INTELLECTUAL PROPERTY ASSIGNMENT

This Intellectual Property Assignment (this “**IP Assignment**”), dated as of November 3, 2015, is entered into by and between Spectrum Diversified Designs, Inc., an Ohio corporation (“**Spectrum**”), and Spectrum Diversified Designs, LLC, a Delaware limited liability company (“**OpCo**”).

BACKGROUND:

- A. Reference is made to that certain Contribution Agreement, dated as of the date hereof, by and among Spectrum, SDD Holdings, LLC, a Delaware limited liability company (“**Holdings**”), and OpCo (the “**Contribution Agreement**”), pursuant to which Spectrum has agreed to contribute substantially all of its assets and liabilities to Holdings, and Holdings has agreed to contribute those same assets and liabilities to OpCo.
- B. In order to avoid the inconvenience and expense of two successive transfers of operating assets, at the Closing and concurrently with the consummation of the transactions contemplated by this IP Assignment, Spectrum is contributing, conveying, assigning, transferring and delivering directly to OpCo, and OpCo is acquiring and accepting directly from Spectrum, all of Spectrum’s right, title and interest in and to the Contributed Assets, including the Business IP.
- C. The Contribution Agreement contemplates that, as part of the transactions contemplated thereby, Spectrum and OpCo will enter into this IP Assignment at the Closing for the purposes set forth herein.

AGREEMENT:

In consideration of the foregoing premises, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Spectrum and OpCo hereby agree as follows:

1. Defined Terms. Capitalized terms used but not defined herein will have the respective meanings assigned to such terms in the Contribution Agreement.

2. Assignment. Spectrum hereby contributes, assigns, transfers, conveys and delivers to OpCo, and OpCo hereby acquires and accepts from Spectrum, all of Spectrum’s rights under, title to and interest in and to the Business IP, including the following, free of all Encumbrances:

(a) the trademarks, trademark registrations and trademark applications listed in **Exhibit A** and all issuances, extensions and renewals thereof (the “**Assigned Marks**”);

(b) the patents listed in **Exhibit B** and all continuations, continuations-in-part, divisionals, extensions, substitutions, reissues, re-examinations and renewals of any of the foregoing, and any patents or patent applications from which any of them claim priority or that claim priority from any of them, and all inventions disclosed and claimed in any of the foregoing (the “**Assigned Patents**”);

(c) the copyrights and copyright registrations, applications for registration and exclusive copyright licenses listed in **Exhibit C** and all issuances, extensions and renewals thereof (the “**Assigned Copyrights**”);

(d) all goodwill connected with the use of, and symbolized by, the Assigned Marks, the Assigned Patents and the Assigned Copyrights;

(e) all rights to enforce, and bring actions for all past, present and future infringement or violation of any of the Assigned Marks, the Assigned Patents or the Assigned Copyrights, seek damages, costs, profits, injunctive relief and other legal and equitable remedies on account thereof, and to settle, and collect and retain the proceeds therefrom;

(f) all rights to collect royalties and other payments under or on account of any of the Assigned Marks, the Assigned Patents or the Assigned Copyrights;

(g) all rights to apply for, file, register, maintain, extend or renew same, and seek protection therefor, with full benefit of such priority as may now or hereafter be granted to Spectrum by applicable Law; and

(h) all other rights with respect thereto.

3. Recordation. Spectrum authorizes the Commissioner for Trademarks and the Commissioner for Patents of the USPTO and any other government officials to record and register this IP Assignment upon request by OpCo.

4. Further Assurances. At any time or from time to time hereafter, Spectrum will, at the reasonable request of OpCo, take all additional action as may be necessary to put OpCo in operating control of the Contributed Assets, and will execute, acknowledge and deliver such additional instruments of conveyance, power of attorney, sale, assignment or transfer or conveyance, and each party will take such additional actions as the other party may reasonably request in order to more effectively consummate the transactions contemplated by this IP Assignment.

5. Matters Not Completed at Closing. To the extent there are any steps, documents or actions called for by this IP Assignment that cannot be completed by the Closing, the parties will use their commercially reasonable efforts to complete them promptly after the Closing, applying, insofar as practicable, the principles of Section 1.6(a) of the Contribution Agreement.

6. Effect of Agreement. This IP Assignment is intended to evidence the consummation of the transactions contemplated by the Contribution Agreement and is subject to the terms and conditions set forth in the Contribution Agreement. This IP Assignment is made without representation or warranty, except as provided in the Contribution Agreement. Nothing contained in this IP Assignment will be construed to supersede, limit or qualify any provision of the Contribution Agreement. To the extent there is a conflict between the terms and provisions of this IP Assignment and the terms and provisions of the Contribution Agreement, the terms and provisions of the Contribution Agreement will govern.

7. Counterparts. The parties may execute this IP Assignment in multiple counterparts, each of which will be deemed an original, but all of which taken together will constitute the same instrument. The parties authorize one another to detach and combine original signature pages and consolidate them into a single identical original, and any such executed counterparts will be sufficient proof of this IP Assignment. Any photographic, photocopy or similar reproduction copy of this IP Assignment, or any PDF file of this IP Assignment, or any copy of this IP Assignment sent by facsimile transmission, in each case with all signatures reproduced on one or more sets of signature pages, will be considered for all purposes as if it were a manually-executed counterpart of this IP Assignment.

8. Amendment. This IP Assignment may not be amended or modified except by an instrument in writing signed by each of Spectrum and OpCo.

9. Governing Law. The internal laws of the State of Delaware (without reference to its rules on conflict of laws) will govern the interpretation and enforcement of this IP Assignment.

10. Assignment; Successors and Assigns. Spectrum may not assign any of its rights under this IP Assignment without OpCo's prior written consent. OpCo can assign any of its rights under this IP Assignment without Spectrum's prior consent. Subject to the foregoing, this IP Assignment will apply to, be binding on, and inure to the benefit of the parties and the parties' respective successors and permitted assigns.
