TRADEMARK ASSIGNMENT

This Trademark Assignment (this "Assignment") is entered into as of March 18, 2015, by Intellibot Robotics, LLC, an Oregon limited liability company ("Assignor"), and Diversey, Inc., a Delaware corporation ("Assignee"), pursuant to that certain Asset Purchase Agreement dated as of March 18, 2015 by and among Assignor, Assignee, Axxon Robotics, LLC, an Oregon limited liability company, and Henry Hillman (the "Purchase Agreement"). Capitalized terms used and not otherwise defined in this Assignment shall have the meanings given to them in the Purchase Agreement.

The Purchase Agreement provides, among other things, for the sale by Assignor to Assignee of the Assets, including the Trademarks. This Assignment is made and delivered in accordance with the Purchase Agreement to assure the transfer by Assignor to Assignee of the Trademarks, including, without limitation, the registered trademarks and pending trademark applications listed on the attached Exhibit A for the United States and attached Exhibit B for Australia, Canada, European Union, New Zealand and Singapore (collectively, the "Acquired Trademarks") without derogating in any way from any separate instruments of transfer that may be delivered by Assignor to Assignee concerning any of the Assets.

Pursuant to the Purchase Agreement, and for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor hereby sells, transfers, conveys, assigns and delivers to Assignee, and Assignee's successors and assigns, all of Assignor's worldwide rights, title and interest in, to and under the Acquired Trademarks, together with their common law rights, goodwill and the business associated with the Acquired Trademarks, and registrations thereof and any and all renewals and extensions thereof that may hereafter be secured under the laws now or hereafter in effect in the United States and in any other jurisdiction (including, without limitation, all proceeds thereof and the rights to sue for past, present and future infringements and damages), the same to be held and enjoyed by Assignee, for its own use and on behalf of its successors and assigns, as fully and entirely as the same would have been held and enjoyed by Assignor had this Assignment not been made.

Assignor agrees to execute and deliver to Assignee (at Assignee's sole expense), promptly upon request, any additional documents and perform such additional acts that Assignee may determine are necessary or desirable to record or perfect Assignee's interest in, ownership of or title to the Acquired Trademarks, to clear any encumbrances on the Acquired Trademarks or otherwise give full effect to the purposes of this Assignment.

Assignor authorizes and requests any official in the countries or registering organizations listed on the attached Exhibits A and B whose duty it is to register and record ownership in trademark registrations and applications for registration of trademarks, to record Assignee as the assignee and owner of any and all of Assignor's right, title and interest in and to the Acquired Trademarks.

This Assignment is intended to evidence and effect the transfer by Assignor to Assignee of the Acquired Trademarks. This Assignment is made without representation and warranty except as provided in or pursuant to the Purchase Agreement. This Assignment is in all respects subject to the provisions of the Purchase Agreement and is not intended in any way to

supersede, limit or qualify any provision of the Purchase Agreement. In the event of any conflict or inconsistency between the Purchase Agreement and this Assignment, the Purchase Agreement shall control.

Except to the extent that federal law preempts state law with respect to the matters covered hereby, this Assignment shall be governed by and construed in accordance with the laws of the State of New York, without giving effect to any choice or conflicts of laws, provisions or rules that would cause the application of laws of any jurisdiction other than the State of New York.

This Assignment may be executed in counterparts, all of which shall be considered one and the same agreement and shall become effective when one or more counterparts have been signed by and delivered to the other party. Delivery of an executed counterpart of this Assignment by facsimile or electronic transmission shall be effective to the fullest extent permitted by applicable Law.
