This INTELLECTUAL PROPERTY SECURITY AGREEMENT (as it may be amended, restated, amended and restated, supplemented or otherwise modified from time to time, this “*IP Security Agreement*”) dated as of April 30, 2015, made by the Person listed on the signature pages hereof (the “*Grantor*”) to U.S. Bank National Association, not in its individual capacity, but solely in its capacity as collateral agent under the Indenture (in such *capacity*, together with any successor Second Lien Collateral Agent appointed pursuant to Section 11.07 of the Indenture (as hereinafter defined) and assigns, the “*Second Lien Collateral Agent*”) for the Secured Parties (as defined in the Security Agreement referred to below).

WHEREAS, Exide Technologies, a Delaware corporation, has entered into an Indenture dated as of April 30, 2015 (as it may be amended, restated, amended and restated, supplemented or otherwise modified from time to time, the “*Indenture*”), with U.S. Bank National Association, as trustee and as Second Lien Collateral Agent.

WHEREAS, as a condition precedent to the issuance of the Notes by the Holders under the Indenture, the Grantor has executed and delivered that certain Second Lien Security Agreement dated as of April 30, 2015, made by the Grantor to the Second Lien Collateral Agent (as it may be amended, restated, amended and restated, supplemented or otherwise modified from time to time, the “*Security Agreement*”). Terms defined in the Security Agreement and not otherwise defined herein are used herein as defined in the Security Agreement; and

WHEREAS, under the terms of the Security Agreement, the Grantor has granted to the Second Lien Collateral Agent, for the benefit of the Secured Parties, a continuing security interest in all of the Grantor’s right, title and interest in and to, among other property, certain intellectual property of the Grantor, and has agreed to execute this IP Security Agreement for recording with the United States Copyright Office, the United States Patent and Trademark Office and certain other Governmental Authorities in accordance with the Security Agreement.

NOW, THEREFORE, for and in consideration of the recitals above and other good and valuable consideration, the receipt, sufficiency and adequacy of which are hereby acknowledged, the Grantor agrees as follows:

SECTION 1. Grant of Security. The Grantor hereby grants to the Second Lien Collateral Agent, for the benefit of the Secured Parties, a continuing security interest in all of the Grantor’s right, title and interest in and to the following, in each case, as to each type of property described below, whether now owned or thereafter acquired by the Grantor, wherever located and whether now or hereafter existing or arising (the “*Collateral*”):

- (i) all patents, patent applications, utility models and statutory invention registrations, all inventions claimed or disclosed therein and all improvements thereto together with all patentable inventions and other patent rights, including the patents and patent applications set forth in Schedule A hereto (the “*Patents*”);

(ii) all trademarks, service marks, uniform resource locators, domain names, trade dress, logos, designs, slogans, trade names, brand names, social media identifiers and accounts, business names, corporate names and other source identifiers, whether registered or unregistered, together, including the trademark and service mark registrations and applications set forth in Schedule B hereto (provided, that, no security interest shall be granted in United States intent-to-use trademark applications to the extent that, and solely during the period in which, the grant of a security interest therein would impair the validity or enforceability of such intent-to-use trademark applications under applicable federal law), together, in each case, with the goodwill symbolized thereby (the “**Trademarks**”);

(iii) all copyrights, including copyrights in computer software and all source code, object code, specifications, designs and documentation related thereto, internet web sites and the content thereof, whether registered or unregistered, including the copyright registrations and applications and exclusive copyright licenses set forth in Schedule C hereto (the “**Copyrights**”);

(iv) all registrations and applications for registration for any of the foregoing (other than, for the avoidance of doubt, any United States trademark or service mark applications filed on the basis of the Grantor’s intent to use such trademark or service mark, unless and until evidence of the use of such trademark or service mark in interstate commerce is submitted to, and accepted by, the US Patent and Trademark Office) and all tangible embodiments thereof, together with all reissues, divisions, continuations, continuations-in-part, extensions, renewals and reexaminations thereof;

(v) any and all claims for damages and injunctive relief for past, present and future infringement, dilution, misappropriation, violation, misuse or breach with respect to any of the foregoing, with the right, but not the obligation, to sue for and collect, or otherwise recover, such damages; and

(vi) all proceeds of, collateral for, income, royalties and other payments now or hereafter due and payable with respect to, and supporting obligations relating to, any and all of the foregoing and all proceeds of any such proceeds;

provided that, notwithstanding any of the other provisions set forth in this Section 1 or in any other Second Lien Document, no Excluded Assets shall constitute Collateral under this IP Security Agreement and the security interest granted to the Second Lien Collateral Agent pursuant to this IP Security Agreement shall not attach to any Excluded Assets. Without limiting the generality of the foregoing, this IP Security Agreement and the security interest created hereby secure, as to the Grantor, the payment of all amounts that constitute part of the Secured Obligations and would be owed by the Grantor or by any Subsidiary of the Company, as applicable, to any Secured Party under the Second Lien Documents but for the fact that they are unenforceable or not allowable due to the existence of a bankruptcy, reorganization or similar proceeding involving the Grantor and other

Subsidiaries of the Company. Notwithstanding anything to the contrary contained in this IP Security Agreement or any other Second Lien Document, “Secured Obligations” shall not include any Excluded Swap Obligations.

In the event of a conflict between the terms of the Security Agreement and this IP Security Agreement, the terms of the Security Agreement shall govern and control.

SECTION 6. Governing Law. This IP Security Agreement shall be governed by, and construed in accordance with, the law of the State of New York, excluding its choice of laws rules (other than Section 5-1401 of the New York General Obligations Law).

SECTION 7. Intercreditor Agreement.
