INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT

This INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT ("IP Assignment"), dated as of June 3, 2015, is made by Stellar Materials Incorporated ("Assignor"), a Michigan corporation, in favor of Stellar Materials, LLC ("Assignee"), a Delaware limited liability company.

WHEREAS, Assignor has conveyed, transferred and assigned to Assignee, among other assets, certain intellectual property of Assignor, and has agreed to execute and deliver this IP Assignment, for recording with governmental authorities including, but not limited to, the U.S. Patent and Trademark Office and the U.S. Copyright Office.

NOW THEREFORE, Assignor agrees as follows:

1. Assignment. For good and valuable consideration, the receipt and sufficiency are hereby acknowledged, Assignor hereby irrevocably conveys, transfers and assigns to Assignee, and Assignee hereby accepts, all of Assignor's right, title and interest in and to the following (the "Assigned IP"):

(a) the patents and patent applications set forth in Schedule 1 hereto and all related patents and patent applications in all countries, including all issuances, divisions, continuations, continuations-in-part, provisionals, reissues, extensions, reexaminations and renewals thereof (the "Patents");

(b) the trademark registrations and trademark applications set forth on Schedule 2 hereto (the "Trademarks") and any service marks and trade dress trade names, logos, slogans and other indicia of origin, and the goodwill associated therewith;

(c) the copyright registrations, applications for registration and exclusive copyright licenses set forth in Schedule 3 hereto and all issuances, extensions and renewals thereof (the "Copyrights");

(d) the internet domain name registrations including all sub-domain names and extensions thereof and set forth on Schedule 4 hereto (the "Domain Names");

(e) all trade secrets, know-how and all similar propriety rights;

(f) all software, software code (in any form including source code, executable code and object code), subroutines, techniques and user interfaces;

(g) all rights of any kind whatsoever of Assignor accruing under any of the foregoing provided by applicable law of any jurisdiction, by international treaties and conventions and otherwise throughout the world;

(h) all registrations, renewals, extensions, combinations, divisions or reissues of, and applications for, any rights referred to or in any and all of the foregoing;

(i) any and all royalties, fees, income, payments and other proceeds now or hereafter due or payable with respect to any and all of the foregoing; and

(j) any and all copies and tangible embodiments thereof in whatever form or medium, and all rights to sue and recover damages for past, present and future infringement, dilution, misappropriation, violation, unlawful imitation or breach thereof.

2. Domain Names. Assignor does hereby instruct, authorize, and direct any and all registrars thereof to transfer the Domain Names to an account as directed by the Assignor. Assignor agrees to cooperate with Assignee and to follow Assignee's reasonable instructions in order to effectuate the transfer of the Domain Name registrations in a timely manner, and Assignor or Assignee is hereby expressly permitted and authorized to provide a copy of this Assignment to any such registrar as necessary to accomplish such transfer. Assignor further agrees that within five (5) business days after the parties execute this IP Assignment, Assignor shall commence transfer of ownership of the Domain Names to Assignee in accordance with the on-line procedures provided by the registrar of the Domain Names. Assignee shall cooperate with Assignor and provide information as necessary to Assignor to complete the ownership transfer. Assignor shall provide written acknowledgement confirming completion of the transfer of ownership to Assignee of such Domain Names within ten (10) days of the date of this IP Assignment.

3. Recordation and Further Actions. Assignor hereby authorizes the Commissioner for Patents and Trademarks and, if applicable, the Register of Copyrights and any other governmental officials of any country or countries foreign to the United States, to record and register this IP Assignment upon request by Assignee, its successors, assigns and legal representatives, or to such nominees as it may designate. Assignor shall take such steps and actions following the date hereof, including the execution of any documents, files, registrations, or other similar items, to ensure that the Assigned IP is properly assigned to Assignee, or any assignee or successor thereto.

4. Assignor Covenant. Assignor hereby covenants that no assignment, sale, agreement or encumbrance has been or will be made or entered into which would conflict with this IP Assignment.

5. Counterparts. This IP Assignment may be executed in counterparts, each of which shall be deemed an original, but all of which together shall be deemed to be one and the

same agreement. A signed copy of this IP Assignment delivered by facsimile, e-mail or other means of electronic transmission shall be deemed to have the same legal effect as delivery of an original signed copy of this IP Assignment.

6. Successors and Assigns. This IP Assignment shall be binding upon and shall inure to the benefit of the parties hereto and their respective successors and assigns.

7. Governing Law. This IP Assignment and any claim, controversy, dispute or cause of action (whether in contract, tort or otherwise) based upon, arising out of or relating to this IP Assignment and the transactions contemplated hereby shall be governed by, and construed in accordance with, the laws of the United States and the State of Delaware, without giving effect to any choice or conflict of law provision or rule (whether of the State of Delaware or any other jurisdiction).

7. Submission to Jurisdiction. Any legal suit, action or proceeding arising out of or based upon this IP Assignment or the transactions contemplated hereby may be instituted in the federal courts of the United States of America or the courts of the State of Delaware, and each party irrevocably submits to the exclusive jurisdiction of such courts in any such suit, action or proceeding. In the event there is any legal suit, action or proceeding arising out of or based upon this IP Assignment or the transactions contemplated hereby, then the prevailing party in such legal suit, action or proceeding (including any appellate proceeding) shall be entitled to recover its costs and reasonable attorney fees from the non-prevailing party

[SIGNATURE PAGE FOLLOWS]

IN WITNESS WHEREOF, Assignor and Assignee have duly executed and delivered this IP Assignment as of the date first above written.
