Partial Assignment of Trademark License Agreement

This Partial Assignment of Trademark License Agreement (this "Assignment") is made effective September 30, 2008, by Weatherford Artificial Lift Systems, Inc., a Delaware corporation ("WALS"), in favor of Cameron International Corporation, a Delaware corporation ("CAM").

Whereas, WALS is the Licensee of certain trademark rights under the Trademark License Agreement (the "License"), dated effective as of the 2nd day of August, 2001, by and between Halliburton Energy Services, Inc. ("HESI") and WALS, a copy of which is attached to this Assignment;

Whereas, WALS desires to assign to CAM, and CAM desires to assume from WALS, WALS' trademark rights under the License related to the "Guiberson" name, but not those related to the [redacted] name;

Whereas, Section 10.3 of the License enables WALS to assign freely any of its rights or delegate any of its duties under the License;

Now therefore, in consideration of the mutual terms and conditions contained herein and for other good and valuable consideration, the sufficiency of which is hereby acknowledged, the parties agree as follows:

WALS hereby assigns to CAM all of WALS' right, title and interest in and to the License with respect to the "Guiberson and Design" marks identified in the second and third paragraphs of Exhibit A to the License (the "Guiberson Marks"), including all rights to enforce the License against HESI with respect to the Guiberson Marks and all goodwill associated therewith.

CAM hereby assumes all of WALS' duties and obligations arising from and after the date of this Assignment under the License with respect to the Guiberson Marks.

WALS hereby covenants that it will not use any of the Guiberson Marks after the date hereof (or any mark confusingly similar to the Guiberson Marks).

No right, title, interest, duties or obligations with respect to the marks identified in the first paragraph of Exhibit A to the License [redacted] are assigned or assumed hereunder.

From and after the date hereof, the License shall be deemed two licenses, one with CAM being the Licensee, the Annex A of which includes the Guiberson Marks, and the other with WALS being the Licensee, the Annex A of which includes the [redacted].

The terms and conditions of this Assignment shall be governed and construed in accordance with the laws of the State of Texas.
