## ASSIGNMENT OF INTELLECTUAL PROPERTY

THIS ASSIGNMENT OF INTELLECTUAL PROPERTY is entered into as of this 3rd day of October, 2014 (this "Assignment"), by and between Easom Automation Systems, Inc., a Michigan corporation ("Assignor"), and Tiger Acquisition Sub Inc., a Delaware corporation ("Assignee").

### RECITALS:

**WHEREAS**, Assignor and Assignee, among others, have entered into that certain Asset Purchase Agreement, dated as of the date hereof (as may be amended, modified or supplemented from time to time in accordance with the terms thereof, the "Purchase Agreement"). Capitalized terms used herein and not expressly defined herein shall have the meanings ascribed to such terms in the Purchase Agreement;

**WHEREAS**, the Purchase Agreement provides, subject to the terms and conditions set forth therein, for the sale, transfer, conveyance, assignment and delivery by Assignor to Assignee of all of Assignor's right, title and interest in the Purchased Assets, including the Owned Intellectual Property; and

**WHEREAS**, Assignor desires to assign to Assignee, and Assignee desires to accept from Assignor, all of Assignor's right, title and interest in and to the Owned Intellectual Property, together with the goodwill symbolized by the trademarks and service marks included therewith.

**NOW, THEREFORE**, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Assignor and Assignee hereby agree as follows:

1. **Intellectual Property Assignment**. Effective as of the Closing, Assignor hereby sells, assigns, conveys, grants and transfers unto Assignee the following:

(a) Assignor's entire right, title and interest in and to the Owned Intellectual Property, including, without limitation, (i) the patents, patent applications, trademarks, service marks, trademark applications, service mark applications, copyrights, copyright applications, trade names and domain names set forth on Exhibit A attached hereto, (ii) the goodwill of the Business carried on in connection with the trademarks and service marks set forth on Exhibit A attached hereto and (iii) all Software owned by Assignor (in source code and object code form) and collections of data, whether embodied in firmware, software or otherwise, as well as pertinent documentation, designs, files, records and data;

(b) All claims, demands and rights of action, both statutory and based upon common law, that Assignor has or might have by reason of any infringement of any Owned Intellectual Property prior to, on or after the date of this Assignment, together with the right to prosecute such claims, demands and rights of action in Assignee's own name;

(c) All of Assignor's right, title and interest in and to all income, royalties, damages and payments now or hereafter due and/or payable under and with respect to any of the Owned Intellectual Property, including, without limitation, the right to recover for past, present or future infringements by others of the Owned Intellectual Property; and

(d) All rights corresponding to the Owned Intellectual Property throughout the world, as fully and entirely as the same would have been held and enjoyed by Assignor had this Assignment not been made.

2. **Further Assurance.** Assignor agrees that it shall do, execute, acknowledge and deliver, all acts, agreements, documents, instruments, notices and assurances as may be reasonably requested by Assignee to further effect and evidence the transactions contemplated hereby. Assignor will at any time upon request and without further consideration, make all rightful oaths, and do all lawful acts required for procuring and enforcing the Owned Intellectual Property.

3. **Enforceability.** If any provision of this Assignment shall be invalid or unenforceable, in whole or in part, or as applied to any circumstance, under the laws of any jurisdiction which may govern for such purpose, then such provision shall be deemed to be modified or restricted to the extent and in the manner necessary to render the same valid and enforceable, either generally or as applied to such circumstance, or shall be deemed excised from this Assignment, as the case may require, and this Assignment shall be construed and enforced to the maximum extent permitted by law as if such provision had been originally incorporated herein as so modified or restricted, or as if such provision had not been originally incorporated herein, as the case may be.

4. **Amendment.** This Assignment may be amended or supplemented only by an instrument in writing signed by Assignor and Assignee.

5. **No Third-Party Beneficiaries.** Nothing in this Assignment shall confer any rights upon any Person other than Assignor and Assignee and each such party's respective successors and permitted assigns.

6. **Counterparts.** This Assignment may be executed in counterparts, each of which shall be deemed an original, but which together shall constitute one and the same agreement.

7. **Successors and Assigns.** This Assignment shall be binding upon and inure to the benefit of the parties hereto and their respective successors and permitted assigns.

8. **Governing Law.** This Assignment shall be governed by and construed and enforced in accordance with the laws of the State of Delaware, without giving effect to any choice of law or conflict of law provision thereof that would cause the application of the laws of any jurisdiction other than those of the State of Delaware.

9. **Purchase Agreement Governs.** Notwithstanding anything contained in this Assignment to the contrary, the terms and provisions of the Purchase Agreement shall control the

extent of the sale and assignment made pursuant to this Assignment. The rights and obligations of the parties to the Purchase Agreement set forth in the representations, warranties, covenants, indemnities, agreements and other terms and provisions of the Purchase Agreement shall be neither limited, altered or impaired nor enhanced or enlarged hereby or by performance hereunder.
