**INTELLECTUAL PROPERTY SECURITY AGREEMENT FOR PATENTS AND  
TRADEMARKS**

This Intellectual Property Security Agreement for Patents and Trademarks ("Agreement") dated July 25, 2014, is between Seniorlink Incorporated, a Delaware corporation, and Caregiver Homes Network Inc., a Delaware corporation, each with a mailing address of 500 Boylston Street, Suite 640, Boston, Massachusetts 02116 (the "Grantors"), and Rockland Trust Company, a Massachusetts trust company with a principal place of business at 288 Union Street, Rockland, Massachusetts 02370 ("Lender")

**RECITALS:**

A. Lender will make a \$10 million revolving credit loan to Grantors as described in the Loan Agreement dated of even date herewith ("Loan Agreement") between Grantors and Lender, but only if Grantors grant Lender, in accordance with the terms of the Loan Agreement, a security interest in its intellectual property, including patents and trademarks.

B. Grantors have granted Lender a security interest in all of their right, title and interest, presently existing or later acquired, in and to all the Collateral described in the Security Agreement dated of even date herewith (the "Security Agreement") executed by Grantors and Lender contemporaneously with the Loan Agreement.

NOW THEREFORE, in consideration of the mutual promises, covenants, conditions, representations, and warranties hereinafter set forth and for other good and valuable consideration, and intending to be legally bound, the parties hereto mutually agree as follows:

1. DEFINITIONS

Capitalized terms used but not defined herein shall have the meanings given to them in the Loan Agreement and the Security Agreement. In addition, the following terms, as used in this Agreement, have the following meanings:

"Intellectual Property Collateral" means:

(i) Each of the patents and patent applications which are presently owned by Grantors (including all of Grantors' right, title, and interest, in and to the patents and patent applications listed on Exhibit A, attached hereto, as the same may be updated hereafter from time to time), in whole or in part, and all patent rights with respect thereto throughout the world, including all proceeds thereof (including license royalties and proceeds of infringement suits), foreign filing rights, and rights to extend such patents and patent rights;

(ii) All of Grantors' right, title, and interest in all patentable inventions, and to file applications for patent under federal patent law or regulation of any foreign country, and to request reexamination and/or reissue of the patents, the right (without obligation) to sue or bring interference proceedings in the name of Grantors or in the name of Lender for past, present, and future infringements of the patents, and all rights (but not obligations) corresponding thereto in the United States and any foreign country;

(iii) Each of the trademarks and rights and interest which are capable of being protected as trademarks (including all of Grantors' right to the trademark registrations listed on Exhibit B attached hereto, as the same may be updated hereafter from time to time and all other trademarks, service marks, designs, logos, indicia, tradenames, corporate names, company names, business names, fictitious business names, trade styles, and other source or business identifiers, and applications pertaining thereto), which are presently owned by Grantors, in whole or in part, and all trademark rights with respect thereto throughout the world, including all goodwill associated therewith and all proceeds thereof (including license royalties and proceeds of infringement suits), and rights to renew and extend such trademarks and trademark rights;

(iv) All of Grantors' right, title and interest to register trademark claims under any state or federal trademark law or regulation of any foreign country and to apply for, renew, and extend the trademark registrations and trademark rights, the right (without obligation) to sue or bring opposition or cancellation proceedings in the name of Grantors or in the name of Lender for past, present, and future infringements of the trademarks, registrations, or trademark rights and all rights (but not obligations) corresponding thereto in the United States and any foreign country;

(v) All general intangibles relating to the foregoing; and

(vi) All proceeds of any and all of the foregoing (including, without limitations, license royalties and proceeds of infringement suits) and, to the extent not otherwise included, all payments under insurance, or any indemnity, warranty, or guaranty payable by reason of loss or damage to or otherwise with respect to the Collateral.

Notwithstanding the foregoing, "Intellectual Property Collateral" shall not include any license, property or contract right the granting of a security interest in which would be prohibited by law or contract.

"Obligations" as defined in the Loan Agreement.

## 2. GRANT OF SECURITY INTEREST.

Grantors hereby grant Lender a first-priority security interest in all of Grantors' right, title, and interest in and to the Intellectual Property Collateral to secure the Obligations.

