This SECOND LIEN INTELLECTUAL PROPERTY SECURITY AGREEMENT, dated and effective as of December 12, 2014 (as further amended, amended and restated, supplemented or otherwise modified from time to time, this “IP Security Agreement”), among BERRY PLASTICS CORPORATION (the “Company”), each subsidiary of the Company identified herein as a party (together with the Company, the “Grantors” and each, a “Grantor”) and U.S. BANK NATIONAL ASSOCIATION, as collateral agent (in such capacity, the “Collateral Agent”) for the Secured Parties (as defined in the Collateral Agreement).

WHEREAS, pursuant to the terms, conditions and provisions of (a) the indenture dated as of November 19, 2010, among the Company, the Company’s subsidiaries party thereto, and U.S. Bank National Association, as trustee (such agreement, as amended, restated, supplemented or otherwise modified from time to time, the “November 2010 Indenture”), the Company has issued the 9.75% Second Priority Senior Secured Notes due 2021 (the “November 2010 Notes”) and (b) the indenture dated as of May 12, 2014, among the Company, the Company’s subsidiaries party thereto and U.S. Bank National Association, as trustee (such agreement, as amended, restated, supplemented or otherwise modified from time to time, the “May 2014 Indenture”, and together with the November 2010 Indenture, the “Indentures”), the Company has issued the 5.50% Second Priority Senior Secured Notes due 2022 (the “May 2014 Notes”, and together with the November 2010 Notes and any additional notes issued from time to time under any of the Indentures, the “Notes”)

WHEREAS, pursuant to the terms of the Indentures, the Notes are guaranteed by each of the subsidiaries of the Company party to the applicable Indenture;

WHEREAS, the Collateral Agreement, dated as of September 20, 2006, among the Company, the subsidiaries of the Company party thereto and U.S. Bank National Association, as collateral agent, pursuant to which the Company and each of its subsidiaries identified therein have granted to the Collateral Agent a second-priority lien and security interest in the Additional Collateral (as defined below) to secure certain obligations in respect of the Notes. Terms defined in the Collateral Agreement and not otherwise defined herein are used herein as defined therein;

WHEREAS, under the terms of the Collateral Agreement, each Grantor has granted to the Collateral Agent for the benefit of the Secured Parties, a security interest in, among other property, certain intellectual property of such Grantor, and has agreed under the terms of the Collateral Agreement to enter into this IP Security Agreement, for recording with the United States Patent and Trademark Office, the United States Copyright Office and any successor office or any similar office in any other country;

WHEREAS, the Grantors are affiliates of the Company, derive substantial benefit from the extension of credit to the Company pursuant to the Indentures and are willing to execute and deliver this IP Security Agreement pursuant to the terms of the Collateral Agreement; and

WHEREAS, each Grantor has duly authorized the execution, delivery and performance of this Agreement.

NOW, THEREFORE, for and in consideration of the premises, and of the mutual covenants herein contained, each Grantor and the Collateral Agent, on behalf of itself and each Secured Party (and each of their respective successors or assigns), hereby agree as follows:

SECTION 1. Grant of Security. Each Grantor hereby assigns and pledges to the Collateral Agent and its successors and permitted assigns for the benefit of the Secured Parties and hereby grants to the Collateral Agent and its successors and permitted assigns for the benefit of the Secured Parties, a security interest in all right, title and interest in or to any and all of the following assets and properties now owned or at any time hereafter acquired by such Grantor or in which such Grantor now has or at any time in the future may acquire any right, title or interest (the "Additional Collateral"):

(a) the patents and patent applications set forth in Schedule A hereto (the "Patents");

(b) the trademark and service mark registrations and applications set forth in Schedule B hereto (except for "intent-to-use" applications for trademark or service mark registrations filed pursuant to Section 1(b) of the Lanham Act, 15 U.S.C. § 1051, unless and until an Amendment to Allege Use or a Statement of Use under Sections 1(c) and 1(d) of the Lanham Act has been filed, to the extent that any assignment of an "intent-to-use" application prior to such filing would violate the Lanham Act), together with the goodwill symbolized thereby (the "Trademarks");

