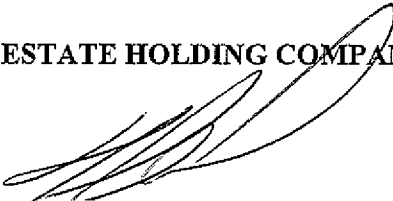

6. This Assignment may be executed by the parties hereto in separate counterparts, each of which when so executed and delivered shall be an original but all such counterparts together shall constitute one and the same instrument.