This security interest is granted in conjunction with the security interest granted under the Loan Agreement and Security Agreement, and under the Intellectual Property Security Agreement for Copyrights dated of even date herewith. Lender's rights and remedies in the security interest are in addition to those in the Loan Agreement, the Security Agreement, the Intellectual Property Security Agreement for Copyrights, and those available in law or equity. Lender's rights, powers and interests are cumulative with every right, power or remedy provided hereunder. Lender's exercise of its rights, powers or remedies in this Agreement, the Loan Agreement or any other loan document (as described in the Loan Agreement), and does not preclude the simultaneous or later exercise of any or all other rights, powers or remedies.

### 3. REPRESENTATIONS, WARRANTIES AND COVENANTS.

Grantors hereby represent, warrant, and covenant that:

#### 3.1. Patents; Trademarks; Service Marks

(i) A true and complete schedule setting forth all material patents and patent applications owned or controlled by Grantors, together with a summary description in respect of the filing or issuance thereof and expiration dates is set forth on Exhibit A.

(ii) Copies all material federal and state trademark and service mark registrations owned or controlled by Grantors are attached hereto as Exhibit B and incorporated herein by reference;

3.2. Validity; Enforceability. To the Grantors' knowledge and belief, except as set forth on Exhibit A, each of the patents, service marks, and trademarks is valid and enforceable, and Grantors are not presently aware of any past, present, or prospective claim by any third party that any of the patents, service marks, or trademarks are invalid or unenforceable, or that the use of any patents, service marks, or trademarks violates the rights of any third person, or of any basis for any such claims.

3.3. Title. To the Grantors' knowledge and belief, Grantors are the sole and exclusive owner of the entire and unencumbered right, title, and interest in and to each of the patents, patent applications, service marks, service mark registrations, trademarks, and trademark registrations free and clear of any liens (other than permitted junior liens (as contemplated in the Loan Agreement)), charges, and encumbrances, including pledges and assignments, or has the rights to use the same under a valid license; provided, however, that it is understood and agreed that Grantors have not done exhaustive prior art searches or other searches with respect to such property;

3.4. Notice. To the Grantors' knowledge and belief, Grantors have used and will continue to exercise reasonable efforts to use proper statutory notice in connection with its use of each of the patents, service marks, and trademarks;

3.5. Quality. Grantors have used and will continue to exercise reasonable efforts to use consistent standards of quality (consistent with Grantors' past practices) in the manufacture, sale, and delivery of products and services sold or delivered under or in connection with the service marks and trademarks, including, to the extent applicable, in the operation and maintenance of its merchandising operations, and will continue to exercise reasonable efforts to maintain the validity of the service marks and trademarks to the extent that the failure to so maintain the validity of such service marks and trademarks could reasonably be expected to result in a material adverse change to a Lender's economic interest and provided that Grantors may cease the use of a service mark or trademark in connection with the cessation of a particular product or service; and

3.6. Perfection of Security Interest. Except for the filing of a financing statement with the Secretary of State of the State of Delaware and filings with the United States Patent and Trademark Office necessary to perfect the security interests created hereunder, to the Grantors' knowledge and belief no authorization, approval, or other action by, and no notice to or filing with, any governmental authority or regulatory body in the United States is required either for the grant by Grantors of the security interest hereunder or for the execution, delivery, or performance of this Agreement by Grantors or for the perfection of or the exercise by Lender of its rights hereunder with respect to the Intellectual Property Collateral.

#### 4. AFTER-ACQUIRED PATENT, SERVICE MARK, OR TRADEMARK RIGHTS.

If Grantors shall obtain ownership rights to any new service marks, trademarks, any new patentable inventions or become entitled to the benefit of any patent application or patent for any reissue, division, or continuation, of any patent, the provisions of this Agreement shall automatically apply thereto. Grantors shall, upon reasonable request by Lender, provide a report from time to time in writing to Lender with respect to any such new service marks, trademarks, or patents, or renewal or extension of any service mark or trademark registration. Grantors shall bear any expenses incurred in connection with future patent applications and future service mark or trademark registrations.

