**TRADEMARK ASSIGNMENT**

**THIS TRADEMARK ASSIGNMENT** (this “Trademark Assignment”) is made, entered into and effective as of this 12<sup>th</sup> day of January, 2015, by **HD SUPPLY DISTRIBUTION SERVICES, LLC**, a Delaware limited liability company (the “Seller”), and **HDS IP HOLDING, LLC**, a Nevada limited liability company (“HDS IP” and together with the Seller, the “Assignors”), in favor of **HOME DEPOT U.S.A., INC.**, a Delaware corporation (the “Assignee”). All capitalized terms used herein and not otherwise defined shall have the meanings ascribed to them in that certain Asset Purchase Agreement, dated as of December 1, 2014 (the “Purchase Agreement”), by and among the Seller, the Assignee, and HD Supply, Inc., a Delaware corporation. Each of the Assignors and the Assignee is sometimes individually referred to in this Agreement as a “Party” and collectively as the “Parties”.

**RECITALS:**

**WHEREAS**, pursuant to the Purchase Agreement, the Seller has agreed to assign, and to cause HDS IP to assign, to the Assignee all of its right, title and interest in, and to execute this Trademark Assignment to enable Assignee to record the assignment of, the trademarks, service marks, or trade names (registered or otherwise), and any related trademark applications that are included in the Assets, subject to the Purchase Agreement, including without limitation the trademarks listed in **Schedule 1** attached hereto and incorporated herein by reference, and any and all common law rights in the foregoing, and all goodwill associated therewith (all of the foregoing being referred to collectively herein as the “Assigned Marks”).

**NOW, THEREFORE**, in consideration of the foregoing and the respective covenants, agreements and conditions set forth herein, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, and intending to be legally bound hereby, each Party hereby agrees as follows:

1. **Assignment.** The Assignors hereby irrevocably convey, transfer and assign to the Assignee, and the Assignee hereby accepts, any and all legal and beneficial right, title and interest of the Assignors in and to the Assigned Marks to hold unto Assignee absolutely and in perpetuity (or for the longest period of time otherwise permitted by law), together with all related common-law rights and all goodwill associated therewith and any and all royalties, fees, income, payments and other proceeds now or hereafter due or payable with respect thereto and all causes of action and rights to sue, seek injunctive relief, and recover (for the sole use and benefit of the Assignee and its successors, assigns or other legal representatives) damages for past, present and future infringement, misappropriation, dilution or other violation thereof or damage thereto. The Assignee is to hold all right, title and interest in and to the Assigned Marks as fully and exclusively as they would have been held and enjoyed by the Assignors had the assignment in this **Section 1** not been made.

2. **Authorization.** The Assignors authorize and request the Commissioner of Patents and Trademarks of the United States and the equivalent office in each state or country in which Assigned Marks are registered to record the Assignee as the assignee and owner of the Assigned Marks and to issue any trademarks which may be granted on any applications included in the Assigned Marks to the Assignee as assignee of the entire right, title and interest therein

and thereto, and Assignors hereby covenant that Assignors have full right to convey Assignors' entire interest herein assigned, and that Assignors have not executed, and will not execute, any agreements in conflict herewith.

3. **Further Assurances.** Each Party shall, from time to time and at all times hereafter, upon the request of the other Party, do, execute, acknowledge and deliver or cause to be done, executed, acknowledged and delivered all such further acts, deeds, assignments, transfers, conveyances, powers of attorney and assurances as may be required to carry out the intent of this Trademark Assignment. Without limiting the foregoing, the Assignors agree, at the expense of the Assignee, to take such further actions and to execute any powers of attorney, applications, assignments, declarations, affidavits and other papers necessary or desirable to transfer, vest, record and perfect good, valid and marketable title in the Assigned Marks to the Assignee.

4. **Entire Agreement.** This Trademark Assignment and the Purchase Agreement (including the other schedules and exhibits to the Purchase Agreement) contain the entire agreement of the parties identified by such Agreements with regard to the subject matter hereof; provided, however, that this provision is not intended to abrogate any other written agreement between the Parties executed with or after this Trademark Assignment. To the extent of any conflict between the terms and conditions of this Trademark Assignment and the Purchase Agreement, the terms and conditions of the Purchase Agreement shall govern. This Trademark Assignment is intended only to effect the transfer and assignment of the Assigned Marks pursuant to the Purchase Agreement, and shall be governed entirely in accordance with the terms and conditions of the Purchase Agreement.

5. **Successors and Assigns.** This Trademark Assignment shall be binding upon each Party and its respective successors and assigns.

6. **Governing Law.** This Trademark Assignment shall be governed by and construed in accordance with the Laws of the State of Georgia, without giving effect to any Law or rule that would cause the Laws of any jurisdiction other than the State of Georgia to be applied.

7. **Counterparts.** This Trademark Assignment may be executed in multiple counterparts, each of which shall for all purposes be deemed to be an original and all of which, when taken together, shall constitute one and the same instrument. Signatures of the Parties transmitted by electronic transmission shall be deemed to be their original signatures for all purposes.
