INTELLECTUAL PROPERTY ASSIGNMENT AND ASSUMPTION AGREEMENT

THIS INTELLECTUAL PROPERTY ASSIGNMENT AND ASSUMPTION AGREEMENT (this "IP Assignment") is made and entered into as of December 23, 2014, between KMC Music, Inc., a Connecticut corporation ("Seller") and Drum Workshop, Inc., a California corporation ("Buyer"). All capitalized terms used herein but not otherwise defined shall have the respective meanings ascribed to them in the Purchase Agreement (as defined below).

WHEREAS, Seller, Buyer and Fender Musical Instruments Corporation, a Delaware corporation have entered into that certain Asset Purchase Agreement, dated as of the date hereof (the "Purchase Agreement"), pursuant to which the Seller has agreed to sell, assign, transfer, convey and deliver to Buyer, and Buyer has agreed to purchase, acquire and accept from Seller, the entire right, title and interest of Seller (both present and future) in, to and under the Transferred Assets; and

WHEREAS, pursuant to the terms of the Purchase Agreement, Seller has conveyed, transferred and assigned to Buyer, among other assets, certain Intellectual Property of Seller, and has agreed to execute and deliver this IP Assignment, for recording with the United States Patent and Trademark Office, the United States Copyright Office and corresponding entities or agencies in any applicable jurisdictions.

NOW, THEREFORE, in consideration of the representations, warranties, covenants and agreements set forth in the Purchase Agreement and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, and intending to be legally bound, Seller and Buyer hereby agree as follows:

1. Assignment. For good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Seller hereby irrevocably conveys, transfers and assigns to Buyer, and Buyer hereby accepts, all of Seller's right, title and interest in and to the following (the "Transferred Intellectual Property"):

(a) the patents and patent applications set forth on Schedule 1 hereto and all issuances, divisions, continuations, continuations-in-part, reissues, extensions, reexaminations and renewals thereof (the "Patents");

(b) the trademark registrations and applications set forth on Schedule 2 hereto and all issuances, extensions and renewals thereof (the "Trademarks"), together with the goodwill of the business connected with the use of, and symbolized by, the Trademarks; *provided that*, with respect to the United States intent-to-use trademark applications set forth on Schedule 2 hereto, the transfer of such applications accompanies, pursuant to the Purchase Agreement, the transfer of the portion of Seller's business to which the trademark pertains, and that business is ongoing and existing;

(c) the copyright registrations, applications for registration and exclusive copyright licenses set forth on Schedule 3 hereto and all issuances, extensions and renewals thereof (the "Copyrights");

(d) all rights of any kind whatsoever of Seller accruing under any of the foregoing provided by applicable law of any jurisdiction, by international treaties and conventions and otherwise throughout the world;

(e) any and all royalties, fees, income, payments and other proceeds relating to the period following Closing now or hereafter due or payable with respect to any and all of the foregoing; and

(f) any and all claims and causes of action, with respect to any of the foregoing, whether accruing before, on and/or after the date hereof, including all rights to and claims for damages, restitution and injunctive and other legal and equitable relief for past, present and future infringement, dilution, misappropriation, violation, misuse, breach or default, with the right but no obligation to sue for such legal and equitable relief and to collect, or otherwise recover, any such damages.

2. Recordation and Further Actions. Seller hereby authorizes the Commissioner for Patents, the Commissioner for Trademarks in the United States Patent and Trademark Office and the Register of Copyrights in the United States Copyright Office and the officials of corresponding entities or agencies in any applicable jurisdictions to record and register this IP Assignment upon request by Buyer. In respect of any affidavits, declarations, oaths, exhibits, assignments, powers of attorney, or other documents, that may be reasonably necessary to effect, evidence or perfect the assignment of the Transferred Intellectual Property to Buyer or any assignee or successor thereto, Seller shall comply with its obligations under the Purchase Agreement (including the obligations set forth in Sections 2.11 and 5.10 thereof).

3. Excluded Liabilities. Buyer does not assume or in any way become liable or responsible for the Excluded Liabilities. Notwithstanding anything to the contrary contained herein: (a) nothing contained in this IP Assignment is intended to provide any rights to either Seller or Buyer beyond those rights expressly provided to Seller or Buyer, as the case may be, in the Purchase Agreement; (b) nothing contained in this IP Assignment is intended to impose any obligations or liabilities on either Seller or Buyer beyond those obligations or liabilities expressly provided to Seller or Buyer, as the case may be, in the Purchase Agreement; and (c) nothing contained in this IP Assignment is intended to limit any of the rights or remedies available to Seller or Buyer, as the case may be, under the Purchase Agreement.

4. No Conflict and Inconsistency; No Merger. The parties, each by its execution of this IP Assignment, hereby acknowledge and agree that the representations, warranties and covenants under the Purchase Agreement shall not be deemed to be merged, enlarged, diminished, modified or altered in any way by this instrument, and in the event of any conflict, the terms of the Purchase Agreement shall prevail.

5. Successors and Assigns. This IP Assignment shall bind and inure to the benefit of Buyer and Seller and their respective successors and permitted assigns.

6. Governing Law. All matters relating to or arising out of this IP Assignment and the transactions contemplated hereby (whether sounding on contract, tort or otherwise) will be governed by and construed in accordance with the internal laws of the State of Delaware without

giving effect to any choice of law or conflict of law provision or rule (whether of the State of Delaware or any other jurisdiction) that would cause the application of the laws of any jurisdiction other than the State of Delaware.

7. No Third Party Beneficiaries. The terms and provisions of this IP Assignment are intended solely for the benefit of the parties hereto and their respective successors and permitted assigns, and it is not the intention of the parties to confer third-party beneficiary rights, and this IP Assignment does not confer any such rights, upon any other Person.

8. Counterparts and Electronic Signature. This IP Assignment may be executed in one or more counterparts, and by the different parties hereto in separate counterparts, each of which when executed shall be deemed to be an original but all of which taken together shall constitute one and the same agreement. Delivery of an executed counterpart of a signature page to this IP Assignment by facsimile or other electronic transmission shall be effective as delivery of a manually executed counterpart to this IP Assignment.