#### 5. LITIGATION AND PROCEEDINGS.

Grantors shall commence and diligently prosecute in its own name, as the real party in interest, for its own benefit, and at its own expense, such suits, administrative proceedings, or other actions for infringement or other damages as are in its reasonable business judgment necessary and appropriate to protect the Intellectual Property Collateral. Grantors shall provide to Lender any non-privileged information with respect thereto requested by Lender. Lender shall provide at Grantors' expense all necessary cooperation in connection with any such suits, proceedings, or action, including, without limitation, joining as a necessary party. Following Grantors' becoming aware thereof, Grantors shall notify Lender of the institution of, or any adverse determination in, any proceeding in the United States Patent and Trademark Office, or any United States, state, or foreign court regarding Grantors' claim of ownership in any of the patents, service marks, or trademarks, its right to apply for the same, or its right to keep and maintain such patent, service mark, or trademark right.

#### 6. POWER OF ATTORNEY.

To the extent it does not adversely affect the validity of the Intellectual Property Collateral, Grantors grants Lender power of attorney, coupled with an interest, having the full authority, and in the place of Grantors and in the name of Grantors, from time to time during the occurrence and continuance of an Event of Default in Lender's discretion, to take any action and to execute any instrument which Lender may deem necessary or advisable to accomplish the purposes of this Agreement, including, without limitation, as may be subject to the provisions of this Agreement: to endorse Grantors' name on all applications, documents, papers, and instruments necessary for Lender to use or maintain the Intellectual Property

Collateral; to ask, demand, collect, sue for, recover, impound, receive, and give acquittance and receipts for money due or to become due under or in respect of any of the Intellectual Property Collateral; to file any claims or take any action or institute any proceedings that Lender may deem necessary for the collection of any of the Intellectual Property Collateral or otherwise to enforce Grantors' or the Lender's rights with respect to any of the Intellectual Property Collateral and to assign, pledge, convey, or otherwise transfer title in or dispose of the Intellectual Property Collateral to any person.

#### 7. EVENTS OF DEFAULT.

An Event of Default (as defined in the Loan Agreement and any other document evidencing the Obligations) shall be an Event of Default under this Agreement.

#### 8. SPECIFIC REMEDIES.

Upon the occurrence and continuation of any Event of Default, Lender shall have, in addition to, other rights given by law or in this Agreement, the Loan Agreement, the Security Agreement, or in the Note, all of the rights and remedies with respect to the Intellectual Property Collateral of a secured party under the Code, including the following:

8.1. Notification. Lender may notify licensees to make royalty payments on license agreements directly to Lender for the benefit of the Lender; and

8.2. Sale. Lender may sell or assign the Intellectual Property Collateral and associated goodwill at public or private sale for such amounts, and at such time or times as Lender deems advisable. Any requirement of reasonable notice of any disposition of the Intellectual Property Collateral shall be satisfied if such notice is sent to Grantors thirty days prior to such disposition. Grantors shall be credited with the net proceeds of such sale only when they are actually received by Lender, and Grantors shall continue to be liable for any deficiency remaining after the Intellectual Property Collateral is sold or collected. If the sale is to be a public sale, Lender shall also give notice of the time and place by publishing a notice one time at least ten days before the date of the sale in a newspaper of general circulation in the county in which the sale is to be held. To the maximum extent permitted by applicable law, Lender may be the purchaser of any or all of the Intellectual Property Collateral and associated goodwill at any public sale and shall be entitled, for the purpose of bidding and making settlement or payment of the purchase price for all or any portion of the Intellectual Property Collateral sold at any public sale, to use and apply all or any part of the Obligations as a credit on account of the purchase price of any collateral payable by Lender at such sale.

#### 9. CHOICE OF LAW

The Code shall govern the perfection and the effect of attachment and perfection of the Lender's security interest in the Collateral, and the rights, duties and obligations of the Lender and Grantors with respect to the Intellectual Property Collateral. This Agreement shall be deemed to be a contract under the laws of the Commonwealth of Massachusetts and, to the extent not inconsistent with the preceding sentence, the terms and provisions of this Agreement shall be governed by and construed in accordance with the laws of that State.

## 10. GENERAL PROVISIONS.

10.1. Effectiveness. This Agreement shall be binding and deemed effective when executed by Grantors and Lender.

10.2. Successors and Assigns. This Agreement shall bind and inure to the benefit of the respective successors and assigns of each of the parties; provided, however, that Grantors may not assign the Agreement or any rights or duties hereunder without Lender prior written consent and any prohibited assignment shall be absolutely void. Lender may assign this Agreement and its rights and duties hereunder, subject only to Section 6 of the Loan Agreement, and no consent or approval by Grantors are required in connection with any such assignment.

