INTELLECTUAL PROPERTY ASSIGNMENT¹

This INTELLECTUAL PROPERTY ASSIGNMENT ("Assignment") dated as of the 31st day of May, 2015 (the "Effective Date") by and between 4549009, Inc. (f.k.a. Beck/Arnley Worldparts, Inc.), a Delaware corporation, ("Assignor"), and IEH Auto Parts LLC, a Delaware limited liability company ("Assignee").

WITNESSETH:

WHEREAS Assignor and Assignee have entered into an Asset Purchase Agreement, executed February 9, 2015 (hereinafter the "APA"), pursuant to which Assignor has agreed to sell, and Assignee has agreed to purchase, certain Purchased Assets, including, without limitation, the registered trademark identified and set forth on Schedule A attached hereto (the "Assigned Intellectual Property");

WHEREAS, pursuant to the APA, Assignor has agreed to assign to Assignee, and Assignee wishes to acquire from Assignor, all right, title and interest in and to the Assigned Intellectual Property, among other assets; and

WHEREAS, Assignor has agreed to execute and deliver this Assignment, for recording with national, federal and state government authorities including, but not limited to, the United States Patent and Trademark Office.

NOW, THEREFORE, in consideration of the foregoing and the mutual promises and agreements contained in this Assignment and in the APA, and for other good and valuable consideration the receipt and sufficiency of which are hereby acknowledged, the parties hereby agree as follows:

1. **Assignment.** Pursuant to and subject to the terms and conditions of the APA, Assignor hereby assigns to Assignee, and Assignee hereby accepts, all right, title, and interest in and to the Assigned Intellectual Property (but excluding any rights in any trademarks contained in the copyright materials that are not separately being assigned under this Assignment or the APA), for Assignee's own use and enjoyment, and for the use and enjoyment of Assignee's successors and assigns, as fully and entirely as the same would have been held and enjoyed by Assignor if this Assignment had not been made, including (A) the goodwill of the business connected with the use of, and symbolized by, the Assigned Intellectual Property; (B) the right, if any, to all registrations, restorations, reversions, issuances, extensions and renewals thereof, provided that, only with respect to United States intent-to-use trademark applications, the transfer of such applications shall not be effective until the expiration of any period during which the assignment thereof would impair, under applicable federal law, the registrability of such applications or the validity or enforceability of registrations issuing from such applications; (C) the right to prosecute, maintain and defend the Assigned Intellectual Property before any public or private agency, office or registrar; (D) the right, if any, to claim priority based on the filing dates of any of the Assigned Intellectual Property under the Protocol Relating to the Madrid Agreement Concerning the International Registration of Marks, International Convention for the Protection of Industrial Property, the Patent Cooperation Treaty, the European Patent Convention, the Paris Convention, and all other treaties of like purposes; (E) the right to sue and recover damages or other compensation for past, present or future infringements thereof, the right to sue and obtain equitable relief, including injunctive relief, in respect of such infringements, and the right to fully and entirely stand in the place of the Assignor in all matters related thereto; (F) any and all royalties, fees, income, payments and other proceeds now or hereafter due or payable with respect to any and all of the foregoing; (G) all rights of any kind whatsoever of Assignor accruing under any of the foregoing provided by any applicable law; and (H) any and all claims

¹ This Assignment may be amended to incorporate changes required for filing, recordation, use, enforcement or exploitation in the relevant jurisdiction or otherwise, including due to the identity of the ultimate Assignor, so that the Assignee obtains the full benefit of this Assignment and the Assigned Intellectual Property.

and causes of action with respect to any of the foregoing, whether accruing before, on or after the date hereof, including all rights to and claims for damages, restitution and injunctive and other legal and equitable relief for past, present and future infringement, dilution, misappropriation, violation, misuse, breach or default, with the right but no obligation to sue for such legal and equitable relief and to collect, or otherwise recover, any such damages.

2. **Cooperation.** Assignor shall use reasonable efforts to take actions and execute and deliver documents that Assignee may reasonably request to effect the terms of this Assignment and to perfect Assignee's title in and to the Assigned Intellectual Property assigned to it hereunder.

3. **Recordation.** The Assignor hereby authorizes the Commissioner of the United States Patent and Trademark Office to record Assignee as the assignee and owner of the Assigned Intellectual Property and to deliver to Assignee, and to Assignee's attorneys, agents, successors or assigns, all official documents and communications as may be warranted by this Assignment.

4. **Governing Law.** This Assignment shall be governed by the governing law and venue provisions of Section 1.10 of the APA.

6. **General Provisions.** This Assignment is intended to effect the assignment of the Assigned Intellectual Property to Assignee as further described in the APA. To the extent of any conflict or inconsistency between the terms and conditions of this Assignment and the APA, the APA shall prevail and govern the rights and obligations of the parties hereto and the scope of assignment of the Assigned Intellectual Property. This Assignment may be executed in any number of counterparts, each of which shall be deemed to be an original, and all of which together shall constitute one and the same instrument. Delivery of an executed counterpart of a signature page to this Assignment by facsimile or electronic mail shall be as effective as delivery of a manually executed counterpart of this Assignment. This Assignment, along with its Schedule, the Intellectual Property Assignment (along with its Schedule) assigning additional intellectual property pursuant to the ASA, and the APA and its Schedules and Exhibits, constitutes the entire understanding and agreement of the parties hereto with respect to the subject matter hereof and supersedes all prior and contemporaneous agreements or understandings, inducements or conditions, express or implied, written or oral, between and among the parties with respect hereto. This Assignment may not be supplemented, altered, or modified in any manner except as provided otherwise herein or by a writing signed by all parties hereto. The failure of any party to enforce any terms or provisions of this Assignment shall not waive any of its rights under such terms or provisions. This Assignment is binding upon and inures to the benefit of the parties hereto and their respective successors and assigns.