(c) all copyrights, whether registered or unregistered, now owned or hereafter acquired by such Grantor, including, without limitation, the copyright registrations and applications and exclusive copyright licenses set forth in Schedule C hereto (the "Copyrights");

(d) all reissues, divisions, continuations, continuations-in-part, extensions, renewals and reexaminations of any of the foregoing, all rights in the foregoing provided by international treaties or conventions, all rights corresponding thereto throughout the world and all other rights of any kind whatsoever of such Grantor accruing thereunder or pertaining thereto;

(e) any and all claims for damages and injunctive relief for past, present and future infringement, dilution, misappropriation, violation, misuse or breach with respect to any of the foregoing, with the right, but not the obligation, to sue for and collect, or otherwise recover, such damages; and

(f) any and all proceeds of, collateral for, income, royalties and other payments now or hereafter due and payable with respect to, and supporting obligations relating to, any and all of the Additional Collateral of or arising from any of the foregoing.

SECTION 2. Security for Obligations. The grant of a security interest in the Additional Collateral by each Grantor under this IP Security Agreement secures the payment or performance when due (whether at stated maturity, by acceleration or otherwise), as the case may be, in full of such Grantor's Obligations.

SECTION 3. Recordation. Each Grantor authorizes and requests that the United States Register of Copyrights, the United States Commissioner for Patents and the United States Commissioner for Trademarks and any other applicable officer in any successor office or any similar office in any other country record this IP Security Agreement.

SECTION 4. Execution in Counterparts. This IP Security Agreement may be executed in any number of counterparts, each of which when so executed shall be deemed to be an original and all of which taken together shall constitute one and the same agreement.

SECTION 5. Grants, Rights and Remedies. This IP Security Agreement has been entered into in conjunction with the provisions of the Collateral Agreement and the security interest granted by the Grantors herein are in addition to any security interests granted pursuant to the Collateral Agreement prior to the date hereof. Each Grantor does hereby acknowledge and confirm that the grant of the security interest hereunder to, and the rights and remedies of the Collateral Agent with respect to the Additional Collateral are more fully set forth in the Collateral Agreement, the terms and provisions of which are incorporated herein by reference as if fully set forth herein. In the event that any provision of this IP Security Agreement is in conflict with the Collateral Agreement, any Indenture, the Revolving Credit Agreement (as defined in the May 2014 Indenture), the Term Loan Credit Agreement (as defined in the May 2014 Indenture) or the Intercreditor Agreement (as defined in the May 2014 Indenture), the provisions of the Collateral Agreement, the Indentures, the Revolving Credit Agreement, the Term Loan Credit Agreement, or the Intercreditor Agreement, as the case may be, shall govern.

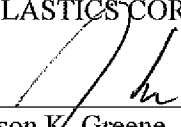

SECTION 6. Governing Law. This IP Security Agreement shall be governed by, and construed in accordance with, the laws of the State of New York.

SECTION 7. Intercreditor Agreements. Notwithstanding anything herein to the contrary, the liens and security interests granted to the Collateral Agent pursuant to this IP Security Agreement are expressly subject to the terms of the Intercreditor Agreement. In the event of any conflict between the terms of any Intercreditor Agreement and the terms of this IP Security Agreement, the terms of the Intercreditor Agreement shall govern. Notwithstanding anything herein to the contrary, (i) the liens and security interests granted to the Collateral Agent pursuant to this agreement are expressly subject and subordinate to the liens and security interests granted to Bank of America, N.A. and Credit Suisse, Cayman Islands Branch, as collateral agents (and their respective permitted successors), for the benefit of the lenders referred to below, pursuant to the Guarantee and Collateral Agreement dated as of April 3, 2007 (as amended, amended and restated, supplemented or otherwise modified from time to time), from the Company and the other "Pledgors" referred to therein, in favor of Bank of America, N.A. and (ii) the exercise of any right or remedy by the Collateral Agent hereunder is subject to the limitations and provisions of the Intercreditor Agreement.