10.3. Section Headings. Headings and numbers have been set forth herein for convenience only. Unless the contrary is compelled by the context, everything contained in each section applied equally to this entire Agreement.

10.4. Interpretation. Neither this Agreement nor any uncertainty or ambiguity herein shall be construed or resolved against Lender or Grantors, whether under any rule of construction or otherwise. On the contrary, this Agreement has been reviewed by all parties and shall be construed and interpreted according to the ordinary meaning of the words used so as to fairly accomplish the purposes and intentions of all parties hereto.

10.5. Severability of Provisions. Each provision of this Agreement shall be severable from every other provision of this Agreement for the purpose of determining the legal enforceability of any specific provision.

10.6. Amendments in Writing. This Agreement can only be amended by a writing signed by both Lender and Grantors.

10.7. Counterparts; Telefacsimile Execution. This Agreement may be executed in any number of counterparts and by different parties on separate counterparts, each of which, when executed and delivered, shall be deemed to be an original, and all of which, when taken together, shall constitute but one and the same Agreement. Delivery of an executed counterpart of this Agreement by telefacsimile shall be equally as effective as delivery of a manually executed counterpart of this Agreement. Any party delivering an executed counterpart of this Agreement by telefacsimile also shall deliver a manually executed counterpart of this Agreement but the failure to deliver a manually executed counterpart shall not affect the validity, enforceability, and binding effect of this Agreement.

10.8. Fees and Expenses. Grantors shall pay to Lender reasonable costs and expenses (including reasonable attorneys' and paralegals' fees and disbursements) paid or incurred to enforce the security interest created hereunder, sell or otherwise realize upon the Intellectual Property Collateral, and otherwise enforce the provisions of this Agreement, or to defend any claims made or threatened against the Lender arising out of the transactions contemplated hereby (including preparations for the consultations concerning any such matters).

The foregoing shall not be construed to limit any other provisions of this Agreement or the Loan Documents regarding costs and expenses to be paid by Grantors.

10.9. Notices. Except as otherwise provided herein, all notices, demands, and requests that either party is required or elects to give to the other shall be in writing and shall be governed by the provisions of the Loan Agreement.

10.10. Termination by Lender. Lender shall release its security interest in the Intellectual Property Collateral at such time as the non-contingent Obligations have been fully and finally discharged, the outstanding Note have been paid in full, and the Lender's obligation to provide additional credit under the Loan Agreement has been terminated, and in such event at the reasonable request of Grantors and Lender each shall, at Grantors' expense, make such filings with the State of Delaware and the United States Patent and Trademark Office as may be deemed by Grantors to be necessary or appropriate to evidence such release and terminate any financing statement nor notice relating to the liens and security interests created hereby. In the event that, for any reason, any portion of such payments to the Lender is set aside or restored, whether voluntarily or involuntarily, after the making thereof, then the obligation intended to be satisfied thereby shall be revived and continued in full force and effect as if said payment or payments had not been made.

10.11. Integration. This Agreement, together with the other Loan Documents, reflect the entire understanding of the parties with respect to the transactions contemplated hereby and shall not be contradicted or qualified by any other agreement, oral or written, entered into before the date hereof.

10.12. Resolution of Conflicts. In the event that any express provision or term of this Agreement conflicts with the express provisions and terms of the Loan Agreement, the provision or term in the Loan Agreement shall control.

10.13. Confidentiality. Lender acknowledges and agrees that the information set forth in Exhibit A and Exhibit B attached hereto (the "IP Information") contains proprietary information of Grantors, including trade secrets and that disclosure of the IP Information to third parties could adversely affect the value of the Intellectual Property Collateral. Accordingly, Lender agrees to keep the IP Information strictly confidential and to ensure that the IP Information is not disclosed to any third parties. Grantors agrees to assist Lender in creating a summary version of the IP Information as may be necessary for filing with the United States Patent and Trademark Office and any other applicable filing offices to perfect the security interest created hereunder while avoiding unnecessary disclosure.
