TRADEMARK ASSIGNMENT

THIS TRADEMARK ASSIGNMENT (this "Trademark Assignment") is made and entered into as of August 19, 2015 by and between Imperium Aviation Fuels, LLC, a Washington limited liability company ("Assignor") and Renewable Energy Group, Inc., a Delaware corporation ("Assignee") having an address of 416 S. Bell Avenue, Ames, Iowa 50010, U.S.A. Each of Assignor and Assignee are referred to herein sometimes as a "Party" and together as the "Parties." All defined terms not otherwise defined herein shall have the meanings ascribed to such terms in the Asset Purchase Agreement, dated as of July 31, 2015, by and among Assignor (as a Remaining Subsidiary), Assignee, Imperium Renewables, Inc. ("Parent"), REG Acquisition Holdco, LLC and the Remaining Subsidiaries (as therein defined) (the "Purchase Agreement").

WHEREAS, Assignor and Assignee are parties to the Purchase Agreement, pursuant to which, among other things, Parent has agreed to cause Assignor, and Assignor has agreed to assign to Assignee, any and all trademarks and the goodwill associated therewith in every country (the "Assigned Trademarks").

In consideration of the foregoing and the mutual covenants and agreements contained herein and in the Purchase Agreement, and intending to be legally bound hereby, the parties agree as follows:

1. Assigned Trademarks. A list of the Assigned Trademarks is set forth on Schedule A attached hereto and incorporated herein by reference.

2. Assignment. For USD \$10.00 and other good and valuable consideration, the receipt and adequacy of which are hereby acknowledged, Assignor hereby irrevocably sells, assigns, transfers, conveys and delivers to Assignee, its successors, assigns, and legal representatives, all of Assignor's right, title and interest in and to the Assigned Trademarks, together with the goodwill of the business symbolized by the Assigned Trademarks, and any applications and/or registrations therefor, including the right (but not the obligation) to prosecute and maintain any of the Assigned Trademarks and to collect for all past, present and future infringements, and the right to sue and recover damages for past, present and future infringement or other violation or impairment of any of the Assigned Trademarks, including, without limitation, license royalties, and proceeds of infringement suits, and all rights corresponding thereto throughout the world by reason of any past and future acts of infringement that have occurred or may occur, the same to be held and enjoyed by the Assignee, for its own use and profit, and for its successors, legal representatives, and assigns, to the full end of the term or terms for which such Assigned Trademarks may be granted as fully and entirely as the same would have been held and enjoyed by the Assignor had this Trademark Assignment not been made.

3. Further Assurances. Assignor will, without demanding any additional transaction consideration, at the request and expense of the Assignee (except for the value of the time of the Assignors employees) use its commercially reasonable efforts to do all lawful acts that are reasonably necessary for recording, evidencing, and otherwise perfecting the transfer of ownership of the Assigned Trademarks to Assignee contemplated herein, including

providing, upon Assignees request, all pertinent facts and documents relating to the Assigned Trademarks as may be known and accessible to Assignor and testifying as to the same in any interference, opposition, litigation or proceeding related thereto and promptly executing and delivering to Assignee or its legal representatives any and all papers, instruments or affidavits reasonably required to apply for, obtain, maintain, issue and enforce the Assigned Trademarks or equivalents thereof which may be reasonably necessary to carry out the purposes thereof.

4. Representations. Assignor represents and warrants to Assignee, and further covenants and agrees that Assignor (a) has the full right to convey the interests sold, assigned and transferred by this Trademark Assignment, and (b) Assignor has not executed and will not execute any writing or do any act whatsoever in conflict with the rights and interests assigned herein. The foregoing shall not be deemed to modify or limit any representations or warranties with respect to the Assigned Trademarks provided in the Purchase Agreement.

5. Successors and Assigns. This Trademark Assignment will apply to, be binding in all respects upon and inure to the benefit of the successors and permitted assigns of the parties.

6. Severability. If any provision of this Trademark Assignment is held invalid or unenforceable by any court of competent jurisdiction, the other provisions of this Trademark Assignment will remain in full force and effect. Any provision of this Trademark Assignment held invalid or unenforceable only in part or degree will remain in full force and effect to the extent not held invalid or unenforceable.

7. Governing Law. This Trademark Assignment shall be governed by, and construed in accordance with, the laws of the State of Delaware, regardless of the laws that might otherwise govern under applicable principles of choice or conflicts of law thereof.

8. Counterparts. This Trademark Assignment may be executed in several counterparts, each of which shall be deemed an original and all of which shall constitute one and the same instrument, and shall become effective when counterparts have been signed by each of the parties and delivered to the other parties; it being understood that all parties need not sign the same counterparts.
