RECITALS

WHEREAS, Assignor wishes to assign to Assignee, and Assignee wishes to acquire from Assignor, all of the Assignor's rights, title and interest in any and all jurisdictions throughout the world in and to all of the Assignor's intellectual property, including, without limitation, any and all rights that Assignor may own or otherwise have with respect to (a) patents, patent applications and patent disclosures, together with all reissuances, continuations, continuations-in-part, divisionals, revisions, extensions and reexaminations thereof; (b) trademarks, service marks, trade dress, logos, slogans, trade names, domain names, and name and likeness rights, together with all goodwill of the business connected with the use of and symbolized by any of the foregoing, and applications, registrations and renewals in connection therewith and including all common law rights and the benefit of prior use of same; (c) copyrights and copyrightable works of authorship, including but not limited to, photographs, website content, brochures, compilations, marketing materials, software and databases, and applications, registrations and renewals in connection therewith, including the right to revise such works; (d) trade secrets and confidential information (including ideas, research and development, know-how, inventions, formulas, compositions, manufacturing and production processes and techniques, designs, drawings and specifications); (e) copies and tangible embodiments of any of the foregoing in whatever form or medium in Assignor's possession or control; and (f) all other intellectual property created by or for or otherwise owned by Assignor, as well as related treaty rights, and any licenses granted to Assignor with respect to any intellectual property rights, including without limitation, the items described in Schedule A attached hereto (all of the foregoing collectively hereinafter referred to as the "Intellectual Property").

NOW, THEREFORE, for \$10.00 (US) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor hereby sells, assigns, transfers and sets over to Assignee its entire right, title and interest in and to the Intellectual Property for the United States and for all foreign countries, including, without limitation, any registrations and applications therefor, any renewals and extensions of the registrations, all goodwill associated therewith and all other corresponding rights that are or may be secured under the laws and/or treaties of the United States or any foreign country, now or hereafter in effect, for Assignee's own use and enjoyment, and for the use and enjoyment of Assignee's successors, assigns or other legal representatives, at least as fully and entirely as the same would have been held and enjoyed by Assignor if this Assignment had not been made, together with all income, royalties or payments due or payable as of the Effective Date or thereafter, including, without limitation, all claims for damages by reason of past, present or future infringement or other

unauthorized use of the Intellectual Property, with the right to sue for and collect the same in Assignee's own name.

Assignor hereby requests the Commissioner of Patents and Trademarks, the Register of Copyrights and the corresponding entity or agency in any applicable foreign country, to record Assignee as the Assignee and owner of the Intellectual Property.

Assignor represents and warrants that: (i) Assignor is the sole and exclusive owner of the entire rights, title and interest in and to the Intellectual Property (including the corresponding rights set forth in the above), free and clear of any liens, security interests or other encumbrances of any kind; (ii) Assignor has the full right and authority to execute this Assignment and to assign to Assignee the rights assigned herein; and (iii) Assignor has not executed, and will not execute, any agreement or other instrument in conflict herewith. Assignor shall indemnify, defend and hold Assignee harmless from and against any liability, claim or other obligation (including but not limited to any attorneys fees, court costs or other expenses) incurred by or made against Assignee resulting from the breach of any of the foregoing representations and warranties.

Assignor shall take, and shall cause its employees and independent contractors to take, all further reasonable actions, and provide to Assignee, Assignee's successors, assigns or other legal representatives, all such reasonable cooperation and assistance (including, without limitation, the execution and delivery of any and all affidavits, declarations, oaths, samples, exhibits, specimen, assignments, powers of attorney or other documentation), requested by Assignee to more fully and effectively effectuate the purposes of this Assignment, including, without limitations, with respect to the following: (1) the preparation and prosecution of any application for registration, or any application for renewal of a registration, relating to any of the rights assigned herein; (2) the prosecution or defense of any interference, opposition, infringement or other proceedings that may arise in connection with any of the rights assigned herein, including, without limitation, testifying as to any facts relating to the Intellectual Property and this Assignment; (3) obtaining by Assignee any additional protection relating to rights assigned herein that Assignee reasonably may deem appropriate that may be secured under the laws now or hereafter in effect in the United States or any foreign country; and (4) in the implementation or perfection of this Assignment in all applicable jurisdictions throughout the world.

This Assignment shall be governed by and construed in accordance with the domestic laws of the State of Florida without giving effect to any choice or conflict of law provision or rule (whether of the State of Florida or any other jurisdiction) that would cause the application of the laws of any other jurisdiction.
