## ASSIGNMENT OF INTELLECTUAL PROPERTY

This is an Assignment of Intellectual Property (“Assignment”) effective as of December 18, 2014, by StarMedTec GmbH, a German company (“Assignor”), to Boston Scientific Limited, an Irish company (“Assignee”).

### Background

WHEREAS, pursuant to and in order to effectuate a separate Intellectual Property Transfer Agreement between the parties, Assignor desires to assign and transfer to Assignee all Assignor’s interest in the intellectual property rights defined below, in accordance with the provisions set forth herein.

NOW, THEREFORE, in consideration of and subject to each of the covenants, terms and conditions hereinafter set forth, Assignor hereby agrees as follows:

### ARTICLE I – DEFINITIONS.

Section 1.1 “Intellectual Property Rights” means:

(a) rights in patents, patent applications and patentable subject matter, whether or not the subject of an application, including but not limited to the patents and patent applications listed on Schedule A;

(b) rights in trademarks, service marks, trade names, trade dress, and other designators of origin, including but not limited to the trademarks and trademark applications listed on Schedule B;

(c) rights in copyrights, copyrightable subject matter, design rights and protectable designs;

(d) trade secrets;

(e) know-how; and

(f) all other intellectual and industrial property rights of every kind and nature and however designated, whether arising by operation of law, contract, license or otherwise, including those Assignor’s rights that relate to core technologies, developed technologies or purchased research and development.

Section 1.2 “StarMedTec Intellectual Property Rights” means Intellectual Property Rights owned by Assignor and used or held for use by Assignor in its business as presently conducted or proposed to be conducted.

Section 1.3 “StarMedTec Licensed-In Intellectual Property Rights” means Intellectual Property Rights owned by a third party that are used or held for use by Assignor in its business as presently conducted or proposed to be conducted.

Section 1.4 “Software” means computer programs or data in computerized form, whether in object code, source code or other form.

## ARTICLE II – ASSIGNMENT OF INTELLECTUAL PROPERTY RIGHTS.

Section 2.1 Assignment. Assignor hereby assigns, transfers and conveys unto Assignee the entire right, title and interest in and to:

(a) All patents included as part of StarMedTec Intellectual Property Rights together with the invention(s) disclosed therein, including each and every patent which is granted on any application which is a division, substitution or continuation of said patents, all patents which claim priority to said patents, and all associated rights under the International Convention;

(b) All other StarMedTec Intellectual Property Rights, including (without limitation) all StarMedTec Licensed-In Intellectual Property Rights (but solely to the extent transfer is permitted by applicable agreements) and rights in Software; and

(c) The rights assigned under Section 2.1(a) and Section 2.1(b) above include each and every reissue, re-examination or extension of any patent, any and all causes of action and rights of recovery for past and future infringements or misappropriations of any Intellectual Property Right, and all of the rights vested in said Assignor herein by virtue of the instruments of assignment and/or by virtue of other instruments pursuant to which Assignor became vested with said ownership.

Section 2.2 Cooperation in Transfer. Assignor hereby covenants and agrees to cooperate with Assignee whereby the latter may enjoy to the fullest extent the right, title and interest herein conveyed. Such cooperation shall include prompt execution of all papers prepared at the expense of Assignee which are deemed necessary or desirable by Assignee to perfect in it the right, title and interest herein conveyed. Nothing herein shall effect the transfer or assignment of any agreement or other Company Intellectual Property Rights to the extent that such transfer or assignment would constitute a material breach of such agreement or cause loss of such Company Intellectual Property Rights, but the Assignor shall take such actions as are necessary to place Assignee, to the extent possible, in the same position economically as if such agreement or other Company Intellectual Property Rights had been transferred as contemplated hereby.

## ARTICLE III - MISCELLANEOUS.

Section 3.1 Representations and Warranties. Assignor makes no representations or warranties concerning the rights transferred under this Agreement.

Section 3.2 Binding Effect. The terms, covenants and provisions of this Assignment shall inure to the benefit of Assignee, its successors and assigns, and shall be binding upon the Assignor, its successors, assigns and/or other legal representatives.

Section 3.3 Entire Agreement. This Agreement, and any documents referred to in it, sets forth the entire agreement and understanding of the parties with respect to the transactions contemplated hereby and supersedes all prior agreements, arrangements and understandings relating to the above subject matter hereof.

IN WITNESS WHEREOF, Assignor has executed and delivered this instrument effective as of the date first written above.

StarMedTec GmbH

By   
Vance R. Brown, Managing Director

Accepted and agreed:

Boston Scientific Limited

By   
Douglas J. Cronin, Director
